THE PROFESSIONALS REPRESENTING OUR BRAND. MEET THE H-TEAM AMBASSADORS

Andy Campbell – Forestry (left)

Andy has spent most of his working life in the forest. When not logging or running chainsaw training courses he may be found training for and competing in precision chainsaw competitions both here in the UK and abroad. He has represented the UK in all 5 of the European Logging Championships since they started in 2009. Andy is chairman of the UK Loggers, who send a team to represent the UK in the World Logging Championships where he has attended as team leader for numerous years. The UK Loggers also run our annual national precision chainsaw championship. Andy is also a Technical Standards Verifier for Lantra Awards and an assessor for City and Guilds certificates of competence.

Josephine Hedger – Arboriculture (centre)

Multiple World and European Tree Climbing Champion and former foot locking world record holder. As well as regularly competing globally, Josephine runs a successful arborist business with her husband, employing 10 people and also runs an Arboriculture training school. Josephine is extremely passionate about climbing and the Arboriculture industry.

Tim Bendle – Forestry & Arboriculture (right)

Tim has 34 years experience working as a professional contractor in the Forestry & Arboriculture Industry. Tim's extensive experience stretches to 25 years as a City & Guilds NPTC Assessor and Lantra Instructor in Forestry and Arboriculture. Tim is also one of the Principal Technical Standards Verifiers for City & Guilds NPTC and a long standing Lantra Technical Standards Verifier for Forestry and Arboriculture. Tim performs independent training and also is contracted to the Royal Agricultural University, Cirencester covering all chainsaw, climbing and forestry/arboriculture machinery activities. Tim has enjoyed a close working relationship with Husqvarna for the last 25 years and feels passionate about the brand and its continued support to the Forestry & Arboriculture Industry.

HusqvarnaUK / HusqvarnaGardenUK

Husqvarna tools for forests, parks and gardens are born from a unique relationship between man, machine and nature – between our company and the people who use our equipment to shape nature every day. Dedicated people, who need the very best tools and machines to achieve the very best results.

When the going gets tough, Husqvarna tools are tougher. When work gets hard, they're lighter, more comfortable to handle and easier to use. Yet they always affect your surroundings as little as possible when it comes to noise and pollution. Our job is to make you better and make sure you get the job done – smarter, easier and more efficient and safe than ever.

WE ARE IN TUNE WITH NATURE

At Husqvarna we take great pride in driving our business with one clear goal: to always stay in tune with nature. For us, that means that in everything we do we strive to create beneficial links between us, our users and nature. Our products are developed to create intelligent relationships between people and nature, between our users and their gardens, through the use of the most intuitive technology and cutting-edge solutions available. We are in tune with nature, to enable a smart and carefree user experience. Today and tomorrow.

A SIMPLER LIFE WITH INTELLIGENT TECHNOLOGY

Intelligent technology helps us provide solutions that simplify our customers' lives. Be it by integrating voice-commands through Alexa or Google Home, remote control app solutions, or energy-efficient brushless motors, we always look to new ways of applying our innovations to simplify and support a more efficient experience. Technology is the bridge that enables us all to be even more in tune with nature.

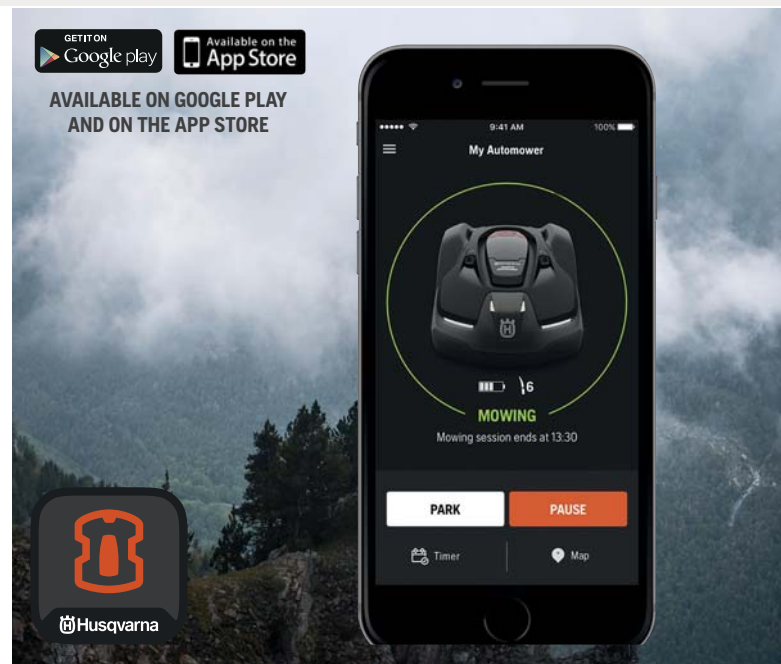

CONTROL YOUR ROBOTIC MOWER FROM THE PALM OF YOUR HAND

The Husqvarna Automower® Connect app allows you to take full control of your Husqvarna robotic lawn mower. The app provides two modes of connectivity depending on model: Automower® Connect for long-range connectivity using cellular communication, or Automower® Connect@Home for short-range, using Bluetooth. See the status, start or stop, configure the settings or track the mower's GPS position – all from your phone.

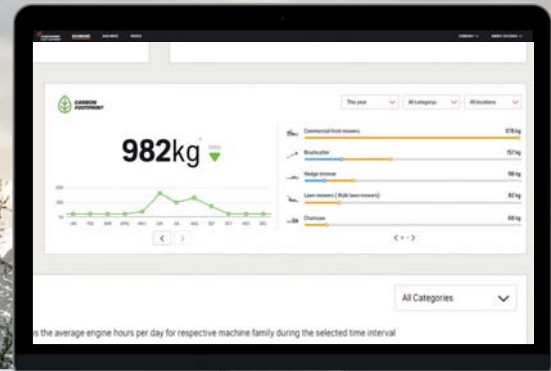

Our open API solution enables endless connectivity possibilities of personalisation and add-on features through IFTTT (If This Then That).

MINIMISING THE IMPACT

Being in tune with nature equals a certain amount of demands – on us as a company as well as on our conscious customers. Respect for our environment and a sustainable mindset are a given. When investing in a Husqvarna product you can always rest assured every conceivable measure has been taken to minimise its impact and its carbon footprint.

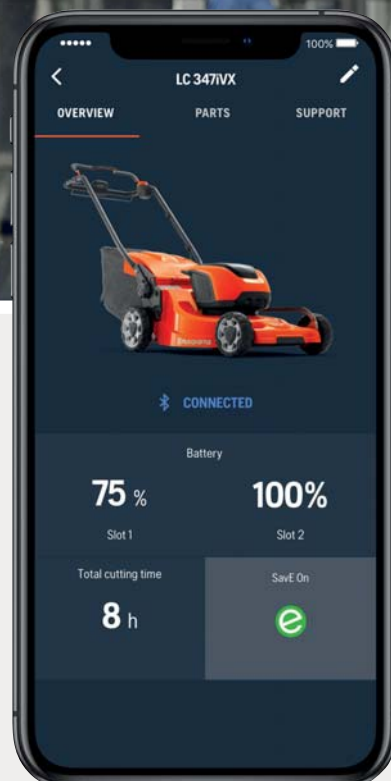

TOWARDS A CAREFREE EXISTENCE

A carefree experience starts with proud users who want to live full lives, enhanced by smart solutions. People who want their product to do its job with minimum supervision, who want to be able to relax, safe in the knowledge that their products always deliver at peak performance, with a minimum of labour investment. People who rely on technology to aid them in achieving a perfect result as well as a better tomorrow, every time.

ELEVATE YOUR EXPERIENCE WITH THE HUSQVARNA CONNECT APP

The Husqvarna Connect app is a free of charge, digital toolshed for all your equipment, making your garden work easier and more rewarding. If you own any of our products equipped with Bluetooth, you get access to additional features such as runtime statistics, charge status, maintenance notifications, local dealer details and more.

AVAILABLE ON GOOGLE PLAY
AND ON THE APP STORE

NO MATTER YOUR NEEDS, WE HAVE THE SOLUTION

The Husqvarna product range covers everything from small and easy-to-use machines for common household tasks to heavy-duty, professional equipment with outstanding power-to-weight ratio designed for intensive full time use. So, no matter your needs and requirements, Husqvarna can provide you with the best solution.

OCCASIONAL USE

100 SERIES

- BATTERY
- PETROL

The 100 series are designed for occasional use in smaller areas. The range offers durability, ease of use and minimal need for maintenance that will turn the machines into an essential part of the care of your lawns, hedges and trees. Ideally suited for use in residential gardens or for garden enthusiasts. For ultimate convenience select the 100 Series Battery range with low noise resulting in minimal disturbance, plus it's as easy as pushing a button and off you go.

Ideal for applications including:

- Domestic use
- Small areas
- Light garden maintenance and pruning

DEMANDING OCCASIONAL USE

200 SERIES

- BATTERY
- PETROL

The 200 series are designed for more demanding occasional use in small to medium areas. The range is ideally suited for demanding use in residential gardens or by garden enthusiasts with more challenging areas to maintain. Offering higher capacity and increased features over the 100 series the machines are able to tackle a wider range of conditions efficiently and effortlessly. The products are focused on ease of use for more occasional use.

Ideal for applications including:

- Demanding domestic use
- Small to medium areas
- Garden maintenance

FREQUENT USE

300 SERIES

- BATTERY
- PETROL

The 300 series are designed for frequent use in medium to large areas. The range offers good levels of performance for more demanding situations and smart features to make the task at hand easier and more enjoyable. Ideally suited to landowners, farmers and demanding domestic users who require durable machines delivering good levels of performance and operator comfort for moderate and frequent use.

Ideal for applications including:

- **Frequent domestic use**
- **Medium to large areas**
- **Landowner use**
- **Farm and estate maintenance**

PART-TIME USE

400 SERIES

- BATTERY
- PETROL

The 400 series are designed for part-time use in larger areas. The range offers higher levels of performance and durability with smart features to improve user comfort and operating efficiency. The products are ideally suited to landowner and landscaper use. They are also suited for professionals who require good performance for more moderate and less frequent use.

Ideal for applications including:

- **Landowner use**
- **Landscapers**
- **Farm and country estates**
- **Larger areas**
- **Sports facilities**
- **Part-time grounds maintenance**

FULL-TIME USE

500 SERIES

- BATTERY
- DIESEL
- PETROL
- HYBRID

The 500 series consist of a wide range of full-time use products developed especially for the demands of intensive professional use in a range of applications. The 500 series offer maximum performance and durability levels, this in combination with low emission technology and user focused ergonomics provides increased productivity and efficiency, as well as a better more sustainable work environment.

Ideal for applications including:

- **Green space maintenance**
- **Sports and recreational**
- **Landscaping**
- **Arboriculture**
- **Forestry**
- **Noise sensitive areas (Battery)**

EXPERIENCE
SINCE 1973**
HUSQVARNA GROUP

DO ANY JOB WITHOUT NOISE OR EMISSIONS

The Husqvarna Battery Series offers all the power, performance and intuitive design you expect from Husqvarna. Our range of highly-efficient handheld products, driven by a powerful Li-ion battery pack, ensure that you get significantly less noise and vibrations, minimal maintenance – and no direct emissions at all. Also, you can switch batteries between machines, because Husqvarna batteries are interchangeable between all Husqvarna battery products.

WHAT YOU GET AND HOW WE DO IT

DON'T DISTURB

No petrol, no fumes, no exhausts and low noise – the silent motor provides a comfortable working environment and low disturbance for the surrounding areas.

MAXIMUM RUNTIME

Husqvarna battery handheld products feature savE™, a battery economy mode which you can choose when you want to maximise your operational time. Some models also feature 3 performance settings allowing you to match power performance to the job in hand.

PROTECTED CORE

Our batteries are all developed in-house and designed to withstand tough and frequent use. All sensitive components and cells are encapsulated and well protected against rain and dirt.

HIGH PERFORMANCE

Our brushless electric E-TORQ motors, developed in-house, deliver high, consistent torque from low revs – enough for the most demanding tasks. The E-TORQ motors are encapsulated and designed to be maintenance-free.

MADE TO FIT

Husqvarna's battery products and motors are developed directly together with the batteries. This means purpose-adapted application design that makes the machines both lighter and slimmer.

WHY CHOOSE BATTERY?

THE BENEFITS OF THE HUSQVARNA BATTERY SERIES

MAXIMUM FLEXIBILITY

Our battery system can be used on all Battery Series products making them extremely flexible. The batteries have features which prolong lifespan and allow them to be run and recharged continuously. Always ready to use.

HIGH PERFORMANCE

Powerful compact long-life Husqvarna developed motors with low weight offer instant and equal torque no matter what the operating speed. This results in performance which exceeds petrol equivalent machines. Our E-TORQ motors also offer 90% efficiency for maximum runtime.

SAVES YOU MONEY

Costing as little as 4p to recharge a battery, the machines have a much lower cost to operate compared to petrol equivalents. The benefits are even higher when used professionally or full time.

EASY TO USE

Low weight and excellent balance make the products extremely comfortable to handle. The machines are switched ON and OFF at the push of a button via the unique keypad making them effortless to start and also protected against accidental activation.

PROFESSIONAL DURABILITY

Using our vast experience of what is required to meet the needs of professional use, all of our 500 series battery products are put through the same duration lab test procedures as our 500 Series 2-stroke petrol products.

HEALTHIER WORK

With no direct emissions our battery products are clean and pleasant to use. This is especially beneficial when working in confined spaces and allows safe use in covered and indoor areas.

LOW NOISE

Products are up to 18db(A) lower noise than petrol equivalents. A reduction of 3dB(A) is seen as half the noise level. This makes for a comfortable work environment and low disturbance for others, enabling the possibility to work in noise sensitive areas.

ALL WEATHER USE

Our 500 Series products are IPX4 rated and can be used in the most demanding weather conditions. The sealed motors, electronics and batteries protect against ingress of dirt and moisture allowing you to keep working.

COMFORTABLE USE

With less moving parts our products offer lower levels of vibration when compared to equivalent petrol machines. This allows the machines to be used for longer periods maximising work output whilst increasing comfort.

FLEET SERVICES

Husqvarna Fleet Services is fully compatible with the Husqvarna Battery Series. Fleet Services allows landscapers and contractors to take full control of their operations. Giving insights in to their daily business allowing a more profitable & efficient operation.

Husqvarna's professional range of battery products have brought a new and refreshing aspect to a 34 year career in tree care for me. Apart from the physical and environmental benefits, Husqvarna's battery powered products have given me a faster, more efficient and far more enjoyable way of working."

Tim Bendle, H-TEAM Ambassador

MAXIMUM FLEXIBILITY AND OPTIMUM PERFORMANCE

WHY WE USE 36V LI-ION

If we compare a 36V Li-ion (5.2Ah) battery versus a 72V Li-ion (2.6Ah) battery:

TO IMPROVE BATTERY PERFORMANCE IT REQUIRES:

Number of cells a battery can be increased by	10 (BLi100)	20 (BLi200)	30 (BLi300)	40
36V BATTERY	✓	✓	✓	✓
72V BATTERY	✗	✓	✗	✓

OFFERS MAXIMUM FLEXIBILITY

FOR USE WITH HANDHELD MACHINES

- ✓ RANGE OF APPLICATIONS
- ✓ COMPACT SIZE
- ✓ HIGH PERFORMANCE
- ✓ LOW WEIGHT

Battery capacity used for illustrative purpose only

PRODUCT USE GUIDE

WORKING TIME ON ONE CHARGE

The working time available with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with and the type of work you are doing. The chart shows an estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations.

OCCASIONAL USE

The 100 Series combi pole system is perfect for trimming and pruning high trees and hedges where long reach is required. The telescopic pole allows you to adjust the length whilst the split shaft makes transport and storage easy.

The hedge trimmer and pole saw attachments are interchangeable meaning you only need one machine for two tasks.

Ideal for applications including:

- Domestic use
- Garden maintenance and pruning
- Tall trees and hedges
- Tree thinning

120iTK4-P - KIT

NEW
SPRING

Li-ion 36V

A lightweight battery-powered pole saw with good cutting capacity, low noise and no direct emissions. The telescopic tube provides reach of up to 4 metres. Part of the 120iTK4 Combi Series.

- 10 m/s chain speed
- Split shaft - transport mode
- Tool-less tensioner
- Keypad with savE™
- 275 cm length
- Kit includes BLi10 and QC80

Technical Extreme PPE for professional performance. Pages 268 - 269

FULL-TIME USE

High performance battery grass trimmers, brush cutters and clearing saw designed for professional use. The products feature compact high torque motors giving constant levels of torque no matter what the cutting speed. This makes them ideal for a range of applications.

All models offer petrol performance with lower noise, running costs and no direct emissions.

Ideal for applications including:

- **Landscape maintenance**
- **Parks and public spaces**
- **Noise sensitive areas**

535iRXT

High-performance battery bull horn brushcutter designed for professional use in medium applications. 35 cm³ petrol equivalent performance.

- Fleet Services™ ready
- ErgoFeed™ auto line feed
- Integrated or backpack batteries
- ErgoFeed™ head and grass blade
- Low Vib®
- Magnesium chassis
- Weatherproof (IPX4)
- Balance XB™ Harness

520iLX

Professional use battery loop handle trimmer with 2-way rotation trimmer head.

- Brushless motor
- Two way head rotation
- Blade capable
- Keypad with savE™
- T25B Tap'n Go head
- Weatherproof (IPX4)

BLi200 BATTERY

Powerful integrated batteries designed for professional use. High power to weight ratio with maximum capacity for longer run times.

- Ideal for 500 series
- 4 LED charge indicator
- Up to 1500 charges
- Continuous use
- All weather use
- Battery management system
- Active cooling

Type	Capacity	Energy	Weight
36V Li-ion	5.2 Ah	187 Wh	1.3 kg

COMFORTABLE BATTERY SYSTEM BELT

Husqvarna Flexi battery belt allows you to carry your spare Husqvarna BLi batteries and accessories on your hips for added comfort during long, efficient workdays. By connecting your product to a battery in the belt, you can also reduce the carrying weight. Durable and comfortable design for tough work.

Robust design for carrying a number of batteries and accessories

Water-resistant material

Possible to add braces, available as option.

5 fixing points for batteries and application specific tools

Tool-less system for moving batteries and accessories

Universal carrying system for accessories

BATTERY BELT FLEXI - CARRYING KIT

For carrying up to 3 spare integrated BLi batteries as well as additional accessories. Ideal for when working remotely.

- 5 fixing points
- Carry up to 3 BLi batteries
- 2 BLi carriers included
- Accessory bag included

Model	Order PNC	RRP ex VAT	RRP inc VAT
Flexi carrying kit	590 77 67-01	£74.99	£89.99

BATTERY BELT FLEXI - ADAPTER KIT

Enables Husqvarna BLi integrated batteries to be connected to the product from the belt instead of in the product, reducing overall product weight.

- 5 fixing points
- Carry up to 3 BLi batteries
- 1 BLi carrier included
- 1 BLi carrier with adapter included
- Accessory bag included

Model	Order PNC	RRP ex VAT	RRP inc VAT
Flexi adapter kit	590 77 67-02	£116.66	£139.99

BATTERY BELT FLEXI - CONNECTOR KIT

Enables backpack battery only products to be powered using a BLi integrated battery whilst allowing additional batteries and accessories to be carried.

- 5 fixing points
- Carry up to 3 BLi batteries
- 1 BLi carrier included
- 1 BLi carrier with connector included
- Accessory bag included
- Connector for 536LiBX / 530iBX only

Model	Order PNC	RRP ex VAT	RRP inc VAT
Flexi connector kit	590 77 67-03	£124.99	£149.99

HARNESS FOR TOOL BELT FLEXI

Ergonomic design together with a chest strap evens the weight over the shoulders.

Model	Order PNC	RRP ex VAT	RRP inc VAT
Harness	593 83 76-01	£27.49	£32.99

BACKPACK ADAPTER

Enables battery belt Flexi - connector kit to be used with complete battery series handheld range (excludes 536LiBX / 530iBX).

Model	Order PNC	RRP ex VAT	RRP inc VAT
Adapter kit	582 78 05-01	£74.99	£89.99

BLi CARRIER

BLi battery carrier for carrying additional batteries, clips on to Flexi battery belts. Maximum 3 BLi carriers per belt.

Model	Order PNC	RRP ex VAT	RRP inc VAT
BLi Carrier	590 77 72-01	£16.66	£19.99

A MINIMUM OF MAINTENANCE FOR MAXIMUM PERFORMANCE

Husqvarna battery-powered products need virtually no mechanical maintenance, however, sharp cutting equipment is always recommended and the electronics and software should be checked regularly to ensure problem-free operation. Let your battery product be serviced by qualified Husqvarna technicians using only Genuine Husqvarna or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

PROFESSIONAL PERFORMANCE

Our product development never stops, and neither does our collaboration with the professional forestry workers who work with our machines. This is how we create chainsaws that help you work longer, producing less vibrations for less fatigue, and equipped with features that deliver high levels of safety. Every model gives you the power, performance and design excellence you expect from Husqvarna.

WHAT YOU GET AND HOW WE DO IT

EFFICIENCY AT ALL TIMES

User-centric design not only spares your body. It also enables you to stay alert and efficient. This is why our saws are packed with solutions that make your work convenient – and efficient.

RELIABLE CONSTRUCTION

For us, efficient chainsaw work is not synonymous with just power. A durable construction along with good safety is equally important when we design our saws, to keep you and the machine in good condition.

OPTIMAL PERFORMANCE

For fuel powered chainsaws, AutoTune™ automatically adjusts the engine for optimal operation based on temperature, fuel type, altitude, etc. The battery chainsaws all feature efficient motors with an impressive power-to-weight ratio.

RAW POWER

The patented X-Torq® engine technology in our petrol-powered chainsaws uses pure air instead of an air-fuel mixture to scavenge the exhaust fumes. This results in improved fuel efficiency and lower exhaust emissions compared to conventional 2-stroke engines.

LESS FILTER CLEANING

Air injection™ – is a centrifugal air cleaning system for reduced wear and longer operating time for our petrol-powered chainsaws. You will be able to work longer shifts without cleaning the air filter.

* Compared with equivalent models without this feature.

GIVING YOU THE POWER FOR BETTER PERFORMANCE

High performing battery chainsaws designed for professional users who want a lightweight and balanced chainsaw with low running costs

Ergonomically designed handles for safe, comfortable grip. G-model equipped with heated handles.

Air Injection™ technology and new version of AutoTune™ for optimized and reliable runtime.

New professional grade filter design with improved and more robust seal between filter and filter holder capable of handling extremely dusty and dirty conditions.

Extremely well-balanced saw body with low gyroscopic forces for the very best manoeuvrability and handling.

Improved cutting capacity (an increase of up to 15% compared to the predecessor)

New and improved engine design, better cooling capacity and longer lifetime.

Visible fuel level and secure fuel cap with threads for gradual pressure relief to prevent fuel spill.

CARE

Find out more on page 257

IMPROVE YOUR PERFORMANCE AND STAY COMFORTABLE AND SAFE

Husqvarna's X-Cut™ chains and X-Force™ bars are specially developed and are the perfect match for Husqvarna chainsaws. By choosing X-Cut™ and X-Force™, you'll be sure to get the very best performance from your chainsaw.

Read more on page 68

In order for you to stay safe while working, we offer an extensive range of protective clothing with the latest innovations in design and material. All our clothing will provide you with the level of protection and comfort you need to get the job done safely.

OCCASIONAL USE 100 SERIES

FOR A PRUNING AND CUTTING FIREWOOD

Chainsaws that deliver good performance and are designed with ease of use in mind, intended for occasional use.

PART-TIME USE 400 SERIES

FOR FELLING, ESTATE MAINTENANCE AND FIREWOOD

All-round petrol and battery chainsaws that are easy to start, use and maintain. Designed for more frequent use in more demanding conditions.

FULL-TIME USE 500 SERIES

FORESTY AND ARBORICULTURE

Our most technically advanced range of chainsaws designed for full-time intensive use in the most demanding conditions. The XP® range are developed solely to maximise your performance offering excellent power to weight ratio, class leading ergonomics and innovative solutions which optimise performance without compromise.

ARBORICULTURE T 500 SERIES

FOR TRAINED ARBORISTS

Our top-handle saws are all slim, lightweight, convenient and powerful machines. Features such as Low Vib and Air Injection™ enable you to work nonstop at consistently high performance levels, even when you are tackling challenging work in really difficult conditions.

LEARN ABOUT SAFE AND EFFICIENT TREE FELLING

Welcome to Husqvarna Chainsaw Academy – our online source about how to work safely, conveniently and efficiently at all times. You'll find everything from guides about choosing the right chainsaw, planning the felling and making the directional notch to limbing and cross-cutting. Includes tips on what to wear, and useful tools and accessories. **Go to chainsawacademy.husqvarna.com**

OCCASIONAL USE

Chainsaws that deliver good performance and are designed with ease of use in mind, intended for occasional use.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

120i - KIT

Light, extremely easy to use battery powered saw ideal for garden maintenance, features tool-less chain tensioner.

- Brushless motor
- 12 m/s chain speed
- 30 cm / 12" bar
- Keypad with savE™
- Low noise
- Kit includes BLi20 and QC80

PART-TIME USE

All-round petrol and battery chainsaws that are easy to start, use and maintain. Designed for more frequent use in more demanding conditions. Standard features include; easy starting, flip up filler caps, quick release engine cover and a combined start / stop switch. 340i battery chainsaw offers 40 cm³ petrol equivalent performance whilst being easy to use and low noise.

Ideal for heavier duty tasks such as:

- Farm and estate maintenance
- Heavy duty firewood cutting
- Felling larger trees
- Pruning

“The T540i XP® has meant I get all the benefits of using battery products but with the added bonus of more power and cutting capacity to deal with larger diameter timber. I have been very impressed with this chainsaw and believe this is a game changer for the Arb industry.”

Josephine Hedger - H-TEAM Ambassador

FULL-TIME USE

Specialist professional polesaws designed for the pruning and thinning of trees or cutting back thick tall hedges from the ground. Fixed length versions designed for applications where a shorter length is required and telescopic versions for maximum reach.

Ideal for applications including:

- Forestry
- Arboriculture
- Horticulture
- Utilities maintenance
- Agriculture

530iP4

Robust fixed length battery pole saw designed for professional use. Lightweight and well balanced with petrol equivalent performance. Weatherproof (IPX4).

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level, according to ISO 22868, is calculated as the time-weighted energy total for different sound pressure levels under various working conditions. Typical statistical dispersion for equivalent sound pressure level is a standard deviation of 1 dB (A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–3 dB(A). ***Equivalent vibration level, according to ISO 22867, is calculated as the time-weighted energy total for vibration levels under various working conditions. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation) of 1 m/s².

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR CHAINSAW

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Genuine Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

GIVE YOUR CHAINSAW EXTRA PERFORMANCE

Husqvarna bars and chains are built to the same high standard as our saws. By combining high quality materials with product development based on the demands of forestry professionals, we can specify the bar and chain combinations that deliver maximum efficiency and cutting performance with your Husqvarna chainsaw. Our **X-CUT™** chains and **X-FORCE™** bars are developed with our saws, giving you the optimal total performance you need to get the most out of your chainsaw.

WHAT YOU GET AND HOW WE DO IT

HUSQVARNA FOR YOUR HUSQVARNA

Husqvarna manufactured bars and chains have been developed to work optimally with our chainsaws, increasing your output and cutting efficiency.

EASY MAINTENANCE

Our bars and chains offer you a product with easier maintenance and a design that gives longer product lifetime with minimal downtime.

TOUGHER AND MORE DURABLE

Improved durability across our new bars and chains give an extended product lifetime and minimal down time which reduces overall cost of ownership and increases productivity.

10% MORE EFFICIENT

After rigorous testing, our **X-CUT™ SP33G** chain has been found to give 10% more cutting efficiency* increasing your output and productivity.

MADE IN SWEDEN

Our **X-CUT™** chains have been researched, designed and manufactured in our state-of-the-art factory in Huskvarna, Sweden** to give optimal output with our chainsaws.

* Compared to our H30 chain

**SP21G not manufactured in Sweden

MINIMUM DOWNTIME, MAXIMUM RESULTS

Our **X-CUT™** chains are the first ever saw chain to be developed, designed and manufactured by Husqvarna, in Sweden where our chainsaws are developed and tested. Husqvarna **X-CUT™** is designed to maximise your output, allowing you to work harder for longer without interruptions.

MORE RUN TIME AND LESS MAINTENANCE

Cutters, materials and manufacturing processes are refined to the extreme, giving the **X-CUT™** chain outstanding sharpness out of the box, and even more importantly — sharpness that lasts considerably longer before filing is needed.

GOLDEN TIE STRAP

Thanks to the intuitive golden tie strap function, you easily locate the starting point, simplifying the filing of the chain.

BETTER RESULTS, EASIER WORK

X-CUT™ is made for making faster cuts, and it's ready to be used straight out of the box. This improves your efficiency — and your results. The smooth cutting reduces the feed force needed, making the work easier on your body.

LESS ADJUSTMENTS AND LESS RISK OF DAMAGE

The **X-CUT™** chain is pre-stretched at the factory so you can work longer before re-tensioning is needed. No unnecessary chain tension required. The risk of damaging the cutting system with a slack chain is also decreased.

LESS COST AND LESS SERVICE

A carefully balanced combination of construction, materials and processes mean excellent, dynamic durability. Wear on the cutting system is reduced — and so is the need for service.

X-CUT™ CHAIN

HUSQVARNA X-CUT™ SP33G

Semi-chisel pixel .325" 1.3 mm chain developed and manufactured by Husqvarna. Low kick guard, narrow kerf, low stretch and bumper drive link. Developed for demanding professional use on mid-size chainsaws, up to 55 cm³. Original equipment on most Husqvarna 400 series chainsaws.

HUSQVARNA X-CUT™ S93G

The semi chisel 3/8" mini 1.3 mm S93G chain is developed to fit smaller chainsaws like the 100 Series or arborist top-handle saws. Optimised geometry and grinding provides high cutting speed. High cutting efficiency balanced against the available power from the chainsaw will enable a smooth and precise cut.

HUSQVARNA X-CUT™ SP21G

SP21G is a semi chisel .325" mini 1.1 mm chain especially developed to increase the cutting speed and efficiency for full-time professional use battery chainsaws. The chain is energy efficient and the optimised geometry delivers a consistently smooth cut, excellent bore cut as well as improved handling and manoeuvrability.

HUSQVARNA X-CUT™ C85

An advanced, full chisel, high performance 3/8" 1.5 mm chain for full-time professional forestry saws. With its outstanding durability and cutting efficiency, a sharpness that lasts and low stretch, it gives you better results, less need for maintenance and lower costs.

GET THE PERFORMANCE PACKAGE FOR YOUR HUSQVARNA CHAINSAW

All of our **X-CUT™** chains are tested and developed with our chainsaws, ensuring they give you maximum performance and the best cutting efficiency when used with our saws.

Read more about our bars and chains on our website:
www.husqvarna.com/uk

“The **X-CUT™ C85** is the sharpest and most durable low stretch chain I have ever used. The quality and quantity of wood chips on the ground speak for themselves!”

Andy Campbell - H-TEAM Ambassador

USING DIFFERENT CHAINS

Husqvarna offers a wide range of chains for different needs. Use the chart below to find the recommended chain for your chainsaw:

PITCH	RECOMMENDED cm ³	HUSQVARNA REF	CUTTER TYPE
1/4"	Polesaws, carving, battery chainsaws	H00	Micro chisel
3/8" Mini Pixel	Battery chainsaws	H38	Chamfer chisel low kickback
.325" Mini	Battery chainsaws	X-CUT™ SP21G	Mini - semi chisel
3/8" Mini	up to 40cc / Arborist chainsaws	X-CUT™ S93G	Semi chisel low kickback
Pixel .325"	40cc - 50 cm ³	X-CUT™ SP33G	Pixel - semi chisel
.325"	50cc - 60 cm ³	H25	Semi chisel
3/8"	60cc - 95 cm ³	X-CUT™ C85	Chisel
.404"	95cc - 120 cm ³	H64	Chisel

DESIGNED BY HUSQVARNA FOR YOUR HUSQVARNA

X-FORCE™ is Husqvarna's answer to the challenge for the perfect guide bar – that is both lightweight and low-maintenance to minimise your burden, yet durable enough to withstand tough work over long time. Husqvarna **X-FORCE™** guide bars are developed alongside Husqvarna **X-CUT™** chains, optimised for Husqvarna chainsaws. The result is a cutting system that makes your chainsaw perform on an entirely new level – delivering a fast, precise kerf with minimal friction loss.

PROLONG YOUR BAR AND CHAIN LIFE

Always use Husqvarna chain oil. Incorrect use of chain oil is a common source of damage to saws and tends to lead to rapid wear of the bar, or the chain jamming or derailing. Our full range of chain oils can be found on page 281.

KEEPING STANDARDS

Testing and fulfilling ISO, EN and ANSI standards and internal standards is a priority in the development of new Husqvarna accessories. Regular testing during production ensures lasting quality.

HUSQVARNA XP® POWER 2

FUEL DEVELOPED SPECIFICALLY FOR HUSQVARNA TWO-STROKE ENGINES

There is no better fuel for your Husqvarna chainsaw than our XP® Power 2 manufactured to unique Husqvarna specifications. Conveniently pre-mixed with exactly 2% of Husqvarna XP® synthetic two-stroke oil, it provides efficient combustion leaving a cleaner, cooler, healthier engine with a minimum of harmful substances in the emissions. It also prevents inner corrosion, makes starting easier, reduces the need for service and minimises downtime. VEF approved.

Anti-clog oil pickup for improved lubrication

USING DIFFERENT BARS

X-FORCE™ BARS

The **X-FORCE™** laminated bars offer easier maintenance and increased productivity. Depending on the model, these benefits come from features such as updated profiles, larger nose sprocket, cutouts in the centre plate, additional bearings, supported shields, and the removal of the grease hole. Available in 3/8" (15–20"), 3/8" Mini (12–14") and .325" (13–20").

HUSQVARNA X-TOUGH™ BARS WITH REPLACEABLE SPROCKET NOSE

Solid RSN bar with great durability and robustness. The load is transferred to the high-quality roller bearing. The bars are coated to protect against scratches and corrosion. Replaceable tip is available as a spare part. Available in 3/8" (18–28").

HUSQVARNA X-TOUGH™ BARS WITH HARD NOSE

Recommended for use with long bars to reduce load on the bar tip. The load is transferred to the high-quality roller bearing. The bars are coated to protect against scratches and corrosion. Replaceable tip is available as a spare part. Available with 3/8" chain pitch in lengths 18–28"

LAMINATED BARS WITH NOSE SPROCKET

The gentle curve and small nose radius reduce the risk of kickback and facilitates good cutting control. Coated bars to protect against scratches and corrosion. Available in 3/8" Mini (10–16").

CARVING BAR - SMALL MOUNT

Carving bars have a smaller nose radius and are suitable for sculpting and other precision work. Available in 1/4" (10–12").

HUSQVARNA X-PRECISION™ BARS

The X-Precision™ bars are designed specifically for use with the X-Cut™ SP21G chain on battery-powered professional chainsaws. The optimized overall geometry and small nose radius provide efficient cutting with precise control, excellent bore cutting properties and reduced risk of kickback. Available in .325" mini (10–16").

FILING EQUIPMENT

A sharp chain is as important as a powerful engine. For your chainsaw to operate effectively, safely and with precision it is vital to have a sharp chain. How often it needs to be sharpened depends on how frequently you use it. A good indication of the condition of your chain is the appearance of the wood chips. A sharp chain will produce fine, even wood chips, while a dull chain generates sawdust. You'll need a round file, a flat file and a filing gauge to file a chain. We also recommend that you use a stump vise to hold the bar, leaving both hands free for filing.

FILING THE CUTTING TEETH

File using light and even pressure, with gentle pushing strokes, parallel to the gauge. Try to get the same length of all cutters.

INTENSIVE ROUND CUT FILES

Designed for optimal cutting performance and longer lifetime.

Item	Order PNC	RRP ex VAT	RRP inc VAT
4.0 mm - 3 pack	597 35 48-01	£4.16	£4.99
4.0 mm - 12 pack	597 35 48-02	£14.16	£16.99
4.5 mm - 3 pack	597 35 55-01	£4.16	£4.99

5.5 mm - 12 pack	597 35 61-02	£14.16	£16.99

FLAT FILES

Quality files which give you the right geometry of the cutter.

Item	Order PNC	RRP ex VAT	RRP inc VAT
Flat files 6" - 12 pack	505 69 81-61	£29.16	£34.99
Flat files 8" - 12 pack	505 69 81-81	£37.49	£44.99

FILE HANDLE

Patented file locking system. Fits all our files. 25° and 30° guides ensures correct file angling.

Item	Order PNC	RRP ex VAT	RRP inc VAT
File handle - Round files Ø 4.5-5.5 mm	505 69 78-01	£2.49	£2.99
File handle - Flat files	505 69 78-10	£2.49	£2.99

FILING THE DEPTH GAUGE

File all the way down to the gauge. If you file the depth gauge without a tool you, risk filing them too far down and the chain will produce chips which are too thick.

FILE GAUGES

Specifically designed file gauges that give the correct filing angles. Use together with our round files.

ACCESSORIES

1. TOOL BELT FLEXI

A flexible and ergonomic tool belt with excellent weight distribution and adjustable, one-hand-release belt buckle.

593 83 74-01 £54.16 **£64.99**

2. HARNESS FOR TOOL BELT FLEXI

Ergonomic design together with a chest strap evens the weight over the shoulders.

593 83 76-01 £27.49 **£32.99**

3. COMBI HOLSTER

Combi holster for lifting tong or lifting hook plus eyelets for measuring tape.

593 83 83-01 £20.83 **£24.99**

4. COMBI HOLSTER WITH WEDGE POCKET

Combi holster for lifting tong or lifting hook plus a pocket for wedges.

593 83 83-02 £20.83 **£24.99**

5. WEDGE POCKET

Pocket for multiple wedges, with individual sections keeping wedges in place.

593 83 88-01 £23.33 **£27.99**

6. UNIVERSAL BAG

Universal bag for first aid kit, GPS tracker, power bar and other smaller items.

593 83 92-01 £23.33 **£27.99**

7. MEASURE HOLDER

Holder to keep measuring tape in place.

593 83 91-01 £6.66 **£7.99**

8. FILE AND COMBI-TOOL HOLDER

Holder for one round and one flat file, plus combi-tool. The holder effectively prevents broken or lost tools.

593 83 94-01 £20.83 **£24.99**

9. SPRAY CAN HOLDER

Holster for a spray can that makes sure it is securely kept in its place.

593 83 95-01 £8.33 **£9.99**

10. CARRIER HOOK

A multi-purpose hook for carrying various tools, water cans or other equipment.

593 83 96-01 £8.33 **£9.99**

11. UNIVERSAL TOOL HOLDER

Multi-purpose holder for carrying tools such as an axe, impact bar etc.

593 83 97-01 £8.33 **£9.99**

12. BREAKING BAR HOLSTER

The breaking bar holster from our classic tool belt can also be used with tool belt FLEXI.

505 69 32-92 £8.33 **£9.99**

13. CALIPER HOLSTER

The caliper holster from our classic tool belt can also be used with tool belt FLEXI.

505 69 32-04 £8.33 **£9.99**

14. CRAYON HOLDER WITH REEL

Holder for crayon with spring-loaded metal reel. Crayon holder for 12 mm crayons. Robust design with a metal reel that could be attached to the tool belt or harness.

593 83 98-01 £29.16 **£34.99**

593 97 55-01, graphite crayons 12 pcs
£10.83 **£12.99**

15. ACCESSORY BAG

Extra bag, suitable for your fire extinguisher, water bottle, extra clothing and more.

590 77 71-01 £8.33 **£9.99**

Winter Oil Spout	586 11 07-01	£7.49	£8.99

+ THE SMART COMBI CAN

LEVEL WINDOW

For quick visual check of remaining fuel level.

MECHANICAL LOCK

The spout has a mechanical lock to prevent unexpected opening and leakage.

INTEGRATED TOOL BOX

Making it easy to bring extra tools and frequent parts.

OVERFILL PROTECTION

The flow stops automatically when the machine's tank is full, which means you can lift the Combi Can without spilling fuel.

ERGONOMIC GRIP

The handles are placed for optimal lifting ergonomics when carrying and refuelling.

PARKING POSITION

The spouts can be rotated into a parking position to prevent damage during transportation.

HAND SAWS

The new generation of Husqvarna saws have been ergonomically designed, to lie comfortably and safely in your hand during sawing and a stop at the end of the handle prevents you from slipping. This has proven particularly useful during pulling movements, and assists you in making smooth progress.

FOLDABLE PRUNING SAW 200FO

With a total length of 47 cm, the 200FO saw is an easy-to-use all-rounder for cutting back thicker branches. It is lightweight making it ideal for all minor sawing work in the garden, and other outdoor activities.

Order PNC	RRP ex VAT	RRP inc VAT
967 23 64-01	£24.99	£29.99

STRAIGHT PRUNING SAW 300ST

Total length of 40 cm. The rigid, straight saw blade with impulse-hardened precision toothing means you receive particularly high sawing performance, quiet running, effort-saving sawing and a very long lifetime. The particularly smooth pulling cut is ideal for fresh and dry wood. Comes with blade cover.

FOR HARD WORK AND CLEAR GROUNDS

Brushcutting and grass trimming can be tough, lengthy jobs that demand endurance from both machine and operator. This is why our brushcutters, trimmers and clearing saws combine power and extreme durability with low weight. They are designed to be easy to handle and to deliver results you can be proud of. To ensure work is handled in the most comfortable way, Husqvarna offers harnesses designed to distribute the load optimally between shoulders, chest and back. For maximum comfort on long shifts.

WHAT YOU GET AND HOW WE DO IT

RAW POWER

The X-Torq® technology reduces harmful exhaust emissions and increases fuel efficiency, making work more comfortable and more economical.*

EASY TO START, EASY TO WORK WITH

For both petrol and battery-powered products a quick, easy start is imperative and we've made sure to develop technology to meet these demands. Just push a button or pull a cord: it's as easy as it should be.

ROBUST DESIGN

Our professional range of trimmers, brushcutters and forestry clearing saws are powerful, industrious machines, designed for many years of demanding operation.

BALANCED DESIGN

The handles are designed to be adjustable and vibration-dampened. High handle bars also make working on slopes more efficient.

LONG OPERATING

Low Vib® – engines are equipped with very effective anti-vibration dampeners that absorb vibrations, sparing your arms and hands to let you work more comfortably during long shifts.

* Compared with equivalent models without this feature.

HIGH-END RESULTS, WHATEVER YOUR NEEDS

Thanks to the Tap-n-Go™ head, the trimmer line is fed automatically when the head is bumped onto the ground

Adjustable handle for optimal comfort

The intuitive key pad makes the battery trimmers very easy to operate

The Li-ion battery provides long lasting power and top class performance

The handle is vibration-dampened and adjustable for comfortable operation

The well-balanced design means easy and convenient work

Commercial grade air filter gives long operating time and trouble free use

The cutting attachment combi guard can be used with either a grass blade or a trimmer head, allowing you to quickly switch between different work tasks

The powerful and easy to start engine enables high productivity

CARE

OCCASIONAL USE 100 SERIES

TRIMMERS FOR DOMESTIC GARDEN MAINTENANCE AND OVERGROWN AREAS

Powerful and reliable trimmers, the perfect choice for giving lawn edges a great finishing touch, as well as trimming grass in those hard to reach places. All easy to handle and designed to help get the job done effortlessly.

PART-TIME USE 100 - 300 SERIES

BRUSH CUTTERS AND TRIMMERS FOR MORE DEMANDING JOBS

Designed for demanding domestic and landowner use. Perfect for farm and estate maintenance. 135R is perfect for large areas, supplied with a grass blade. 315iC battery trimmer is perfect for domestic maintenance in noise sensitive areas.

FULL-TIME USE 500 SERIES

BRUSH CUTTERS FOR FULL TIME PROFESSIONAL USE

High performance petrol and battery brush cutters designed for full-time professional use in demanding conditions. A choice of both loop and bullhorn handles to suit a range of different applications.

! STARTING AS EASY AS IT GETS

The Husqvarna 500 series of trimmers and brushcutters are equipped with intuitive controls for purge and choke. SmartStart® minimises the effort to pull the starter cord, and the stop switch automatically returns to the "ON" position. This makes the starting procedure virtually fail-safe.

HIGH HANDLEBAR

High handlebar gives increased legroom when working on slopes, which makes operation more efficient.

Opti Quadra and Opti Penta trimmer lines for a heavier duty line. Page 112

FULL-TIME USE

High performance battery brushcutters designed for full-time professional use in light to medium density applications. Bullhorn machines with high offset post and ergonomic harness for optimum working position which maximises user comfort and productivity, ideal when working for long periods. Products are supplied with a highly efficient line head and grass blade.

Ideal for applications including:

- Landscape maintenance
- Verges and pathways
- Parks and public spaces
- Overgrown areas
- Noise sensitive areas

535iRXT

High-performance battery bull horn brushcutter designed for professional use in medium applications. 35 cm³ petrol equivalent performance.

- Fleet Services™ ready
- ErgoFeed auto line feed
- Integrated or backpack batteries
- ErgoFeed head and grass blade
- Low Vib®
- Magnesium chassis
- Weatherproof (IPX4)
- Balance XB™ Harness

535iRX

High-performance battery bull horn brushcutter designed for professional use in medium applications. 35 cm³ petrol equivalent performance.

- Low Vib®
- Balance 55 harness
- Weatherproof (IPX4)
- Intuitive keypad
- 45cm cutting swath

HARNESSES

Ergonomically designed harnesses for optimised load distribution. Our harnesses effectively distribute the weight of the machine, for the best possible balance. This makes the machine feel lighter, easier to manoeuvre and less strenuous to operate.

Ideal for applications including:

- **Brushcutters**
- **Pole products**
- **Battery products**

BALANCE 35

Ergonomically designed harness that distributes the load optimally between your shoulders, chest and back. Designed for use with smaller brush cutters.

Order PNC	RRP ex VAT	RRP inc VAT

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level, according to ISO 22868, is calculated as the time-weighted energy total for different sound pressure levels under various working conditions. Typical statistical dispersion for equivalent sound pressure level is a standard deviation of 1 dB (A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–3 dB(A). ***Equivalent vibration level, according to ISO 22867, is calculated as the time-weighted energy total for vibration levels under various working conditions. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation) of 1 m/s².

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR BRUSHCUTTER OR TRIMMER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

GET ONE MACHINE FOR THE WHOLE GARDEN

ATTACHMENTS THAT HELP YOU GET RID OF EVERYTHING

Start by choosing the machine that best suits your needs – then explore our wide range of attachments. Each attachment offers a quick connection, durable design and – most importantly – sufficient power to trim dense grass, cut vigorous bushes, blow or sweep huge piles of leaves and debris. Just to give some examples of what we can help you get rid of.

ENJOY HIGHLY EFFICIENT WORK – AT WHATEVER HEIGHT

We never compromise when it comes to power, durability and productivity. Therefore, we have designed our combi machines to work equally well as our conventional machines. This means that you can enjoy convenient and powerful pole sawing, as well as really efficient and reliable cultivating.

MAXIMUM VERSATILITY WHATEVER THE TASK

Our combi trimmers are the perfect choice if you want to have a truly smart, versatile work tool. You will only have to start and warm up one machine – then you are able to quickly and easily switch between many attachments to deal with all kinds of tasks – all year round. For maximum ease of use and low noise select the battery powered 325iLK which is designed for part-time use. The petrol and battery power units, together with all attachments, are as powerful and efficient as the conventional trimmers, pole saws, hedge trimmers, and so on. Also, a combi machine means less space for storage as well as less time and money for maintenance and service.

RELIABLE PERFORMANCE

The petrol and battery power units, together with all attachments, are as powerful and efficient as the conventional trimmers, pole saws, hedge trimmers, and so on. All to give you reliable workmates that help you get the job done at all times.

START UP ONE MACHINE

If you choose petrol power you will only have to start and warm up one machine – then you are able to quickly and easily switch between many attachments to deal with all kinds of tasks – all year round.

CUTTING EQUIPMENT

All Husqvarna trimmer heads, trimmer lines and blades are designed to do more than simply cut. Their outstanding design, high quality materials and facilitating technology offer top level performance, efficiency and safety no matter what your application.

TRIMMER HEAD - TAP-N-GO™ 25-55C

Tap-n-Go™ function automatically feeds line when the head is pushed into the ground. X variants have a longer working life due to a Tap-n-Go™ button with ball bearing. T35 Universal includes adapters that allow it to be attached to most other trimmers.

SHARP TOOLS FOR GREAT LOOKS

A hedge needs time and care to stay healthy and beautiful. A well-kept hedge will provide you with privacy while giving the garden solid lines and visual appeal. Different hedges need different types of tools, which is important to keep in mind when buying a hedge trimmer. All Husqvarna hedge trimmers are powerful, precise and efficient to give great results every time. They're machines designed to make your work easier.

WHAT YOU GET AND HOW WE DO IT

BUILT TO LAST

No matter if you choose to use a battery or petrol-powered hedge trimmer, the overall robust design will provide a long service life and make sure your trimmer makes easy work of even the toughest of tasks.

LOWER YOUR IMPACT

Our battery-powered hedge trimmers are virtually free from emissions, whereas for petrol-powered machines, the engine technology helps reduce harmful exhaust emissions and increases fuel efficiency.

QUIET OPERATION

The battery operation or our low noise engine technology together with the special design make our hedge trimmers quiet and easy to use. A very important aspect for everyone who operates in residential areas.

SMOOTHER STARTING

The engine and starter have been designed so the machine starts quickly with minimum effort, getting you started quickly.

LOW VIBRATIONS

Our petrol-powered engines are equipped with effective anti-vibration dampeners that absorb vibrations, whereas battery-powered machines all produce much less vibration, sparing your arms and hands.

MAKE SURE YOU ALWAYS TRIM WITH FIRST CLASS RESULTS

Adjustable cutter bar angle

EXTENDED HEDGE TRIMMERS REACH WHERE OTHERS STRUGGLE

Articulating extended battery and petrol trimmers are perfect when you need to reach difficult places without losing performance. They have superb handling, are easy to start, suit both high and low hedges and with back folding cutting head making them extra easy to store and transport.

- + Difficult trimming
- + Low and high hedges
- + Great handling
- + Easy storage
- + Telescopic extension

DOUBLE-SIDED HEDGE TRIMMERS FLEXIBLE HANDLING AT ANY ANGLE

Double-sided hedge trimmers are designed for shaped sections of hedges. They offer efficient and comfortable operation with features such as Smart Start®, Low Vib® and adjustable handle on most models.

- + Shaping hedges
- + Coarse cutting
- + Great performance
- + Adjustable handles

SINGLE-SIDED HEDGE TRIMMERS STRAIGHT CUTS IN ONE MOVEMENT

Single-sided trimmers are supplied with long blades and still feature an optimised weight distribution to make it easier to make straight cuts with precision. The leaf catcher helps collecting leaves and debris, saving time and effort.

- + Wide hedges
- + Precision cutting
- + Comfortable operation
- + Coarse Cutting

Find out more on page 257

WHY CHOOSE A BATTERY HEDGE TRIMMER?

Low noise. No direct emissions. Low vibrations. Perfect balance. High performance. Extremely low operational cost. These are some of the criteria of an excellent hedge trimmer and that's exactly what you get from the Husqvarna Battery Series hedge trimmers. Lightweight and perfectly balanced to facilitate comfortable work, even when trimming for extended hours. Plus, you'll enjoy the low maintenance of a battery-powered tool.

OCCASIONAL / PART-TIME USE

Low weight hedge trimmers designed for domestic occasional to part-time use. Our products are designed to be user friendly with features including Smart Start® and auto-return stop switch for ease of use on the petrol products. For ultimate ease of use select the battery powered version. 100 series are perfect for domestic garden use whilst 300 series are made for cutting denser materials and to withstand tougher work.

Ideal for applications including:

- **Garden maintenance**
- **Trimming & pruning**
- **Shaping**
- **Farm & Estate maintenance (300 series)**

115iHD45 - KIT

Low weight high efficiency domestic battery hedge trimmer designed for maximum ease of use.

Reported data for equivalent sound pressure level for the machine has a typical statistical dispersion (standard deviation) of 1 dB(A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. Reported sound power level for the machine has been measured with the original cutting attachment that gives the highest level. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–3 dB(A). ***Equivalent vibration levels (ahv, eq) at handles, measured according to EN ISO 11806 and ISO 22867, m/s². Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation) of 1 m/s².

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR HEDGE TRIMMER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Genuine Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

BLOW AWAY YOUR HARD WORK

Get rid of leaves, straw, grass, cobwebs, sand, gravel – as well as the hard work. Husqvarna blowers are designed with the user in focus. Efficient and enjoyable to work with and with a range of jobs in-mind, you can be sure these blowers will handle the task effortlessly.

WHAT YOU GET AND HOW WE DO IT

HIGH POWER

Husqvarna blowers – regardless of power source – have high specification engines with optimized power output. The 580BTS delivers an air force of an impressive 40N, whereas the 550iBTX battery blower delivers 21N.

LOW NOISE

Our battery blowers offer very low noise, down to only 76.6 dB(A) on the 550iBTX. This provides a comfortable working situation for you and low disturbance for others when compared to petrol-driven machines. This makes them ideal for work in noise sensitive areas.

LONG SERVICE INTERVALS

The extensive filter area on the large petrol-powered blowers means reduced wear on the blower and longer operating time between filter cleanings.

LOW VIBRATIONS

Effective vibration damping relieves stress on the arms and hands to keep you alert and productive throughout the day.

BLOW OR VACUUM

The 125BVX can easily be turned into vacuum mode, giving you the possibility to efficiently collect debris.

BLOW THE HARD WORK AWAY

BACKPACK BLOWERS MANAGE LARGER AREAS WITH EASE

Husqvarna's backpack blowers are powerful machines that offer the user total control. They are ideal for tackling large areas and long periods of heavy work.

- + Large areas
- + Outstanding blowing power
- + Top ergonomics

The throttle handle on our blowers is positioned to neutralise the lateral forces generated by the air stream and the engine

HANDHELD BLOWERS VERSATILE AND EFFICIENT

Perfectly designed for efficient work in smaller to medium sized areas. Our handheld blowers combine high power with great balance, making them perfect for a variety of lighter as well as more demanding tasks. The handheld range includes both battery and petrol-powered blowers.

- + Small-medium sized areas
- + Great manoeuvrability
- + Petrol or battery power

CARE

Find out more on page 257

POWERFUL AND LIGHTWEIGHT BATTERY BLOWERS

They produce no fumes and less noise – and many times they're just as powerful as their petrol-fueled equivalents. An excellent choice for challenging tasks indoors. Our battery blowers also offer low weight and smart features, along with a well-balanced design. Last but not least, they're easy to use: starting and stopping with a single button press on the intuitive keypad.

OCCASIONAL / PART-TIME USE

Easy to use petrol and battery handheld blowers designed for domestic and part-time use. Products are ideal for clearing leaves and clippings around the home and garden. The battery handheld blower is ideal for use indoors and in enclosed spaces.

Ideal for applications including:

- Home and garden cleaning
- Path and driveways
- Noise sensitive areas (battery)
- Indoor and enclosed spaces (battery)

120iB - KIT

Lightweight easy to use battery blower designed for occasional use. Ideal for noise sensitive areas and use in covered spaces.

- 10.3 m³/min, 46 m/s
- Brushless motor
- Kit includes BLi20 and QC80
- In-line air outlet
- 3 performance modes

FULL-TIME USE

High performance petrol and battery handheld and backpack blowers designed for full-time professional use. With unique fan designs that generate high air velocity and powerful airflow the products are ideal for moving large volumes of dry or wet leaves and debris. Battery powered products are ideal for use in noise sensitive or enclosed spaces.

Ideal for applications including:

- Landscape maintenance
- Parks and public spaces
- Inner city cleaning
- Noise sensitive areas (battery)
- Indoor and enclosed spaces (battery)

525iB

Low weight, handheld battery blower designed for professional use. Weatherproof (IPX4) and low noise, ideal for use in noise sensitive areas.

- 13.3 m³/min, 56 m/s
- Brushless motor
- Cruise control & Boost
- In-line air outlet
- Keypad with savE™

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level at the operator's ear, measured according to EN15503 dB (A). The equivalent sound pressure level value is calculated with a work cycle of a duration of 1/7 for idling and 6/7 for racing. Reported equivalent sound pressure level for the machine has a typical statistical dispersion (standard deviation) of 1 dB(A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-3 dB(A). ***Equivalent vibrations levels (ahv, eq) at handles, measured according to EN15503, m/s². The equivalent vibration level value is calculated with a work cycle of a duration of 1/7 idling and 6/7 for racing. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation of 1 m/s²).

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

CUTTERS BUILT FOR YOUR BUSINESS

Husqvarna power cutters and diamond blades are well-known for their high productivity and reliable operation. Regardless if you prefer petrol or battery power, you'll get an optimal mix of high power-to-weight ratio, low vibration levels, ergonomic design and easy maintenance. For best cutting performance, choose a Husqvarna diamond blade optimised for both the machine and the material to be cut.

WHAT YOU GET AND HOW WE DO IT

OPTIMAL PERFORMANCE

The cylinder design and integrated heat deflectors on our petrol-driven power cutters allow for optimal engine performance regardless of variations in climate and fuel.

CONVENIENT DUST CONTROL

Outstanding dust control with minimal water and slurry. Our petrol cutters have a specially-designed water valve allowing for progressive water flow adjustment.

MAXIMUM UPTIME

A user-centric design not only spares your body, it also enables you to stay alert and efficient. This is why our saws are packed with solutions that make your work convenient – and productive.

SMOOTHER STARTING

DuraStarter™ is a virtually maintenance-free starter device featuring a dust-sealed return spring and pulley bearing and a heavy duty starter cord.

K 535i

Li-ion 36V

K 770

Battery power cutter designed for lighter concrete jobs. Ergonomic and low weight design makes it ideal for landscapers, pavers and roofers. Thanks to low vibration levels, slim design and centered placement of the blade, you get superior control compared to conventional cutters.

- 230 mm / 9" blade diameter
- Cutting depth 76 mm / 3"
- Electric retarder
- Weatherproof (IPX4)
- Specially developed blades
- Keypad with savE™
- Integrated dust suppression
- Centred blade
- Simple blade change
- Rope eyelet

DIAMOND BLADES FOR CUTTING JOBS IN ALL MATERIALS

In handheld applications, fast and smooth cutting is essential to minimise strain on the user. For maximum work efficiency and cost-effectiveness, we recommend you to choose a blade with the properties that suits the job you are about to do. Husqvarna Elite-Cut diamond blades are developed for professional users with high demands on efficiency. If you need to cut many different materials with the same blade, Husqvarna Vari-Cut is the series for you. Husqvarna Tacti-Cut series consists of diamond blades with balanced performance, developed for occasional cutting.

HUSQVARNA ELITE-CUT FOR FAST CUTTING IN ALL MATERIALS

Superb cutting performance thanks to Diagrip™ technology and innovative segment design for efficient cutting, cooling and slurry evacuation, which increases both cutting speed and service life. Easy-fit blade bushing for bore hole expansion from 20 to 25.4 mm.

HUSQVARNA VARI-CUT FOR ALL-ROUND APPLICATIONS

Vari-Cut blades have good performance and deliver high cutting speed with good service life in frequent all-round use. In this product family there are three versions for cutting in different materials, all clearly indicated on the packaging.

HUSQVARNA TACTI-CUT FOR OCCASIONAL CUTTING IN ALL MATERIALS

Provides good balance between price and performance. Recommended when you cut only occasionally and seek low cost per blade.

WHATEVER YOU LOOK FOR IN A MOWER

When you're looking for a lawn mower there are many questions you will ask, and we have an extensive range of grass cutting machines to answer all of them. From self-propelled mowers to ride-on machines, different cutting methods, and attachments to give more versatility and year round use. Most of all, choosing Husqvarna means you can be sure you are buying a machine that delivers the results you expect and has the quality to keep doing this year after year.

- + Fully automatic
- + Excellent lawn quality
- + Outstanding slope performance
- + Li-ion battery power
- + Quiet operation
- + No handling of grass clippings
- + Connectivity

AUTOMOWER® ROBOTIC LAWN MOWERS PERFECT RESULTS, EVEN IN SLOPES AND COMPLEX AREAS

If a well-kept lawn is at the top of your wish list and lawn mowing is close to the bottom, then a robotic lawn mower will give you the best solution. In fact, unless you are a really skilled lawn care specialist, you'll hardly be able to beat this robot when it comes to producing an excellent result. On especially demanding lawns, you can rely on the hard working robotic mower Automower® AWD, where the excellent all-wheel-drive easily handles slopes of up to 70 %, around the clock, day in day out.

WALK BEHIND LAWN MOWERS TRADITIONAL LAWN MOWING JUST GOT EASIER

For those who have decided on having a walk behind lawn mower, we can offer a range of machines that will fit many different types of lawns and users. If you want the versatility of different cutting methods, we recommend the collector models which also give you both mulching and rear-eject options when mowing your lawn. Because we understand that every lawn is different, you'll find a machine that has all the features you need for great results and enjoyable work.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + Collector
- + BioClip®
- + Available with battery power
- + Connectivity

ZERO-TURN MOWERS REMARKABLE RESULTS ON LARGE AREAS

If high capacity, excellent cutting results and precise manoeuvring is the combination for you, look no further. Husqvarna zero-turn mowers not only offer high levels of productivity, but are engineered to withstand the demands of any mowing job. Cutting edge ergonomics and comfort features provide everything needed to meet the requirements of demanding residential applications as well as commercial landscapers.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + ClearCut™ cutting deck
- + Zero turning radius
- + Outstanding comfort

RIDERS SUPERB IN TIGHT AND HARD TO REACH SPACES

If you want to enjoy the ride while easily getting around every obstacle, then the Husqvarna Rider is undoubtedly the mower for you. It has many features and also a wide range of attachments to get the job done. The articulated steering gives the Rider excellent manoeuvrability and a small turning radius. The front-mounted deck can cut under hard to reach places, such as bushes or along fences with no problems.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + BioClip®
- + Year round use
- + Collection
- + Connectivity

GARDEN TRACTORS YOUR GARDEN WORK HORSE

With high quality performance and easy operation, the Husqvarna tractors bring versatility to the garden workload. Their wide range of attachments and a built-in choice of cutting methods give our garden tractors excellent versatility. Ideal for efficient lawn care and various tasks around your land. The Husqvarna tractors can be fitted with trailers, spreaders, snow throwers and more, turning them into year round garden work horses.

- + Versatile cutting system
- + Collector
- + BioClip®
- + Year round use
- + Outstanding comfort

MOWING TO ROBOTIC PERFECTION

What does it take to make a robotic mower that can work around the clock to deliver a well-kept lawn in every garden – despite bad weather, complex shapes, steep slopes, narrow passages and other obstacles? We would say, it takes over 25 years of innovation, testing and refinement. Since 1995 we have been developing the original Husqvarna Automower® robotic mowers into the most proven, reliable and extensive range available.

WHAT YOU GET AND HOW WE DO IT

INSTALL AND FORGET

Husqvarna Automower® robotic mowers are equipped with advanced technical solutions to deliver the highest level of reliability, quality and mowing results. This means maintenance-free operation and minimum service, giving you more free time to focus on the things that really matter.

BEAUTIFUL RESULTS

Uniquely-designed cutting system – three razor-like carbon steel cutting blades, placed behind a skid plate, making clean cuts. Shorter clippings means better fertilising, excellent cutting result with no moss and less energy consumption. And no clippings to rake and dispose of.

SUPERIOR SLOPE PERFORMANCE

Husqvarna's all-wheel drive robotic mower will make easy work out of the most demanding lawns. Since it manages slopes of up to an impressive 70% (35°) incline, it delivers perfect results even for the most challenging of areas.

HAPPY NEIGHBOURS

Our environmentally-conscious robotic lawn mowers are powered by battery. They cut the grass without harmful direct emissions and are very quiet. Neither you nor your neighbours will notice the mower rolling around doing its job.

CONNECTIVITY

Our free of charge mobile app allow you to communicate easily with your mower (except model 105). Automower® Connect from anywhere via the mobile phone network or the short distance solution Automower® Connect@HOME via Bluetooth®.

ROBOTIC MOWERS

Drive motors with Ultrasilent technology enable extremely low noise levels

Remote object detection makes the mower slow down before bumping into an object

Automower® Access – interact intuitively via high resolution colour display and jog wheel (Automower® 435X AWD)

Low weight and smart design allows for high capacity and low energy consumption

All-wheel-drive and unique articulated body design with excellent manoeuvrability – for complex and steep gardens

EXCELLENT SLOPE PERFORMANCE

Thanks to the all-wheel-drive, Husqvarna Automower® AWD can cope with slopes up to 70% (35°) whereas other models manage slopes of up to 45% (24°).

GPS-assisted navigation ensures uniform cutting result in complex gardens

Energy efficient LED lights for better visibility during night time mowing

Weather timer automatically adapts the amount of mowing to the lawn growth rate – for a carefree operation

CARE

Find out more on page 257

GPS-ASSISTED NAVIGATION FOR OPTIMAL MOWING IN COMPLEX AREAS

Husqvarna Automower® X-Line & 500 Series have an onboard GPS system that creates a map of the lawn. The robotic mower knows exactly which parts of the lawn it has covered and optimises the mowing pattern automatically.

AUTOMOWER® CONNECT JUST ADD A SMARTPHONE

Automower® Connect is a feature that gives you full control of the mower right in your smartphone. You can send start, stop and park commands, check and adjust the settings, and also receive alarms and track your mower's position in case of theft – wherever you are. Standard on X-Line, 500 Series and AWD models. **Read more on page 162.**

10 YEARS OF FREE CONNECTIVITY INCLUDED!

THINGS TO CONSIDER WHEN BUYING A HUSQVARNA AUTOMOWER® ROBOTIC MOWER

To decide which robotic mower is most suitable for your needs, there are a few things to consider as mentioned below: Your desired working hours, the size of your lawn and the complexity in terms of slopes, shape, passages and other obstacles. Visit the Robotic Lawn Mower section on the Husqvarna website for more information and guidance. There you will also find our interactive Automower® Garden Guide to help you decide.

READ MORE AT
[HUSQVARNA.COM/UK](https://www.husqvarna.com/uk)

WORKING HOURS

Your robotic mower shouldn't be working while your family members want to play and relax on the lawn. Make sure you choose a Husqvarna Automower® with enough capacity to mow the entire lawn during the time when your lawn is free of activity. All models are ideally suited to night time operation, the low noise levels ensure there is no disturbance.

COMPLEXITY

If your lawn is simple and square, a less advanced robotic mower can do the job. On the other hand, if the lawn contains slopes, narrow passages, uneven areas and frequent obstacles such as bushes and trees, we recommend that you go for a mower with proven capability to handle such challenges.

SIZE OF YOUR LAWN

The mowing capacity specified for any robotic mower is a maximum value that can be obtained if the mower works 24/7 and only stops to charge the battery. Therefore, we recommend that you go for a mower capacity that substantially exceeds the size of your lawn, to have time also for play and other activities. Please see page 149 for more guidance.

Example: If your lawn is 500 m² and you want your robotic mower to work between 08.00 - 16.00 every day (8 hours / 24 = 0.33) the specified capacity should be at least $500 / 0.33 = 1,500$ m²

WHY A HUSQVARNA AUTOMOWER® ROBOTIC MOWER WILL IMPROVE THE QUALITY OF YOUR LAWN

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass little by little, resulting in a lush, green lawn that conventional blades cannot achieve. The lawn is mowed frequently, in rain and shine, producing grass clippings so small that no collection is needed. The clippings become natural fertiliser, keeping your lawn lush, green and moss free.

The Weather timer function adapts the time spent mowing so Husqvarna Automower® works more in periods of strong grass growth and less in dry, sunny weather. And the electric cutting height adjustment enables you to adjust the length of your grass with a simple push of a button on the keypad, or remotely with the Automower® Connect smartphone app (X-Line and 500 Series models only).

HOW IT WORKS!

Cutting little and often, leads to more efficient cutting and healthier grass.

**THE
WORLD LEADER
IN ROBOTIC
MOWING**

PRINCIPAL FUNCTION

- + Unattended mowing.
- + Mow little but efficiently and frequently.
- + Good performance even in wet weather.
- + More free time

COLLISION AND LIFT SENSORS

Collision and lift sensors increases safety. When the mower gently bumps in to an object it will reverse, turn and choose another direction. If it is lifted the blade and mower will stop immediately.

NAVIGATION

- + The boundary and guide wires are pegged to the lawn or buried just below the surface. A pegged wire disappears into the lawn in a few weeks.
- + The mower stays inside the boundary wire laid around the perimeter of the working area.
- + The charging station transmits a signal around the boundary wire ensuring the mower stays within the working area. The boundary wire can also guide the mower to the charge station.

IRREGULAR MOVEMENT PATTERN

- + No need for specific programming.
- + Covers all parts even if the lawn is complex and/or contains trees, flowerbeds, passages, etc.
- + Allows the grass to get cut from different directions. Creates a smooth carpet-like surface.

TRADITIONAL VS AUTOMATIC MOWING TECHNIQUE

The principal function of the Husqvarna Automower® provides the service of a well cut lawn, not just a lawn mower. Things like horsepower, cutting width and technical details become less important with a Husqvarna Automower® that cuts your lawn day in, and day out.

RECHARGING

When it's time to recharge, the mower finds the charger by one of three methods.

1. By picking up a signal from the charge station antenna.
2. By following the patented guide wire system back to the charging station.
3. By following the boundary until within reach of the home signal.

EFFICIENT CUTTING TECHNIQUE

- + The grass is cut with three fine, razor-sharp blades.
- + The three free-hanging blades are mounted on a disc and are easily replaced.
- + The blades can rotate back into the disc to minimise damage, should they hit hard objects – stone, branches, etc.
- + The grass mown is so fine and small that it does not need to be collected.

HOW TO CALCULATE THE LAWNS INCLINATION?

1. Place one end of a spirit level on the ground, and hold it horizontally.
2. Measure the distance down to the ground from the end of the level in the air. This distance divided by the length of the level is the inclination in %. If the measurement is 10 cm and the length of the level 50 cm the inclination is 20%.

MOWING CYCLE

- + The concept is to keep short grass short.
- + Husqvarna Automower® finds the charging station automatically.
- + Charges for approximately 60 minutes.
- + Resumes mowing, day in and day out regardless of the weather (except snow).

UNSURPASSED CUTTING RESULT

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass, resulting in a lush, green lawn that conventional blades cannot achieve. The grass clippings become a natural fertiliser, helping keep lawns lush, green and moss free.

THE BENEFITS OF HUSQVARNA AUTOMOWER®

MORE FREE TIME

Husqvarna Automower® robotic mowers free you from the chore of cutting your lawn allowing you to spend time on the things that really matter.

NO CLIPPINGS

Husqvarna Automower® cut little and often recycling the micro-clippings back into the soil as natural fertiliser improving lawn health.

ADVANCED NAVIGATION

Several navigation tools, including GPS (on X-Line & 500 Series), ensure Husqvarna Automower® covers your entire lawn, even in complex gardens.

NO NOISE. NO FUSS

You'll hardly notice it as it rolls around your garden doing its job quickly, quietly and efficiently. No noise, no fuss – just a great looking lawn.

AUTOMOWER® CONNECT

Control the operation of your Husqvarna Automower® from your iOS or Android smartphone, including location and theft alarm.

WORKS IN THE RAIN

Husqvarna Automower® gives you great cutting results in any type of weather. Its vital parts are safely protected from rain, as well as dust and grass clippings.

MANAGES STEEP SLOPES

Husqvarna Automower® can cope with slopes up to 70% (35°), thanks to optimised design and smart behaviour.

MANAGES PASSAGES

Husqvarna Automower® senses narrow passages and finds its way through even the narrowest gaps.

LOW ENERGY CONSUMPTION

Husqvarna Automower® uses as little as 20W energy when in use, comparable to an traditional style light bulb.

NO TRACK MARKS

Husqvarna Automower® varies its route back to the charger in order to avoid damage and ugly tracks. Mowing in a seemingly random pattern, gives a carpet-like lawn, throughout your garden.

SMART HOME INTEGRATION

Automower® Connect using the smart phone app allows you to integrate your Husqvarna Automower® into your Smart Home. Giving you complete control.

SUSTAINABILITY FIRST

Battery-powered Automower® reduces CO2 emissions significantly for increased sustainability.

CUTS UNEVEN LAWNS

Large wheels and a clever chassis design ensures a perfect result even on a rough lawn.

WEATHER TIMER

Automatically adjusts the mowing frequency depending on the growth conditions of your lawn. For example in drought conditions mowing frequency is reduced.

X-LINE A FULLY-FEATURED RANGE OF ROBOTIC MOWERS

Husqvarna X-Line is our most fully-featured range, designed for those who want the most advanced robotic mower. These robotic mowers are equipped with the X-Line equipment package, including:

- Automower® Connect with GPS theft tracking
- GPS assisted navigation
- LED headlights
- Front rubber bumper
- X-Line body design.

PRODUCT SELECTOR GUIDE

To help select the most suitable Husqvarna Automower® for the size of your lawn, simply choose how many hours of the day you would like the robotic mower to work, this will determine how much free time you will have on your lawn for leisure activities. As an example the mower could work during the night allowing the lawn to be free during the day.

Then select the working area given in m² that matches or exceeds your lawn area. This will then give you the model/s that best suit your lawn area.

Then simply choose the specification that best fulfils your needs. If a single machine does not meet your needs, more than one Husqvarna Automower® can be used in the same area to increase maximum area coverage. Please visit your local Authorised Husqvarna dealer for more information and guidance.

INCLUDED

100 / 300 SERIES

The 100 Series is designed for domestic use on smaller flat lawns. Just like the larger models, the 100 series delivers excellent cutting results. 300 Series robotic mowers are ideal for small to mid-sized lawns with some complexity and slopes. Additional 300 series features include weather timer which adjusts the mowing frequency to match the grass growth rate and automatic passage handling for reliable navigation of narrow areas.

Ideal for applications including:

- Small to medium lawns
- Areas with some complexity
- Slopes up to 40% (300 series)
- Passages (300 series)
- Multiple machines per installation
- Night time mowing

AUTOMOWER® 105

Reliable robotic mower for smaller less complex lawns up to 600 m². Ideal for replacing a traditional pedestrian lawnmower.

- Lift & tilt sensors
- Anti-theft alarm

**BLUETOOTH COMMUNICATION
AUTOMOWER® CONNECT@HOME**

- Standard equipment on models 305, 310 and 315
- Bluetooth communication up to 30 metres range
- Requires no mobile data contract
- Does not include GPS theft tracking
- Enables basic settings to be adjusted remotely

400 SERIES

400 Series robotic mowers offer the highest cutting capacities, the lowest noise levels and the most advanced features. They can handle small to large uneven, very complex lawns with ease. Additional 400 series features include, excellent terrain performance for uneven areas, Ultrasilent drive motors for no disturbance, up to 70% (35°) slope capabilities and electric height adjustment. All models feature added intelligence including GPS assisted navigation for efficient lawn coverage in complex areas.

Ideal for applications including:

- **Small to large lawns**
- **Complex areas with obstacles**
- **Multiple areas**
- **Slopes up to 70% (35°)**
- **Narrow passages**
- **Multiple machines per installation**
- **Night time mowing**

SMART HOME ECO SYSTEM

Automower® Connect using the smart phone app allows you to integrate your Husqvarna Automower® into your Smart Home. Giving you complete control.

COMMERCIAL ROBOTIC MOWING

Robotic mowers are the perfect solution for efficient and sustainable management of green spaces and sports turf. With Husqvarna's new EPOS Automower® robotic technology, the mowing possibilities are made even more flexible as the need for boundary and guide is made obsolete. The Automower® 550 EPOS mower works without the need of physical wires and can be remotely programmed via Husqvarna Fleet Services™. And while they tirelessly spend their days producing a carpet-like finish, you can spend your time focusing on other more skilled tasks.

WHAT YOU GET. HOW WE DO IT.

HUSQVARNA FLEET SERVICES™

THE PROFESSIONAL WAY TO MANAGE YOUR ROBOTIC MOWERS

When you invest in our 500 Series robotic mowers, you get free access to Husqvarna Fleet Services™ – a digital tool allowing you to easily monitor and control them from your smart phone, tablet or laptop. Just as easy as it should be.

FILTERS THAT MAKE YOUR MOWERS MORE EFFICIENT

Different mowers can be “tagged” to different teams, or to different locations, and then grouped for easier handling. The different user roles can also be tagged with different levels of control.

ALWAYS KEEP TRACK OF THEIR EXACT LOCATIONS

Want an overview of all your robotic mowers? Just check the map view. Thanks to the built-in GPS, you always know the exact location and status of every robotic mower. Use tags to issue commands to all mowers in specific areas for even easier fleet handling.

**FREE
10 YEAR
DATA PLAN
INCLUDED**

FULL CONTROL AND SCHEDULING FROM ANYWHERE

Forget manual controls. With Husqvarna Fleet Services™, you – and only you – conveniently control your robotic mowers from anywhere. Perfect when you want to adjust the mowing schedule or cutting height, or park them before the storm arrives. And thanks to tagging, you can exert exact control over all your mowers, grouping them and issuing batch commands, directly from your smartphone app.

OPERATIONAL INSIGHTS

Should anything happen, such as an unexpected standstill for one mower, you'll immediately receive a notification to your phone. Information about where problems occur and how often give you valuable insights to continuously adjust and improve the installation, which ensure a smooth and efficient operation. Through the Automower® Machine usage tab, you can review daily user data for more insights. The information is summarised in an easy and accessible way, helping you make your fleet usage more efficient and productive.

+ ALL YOUR EQUIPMENT IN ONE PLACE

If you want to, you can also connect the rest of your equipment to the system by using Husqvarna Fleet Services™ sensors. [Learn more at www.husqvarna.com/uk/fleetservices](http://www.husqvarna.com/uk/fleetservices)

AUTOMOWER® EPOS HOW IT WORKS

Automower® EPOS is a satellite powered guidance technology for robotic mowing. Satellite signals are received by both the mower and the reference station. To achieve an accuracy of 2-3 cm Real-Time Kinematic Global Navigation Satellite System (RTK-GNSS) is used. A fixed EPOS reference station is required to broadcast precision correction data to the mower. EPOS requires an unimpeded view of the satellites for signal data to be received and correction data to be sent. Tall buildings and dense trees close to or within the installation can block satellite data.

AUTOMOWER® EPOS VIRTUAL BOUNDARIES

Automower® EPOS does not require boundary or guide wires to define the working area. The boundary wire is replaced by a virtual boundary. A virtual "loop signal map" is created when the machine is installed. Up to 3 virtual guides can be used for returning the mower to the charge station and the use of transport paths allows easy movement between designated work areas even on paved surfaces. The mower maintains work areas using a random cutting pattern, GPS ensures even area coverage. Virtual boundaries allow for trouble-free ground maintenance such as aeration.

AUTOMOWER® EPOS
PRECISE AREA MANAGEMENT

Automower® EPOS allows precision management of multiple work areas using individual area settings. Work areas can be assigned their own specific mowing schedule as well as cutting height. Temporary stay-out zones can easily be activated and de-activated depending upon the situation. Transport paths are used to move the robotic mower between work areas as well as to and from the charge station. This allows for much more flexible placement of the charging station.

Learn more at www.husqvarna.com/uk

AUTOMOWER® CLUB SOLUTION
IDEAL SOLUTIONS FOR SPORTS FIELDS

Automower® club solution allows for optimum cutting of sports pitches including football and rugby. It has been designed to work with Automower® 550, enabling one single installation for an entire pitch. This means that up to three mowers can run simultaneously in the same area allowing routine maintenance such as aeration and turf repairs to be carried out without the risk of damaging the boundary wire.

Learn more at www.husqvarna.com/uk

COMMERCIAL INTERFACE
HIGH SECURITY PROTECTION

The Automower® 500 series all feature a commercial human machine interface (HMI) specially adapted for use in public settings. The professional HMI, which features a START / STOP switch and LED status indicator protects against unauthorised tampering of the machine and its settings. If the robotic mower gets stolen, it's immediately locked, an alarm goes off and the built-in GPS tracking shows the mower's exact position. All the machines settings and controls are managed remotely through the Husqvarna Fleet Services™ smartphone app or via a PC or tablet.

“Parks and green spaces is an important element of Edinburgh. If we can free up what limited resources we have to look after the borders and plants, it's a winner for everybody because the borders are clean and the grass is still getting cut. It keeps it to a standard that we couldn't keep before”.

Edinburgh City Council

500 SERIES – COMMERCIAL USE

Husqvarna robotic mowers specifically developed for commercial applications. Offering the most efficient and sustainable way to consistently maintain areas of green space. Ideal for professionals and private or public enterprises who seek new ways to maintain grassed areas whilst enabling the redeployment of resources onto more important tasks. The 500 Series robotic mowers all come with Husqvarna Fleet Services™ built-in, enabling fleet management and mower control from anywhere.

Ideal for applications including:

- **Grounds maintenance**
- **Sports facilities**
- **Commercial properties**
- **Holiday parks**
- **Noise sensitive areas**
- **Slopes up to 70% (35°)**
- **Multiple machines per installation**
- **Complex areas with obstacles**
- **Night time mowing**

AUTOMOWER® 520

A SMARTER LAWN CARE EXPERIENCE

STAY IN CONTROL WITH YOUR SMARTPHONE

The Husqvarna Automower® Connect service allows you to take full control of your Husqvarna robotic lawnmower. The service provides two modes of connectivity, depending on model: Automower® Connect for long-range connectivity using cellular communication, or Automower® Connect@Home for short-range, using Bluetooth® wireless technology. You can see where the mower is operating and control the schedules conveniently from wherever you are.

BLUETOOTH COMMUNICATION AUTOMOWER® CONNECT@HOME

- Standard equipment on 300, 400 & 500 series
- Bluetooth communication up to 30 metres range
- Requires no mobile data contract

UPGRADE TO AUTOMOWER® CONNECT

10 YEARS OF FREE CONNECTIVITY INCLUDED!

The Automower® connect module allows you to control and configure your mower. With the module installed, you can download the app to your Android or iPhone and use it to communicate directly with your mower.

Item	Order PNC	RRP ex VAT	RRP inc VAT
305/310/315	586 66 23-07	£207.50	£249.00

*Automower® Connect covers service during product life (10 years). The Automower® Connect service requires 2G/3G data transfer, technology provided by country-specific telecom operators (3rd party). Husqvarna's service includes product's function, not communication due to data transfer restrictions.

MOBILE DATA COMMUNICATION AUTOMOWER® CONNECT

- Standard equipment on X-Line models and 500-series
- Available as an accessory on models 305, 310 and 315
- Mobile data communication worldwide*
- 10 years mobile data contract included*
- Geofence with GPS theft tracking

CONTROL Receive status messages and send Start, Stop and Park commands to the mower from anywhere in the world.

CONFIGURE Brings the mower's menu system to your smartphone. Read and change the mower settings without the need of being on site.

SECURITY Receive alarm and track your mower's position in case of theft.

AVAILABLE ON GOOGLE PLAY AND ON THE APP STORE

INNOVATIONS TO LEVEL UP YOUR GARDEN

Innovative technology, smart integrations, and partnerships helps us provide intuitive solutions that simplify your life. Intelligent features adapt to your personal needs and make the experience more engaging and supportive. Among our solutions you find voice control through Amazon Alexa or Google Home. Smart connections to sprinklers, personal calendars or local weather through IFTTT and AI driven support give you a smooth experience and great result with Husqvarna Automower®.

TIME TO START MOWING JUST ASK YOUR SMART SPEAKER

All Automower® Connect equipped robotic mowers are compatible with Amazon Alexa and Google Home. This means that all you need is to give your smart speaker a voice command, and your Automower® robotic mower will jump to the task. The smart speakers recognise the most common commands such as start, stop, park, and get status updates by simply asking Alexa. Garden care made as easy as it should be.

EXPLORE IFTTT MAKE YOUR AUTOMOWER® EVEN SMARTER

IFTTT (If This Then That) is a free, easy-to-use web-based service. It allows you to create your own applets and integrate Husqvarna Automower® even more into your smart home systems. For instance, you can set it so Husqvarna Automower® starts mowing when the home alarm is turned on. Or that it should park when the current temperature drops below a certain point – and much, much more. The limits are set by your imagination.

Please visit www.husqvarna.com/uk for further information.

CONTROL YOUR SPRINKLER AND MOWING DIRECTLY FROM YOUR SMARTPHONE

Now you can have an even more intelligent relationship with your garden. By connecting your Husqvarna Automower® to the high-performing GARDENA irrigation smart system, you can easily sync your mower and your irrigation schedule. Sit back and relax while Automower® robotic mower keeps your lawn perfectly cut and healthy. The GARDENA smart system – with its sensors that measure soil moisture, outside temperature and light intensity, and then waters accordingly – will keep your lawn green and fresh. This works with all products equipped with Automower® Connect.

OPEN API GIVING ENDLESS POSSIBILITIES

Our open API solution enables endless connectivity possibilities of personalisation and add-on features through IFTTT (If This Then That).

INSTALLATION AND PRODUCT ACCESSORIES

BOUNDARY WIRE PRO

High performance 5.5mm diameter boundary wire. The wire features double insulation to deal with the toughest of installations whilst helping to protect against rodents. The outer layer has high UV resistance increasing durability. Length 300m.

ENJOY THE MOWING EVERYWHERE

Husqvarna Riders reach places you never thought possible, helping you work in narrow spaces, on slopes and across all types of terrain. But you'll find there's more to a Husqvarna Rider than just that. Our range of machines are specifically designed to offer different working solutions for different needs. With different mowing options and a wide range of attachments for everything from mowing to snow throwing, they deliver a new level of performance.

WHAT YOU GET AND HOW WE DO IT

SUPERIOR MANOEUVRABILITY

The articulated steering gives first-class manoeuvrability and facilitates driving around obstacles such as trees, bushes and flower beds.

MOWING ACCESSIBILITY

Front-mounted cutting deck gives excellent overview of the working area, allowing you to trim edges and reach into corners and under bushes with ease.

OPTIMISED DRIVER'S POSITION

Safety, stability and traction on both flat ground and hillsides. The rider's low centre of gravity contributes to excellent traction and user comfort.

PRODUCING A HEALTHY LAWN

Our Combi cutting decks feature the superior BioClip® mulching technology, which refines grass clippings into natural fertiliser, providing a rich, green and healthy lawn.

DRIVING PLEASURE

Husqvarna Riders are easy and fun to drive with precise steering, pedal-operated hydrostatic transmissions and intuitive controls.

RIDERS

Smart display. The intuitive overview and display will give you real time updates on your rider's status.

Husqvarna BioClip® – excellent mulching technology where clippings and leaves are repeatedly circulated through the blades and cut into small pieces, to become a natural fertilizer.

Integrated tool carrier. Bring your handheld machines or batteries with you and charge them with the 12V outlet.

Increased comfort. The seat slides on a 10-degree incline, providing a correct angle of the knees regardless of the driver's height.

Power steering. Effortless turning of the wheel and increased manoeuvrability to reach the tight areas.

Powerful LED lights. Headlights with 180-degree coverage that will make it possible to keep going long past dusk, increasing productivity.

XChange Drive-in-drive-out attachment frame. Makes it easier than ever to change your rider's attachment. The deck can be flipped into service position and the attachment changed quickly and without the use of tools which minimizes downtime.

Heavy-duty design. Reinforced transmission, a durable, redesigned chassis and a tough, robust frame ready to take on the toughest of jobs.

All-wheel-drive. The AWD adds traction and allows for a dependable mowing experience, no matter the surface.

HUSQVARNA 400 SERIES

A NEW GENERATION OF MOWING EFFICIENCY

When mowing a lawn, efficiency and cut quality are obvious factors that make the difference. However, there are many more things to consider. With the new generation of Riders, Husqvarna adds new levels of convenience and performance to the mix. The 400 series are a robust and powerful Rider with commercial performance in a compact, user-friendly package. The best of two worlds, really.

Not all features shown are available on all models.

STAY CONNECTED, STAY INFORMED

The 300 and 400 series have connectivity built in. With your Husqvarna Connect app you can easily access your Rider's runtime data and status. You also get help with troubleshooting as well as advice on how to best care for your product. For professional users, the connectivity also makes it possible to connect to Husqvarna Fleet Services™.

HUSQVARNA BIOCLIP® – SUPERIOR MULCHING TECHNOLOGY

Husqvarna BioClip® is a great way to take care of grass clippings and fallen leaves. With BioClip® the clippings and leaves are repeatedly circulated through the blades and cut into small pieces, before dropping to the lawn. These cuttings are so small that they pass through the grass, down to the soil, working as a natural fertiliser. It's a convenient and environmentally friendly way to get a healthy, green lawn.

LARGE AREAS OR SMALL COMPLEX GARDENS

With cutting widths ranging from 85 to 180 cm you will easily find a Husqvarna Rider that suits your preference and your garden, whether it is large and widespread or narrow and complex. Their excellent manoeuvrability and the superb accessibility offered by the front-mounted cutting decks make these ride-on mowers perform in a class of their own.

INTRODUCING THE HUSQVARNA RIDER COLLECTION SERIES

Now you can achieve a tidy lawn without clippings while enjoying all the pleasures of driving a Husqvarna Rider. The Rider Collection offers great mowing performance, both in terms of excellent manoeuvrability and problem-free collection with superior capacity.

CUTTING AND COLLECTING

The cutting deck on the Rider Collection has a special design with counter-rotating blades that efficiently cuts the grass and throws the clippings backwards to the auger. Available with a 103 cm or 112 cm cutting width.

MORE MOWING, LESS EMPTYING

The combination of a powerful auger compressing the grass, and a large-volume collector, is the secret behind the superior collecting capacity. The Rider Collection can hold twice the grass volume of a conventional collecting machine, so you can mow a larger area before it's time to empty.

OCCASIONAL AND DEMANDING OCCASIONAL USE

The 100 series rider is designed for domestic use in small to medium areas. The compact platform with 85 cm Combi cutting deck ensures you can cut more grass in less time leaving an excellent finish without the worry of disposing of grass clippings.

The 200 series are designed for more demanding domestic and landowner use. Additional 200 series features include box frame chassis, larger exhaust silencer for lower noise, service position for deck cleaning and maintenance and a comfort seat. With 2 smaller Combi deck options available, the 200 series riders are also just as well suited working in medium size open expanses.

Ideal for applications including:

- **Small to medium lawns**
- **Complex areas with obstacles**
- **Confined areas**
- **All year round use**

R 112C

Compact rider designed for domestic use on smaller areas. Excellent manoeuvrability allows easy navigation in confined and complex areas. BioClip® cutting deck provides excellent cutting results.

COMBI CUTTING DECKS - 300 SERIES

Combi cutting decks offer two cutting methods: BioClip® and rear ejection. As the deck is stamped from a single piece of metal, with no seams and sharp bends to trap cuttings, the result is market-leading mulching and super-efficient ejection. Fits to all 300 series models.

HUSQVARNA CONNECT APP

Stay connected to your 300 series rider direct from your smartphone. Available from App Store and Google Play.

FREQUENT USE

Highly specified and versatile riders with grass collection for demanding domestic and landowner use. Ideal for confined complex areas as well as open expanses. Standard RC 300 series features include ACTech™ problem-free grass collection, service position, hour meter, fully floating deck for uneven areas and high back comfort seat. With 2 cutting deck options available, the RC 300 series riders are adaptable to suit different requirements. With the option of AWD they are able to tackle more demanding situations.

Ideal for applications including:

- **Medium to large lawns**
- **Complex areas with obstacles**
- **Confined areas**
- **All year round use**

RC 320Ts AWD

High-specification Rider with ACTech™ collection system with anti-clog auger and large collection capacity. Powerful twin cylinder engine with Turn Key start, empty bag and select collection mode from seat. Model features AWD which provides improved traction on more demanding ground conditions and power steering. Choice of cutting widths.

- Collection cutting decks
- ACTech™ anti-clog auger
- Service position
- All wheel drive
- 50 cm uncut circle
- Compacting 300 litre collector
- LED Headlights & hour meter
- Power steering

RC 318T

High-specification Rider with ACTech™ collection system with anti-clog auger and huge collection capacity. Powerful twin cylinder engine with Turn Key start, empty bag and select collection mode from seat. Choice of cutting widths.

- Collection cutting decks
- ACTech™ anti-clog auger
- Service position
- 50 cm uncut circle
- Compacting 300 litre collector
- Headlights & hour meter

Unit + 112 cm	Total RRP	£6,456.66	£7,748.00

The high capacity collection auger compacts grass clippings in to the integrated collector. The collector is easily emptied from the driver's seat by the push of a button.

The specially designed cutting deck has counter-rotating blades that efficiently cuts the grass and feed the auger. The service position allows for easy cleaning and maintenance.

All controls are grouped together maximising user comfort and ensuring safe control. Turn key start allows easy starting, no choke needed, just turn the key and go.

DID YOU KNOW?

The unique ACTech™ collection system compacts the grass collecting significantly more when compared to conventional collection systems.

PART-TIME USE

High performance, versatile riders designed for demanding landowner and landscaper use on medium to large areas. The machines have an exceptional work rate due to high manoeuvrability and the ability to access tight restricted areas. Additional 400 series features include XChange Drive-in-drive-out attachment frame for tool-less attachment change, hydraulic lift and ergonomic fully adjustable cockpit. Built with the capacity to maintain larger areas, together with the optional all year round attachments make them a highly versatile all round machine.

Ideal for applications including:

- Larger lawns
- Farm and country estates
- Sports facilities
- Grounds maintenance
- All year round use

R 420TsX AWD

Compact high performance AWD rider designed for demanding part time use. Extremely manoeuvrable making it ideal for tight and complex areas. XChange Drive-in-drive-out attachment frame lets you change attachments quickly and without the use of tools. Ideally suited for all year round use. Model features AWD which provides improved traction on more demanding ground conditions and power steering. Choice of cutting widths.

- BioClip® cutting decks
- Drive-in-drive-out attachments
- Power steering
- All wheel drive
- Optional cargo holder
- 70 cm uncut circle
- High intensity LED Headlights
- Hydraulic lift
- Digital dashboard
- Husqvarna Connect

R 419TsX AWD

Compact high performance AWD rider designed for demanding part time use. Extremely manoeuvrable making it ideal for tight and complex areas. New XChange attachment frame lets you change attachments quickly and without the use of tools. Ideally suited for all year round use.

- BioClip® cutting decks
- Drive-in-drive-out attachments
- Power steering & hydraulic lift
- 70 cm uncut circle
- Headlights & digital display
- Powered front attachments

XChange Drive-in-drive-out attachment frame. Makes it easier than ever to change your rider's attachment. The deck can be flipped into service position and the attachment changed quickly and without the use of tools.

Increased comfort. The seat slides on a 10-degree incline, securing a correct angle of the knees regardless of the driver's height. The steering column height is also adjustable.

All controls are grouped together maximising user comfort and ensuring safe control. Smart display. The new intuitive overview and display will give you real time updates on your rider's status.

● = Available (●) = Accessory — = Not available *Noise emissions in the environment measured and calculated as guaranteed sound power level according to EC-Directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-2 dB(A). **Sound pressure level according to ISO 5395 an EN 836. Reported data for sound pressure level has a typical statistical dispersion (standard deviation) of 1.2 dB(A). Noise emissions and sound pressure level can be influenced by the cutting unit used. Declared figures are for the machine equipped with the most used cutting unit for the specific mower model. For further information, see the operator's manual. ***Vibration level according to ISO 5395 and EN 836. Reported data for vibration has a typical statistical dispersion of 0.2 m/s² (steering wheel) and 0.8 m/s² (seat).

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

GET THE JOB DONE QUICKLY, WELL AND ANYWHERE

High power and extreme versatility in a compact, durable format. That's the winning formula behind the commercial-grade front mowers from Husqvarna. With their efficient cutting decks and a wide range of useful attachments, these agile machines will help increase your daily turnover all year round, whether you prefer diesel, petrol or hybrid technology.

WHAT YOU GET. HOW WE DO IT.

SUPERIOR MANOEUVRABILITY

The articulated steering system allows the rear pair of wheels to swing in underneath the machine. The result is superior manoeuvrability with a minimum turning radius at full lock. The compact size together with the articulated steering makes it easy to manoeuvre the machine in narrow spaces and tricky areas.

EXCELLENT ACCESSIBILITY AND CONTROL

The front-mounted cutting decks give excellent overview of the working area, enabling precise, close-up trimming. The off-set design of the cutting Combi 155 / X enables easy handling of corners and trimming against walls and fences, while the low profile gives unbeatable accessibility in under fences, bushes, park benches etc.

ALL-TERRAIN DRIVING PERFORMANCE

All-Wheel Drive (AWD) ensures traction on uneven, wet and slippery areas and slopes. The machine's low centre of gravity in combination with the high-performing AWD-system gives excellent slope and hillside stability. AWD automatically adjusts the traction on all wheels depending on situation and ground condition. Equipped with high-specified variable piston pumps with separate gear boxes for the front and rear axle. The Hybrid P 535HX uses individual electric wheel motors with traction control for maximum performance in even the most demanding conditions.

REDUCE FOLLOW-UP TRIMMING – SAVE TIME AND MONEY

Studies* show that large-scale commercial mowers only mow about 65% of the total area of the areas they work on. The remaining 35% has to be taken care of later, using a walk-behind mower or a trimmer. The result is markedly lower productivity and more expensive labour costs. And in the end, reduced profitability. The reason for this is that most commercial Ride-on mowers aren't designed for the complex lawn shapes that professional landscapers have to deal with on a daily basis. The exception is our 500 series of compact front mowers. These machines offer lots of smart solutions that reduce the amount of follow-up trimming to 20%. Which means you finish the job earlier and can be on the way to the next one.

* Studies comparing the mowing productivity of a rear-wheel steered front mower equipped with 155 cm cutting deck versus a Husqvarna P 500 equipped with 132 cm cutting deck, carried out during a full cutting season.

EFFICIENT ERGONOMICS MAXIMISE PRODUCTIVITY

Our commercial front mowers are equipped with ergonomic operator's interface for a comfortable ride during long working hours. Controls are easily accessible and designed for optimum user comfort. The heavy-duty hydraulic-cylinder power steering makes driving less strenuous. Large wheels both front and back provide optimal riding comfort, great accessibility and less risk of damaging delicate surfaces.

BUILT FOR YEARS OF COMMERCIAL USE

The rigid, reinforced heavy-duty steel ladder frame has an open design for excellent serviceability. For improved durability the complete rear wagon is in one piece ductile cast iron. The high-performance Combi cutting decks are stamped from a single piece of steel plate and has durable, flat-free support wheels with air-filled core to provide good dampening and smooth operation with maximum uptime.

VERSATILE ALL-SEASON USAGE

A wide range of cutting decks and attachments will make your front mower exceptionally versatile, all year round. The smart quick coupling allows attachments to be changed quickly and efficiently with a minimum of standard tools. Equipped with solid and hardened PTO shaft for maximum efficiency and durability. Husqvarna P 525DX is also available in a cabin-equipped version.

ACCESSIBLE SERVICE POINTS FOR EASY MAINTENANCE

The tilting hood and easy-access servicing points make the daily maintenance checks and servicing easy. The cutting deck features greasable mandrels that are easy to reach from above, while the service position facilitates cleaning and service under the cutting deck.

CUTTING DECKS COMBINING EFFICIENCY AND EXCELLENT CUTTING RESULT

The R180 rear discharge cutting deck utilises the hybrid power of the P 535HX to maximise the mowing capacity. The Combi 132 and 155 cutting decks (available for Husqvarna P 535HX, P 525DX and P 520D) can be used for both BioClip® (mulching) and rear discharge. The deck shell has been stamped out of one solid piece of steel, allowing for an optimised airflow, which is the main reason for the high efficiency. The Combi decks are made from 4.5 mm steel and are equipped with replaceable side skid wears, for a long and reliable product life.

ELECTRONIC FUEL INJECTION MORE POWER – LESS FUEL AND EMISSIONS

The P 524EFI is equipped with electronic fuel injection (EFI). Thanks to the efficient combustion, it delivers the additional power and torque you need to maintain a higher speed in uneven terrain. It also contributes to lower fuel consumption and less emissions. Starting is easy too, since there's no need for a manual choke. Just turn the key and go.

FULL-TIME USE

P 524Efi

Compact commercial petrol-machine that offers excellent manoeuvrability in complex areas. The electronic fuel injection (EFI) increases power and torque, while lowering fuel consumption and emissions. It also makes starting easy by eliminating the need for a manual choke.

- Powerful 2-cylinder Kawasaki EFI engine.
- Unique articulated steering concept creates a dynamic weight transfer on the front wheels, maximising traction in all conditions.
- Class-leading handling on slopes, thanks to a combination of the steering concept, AWD and a low centre of gravity.
- Commercial-grade components for uncompromised durability and maximum uptime.
- Ergonomically designed operator interface with all controls within easy reach.
- Heavy-duty square tube ladder frame (4–10 mm) with an open design for easy service access.
- The Combi deck makes it easy to switch between mulching and rear discharge.
- The cutting deck can be tilted up without tools, for easy cleaning and maintenance.

The P 500 series high capacity commercial front mowers are designed for professional grounds maintenance over large expanses and areas with high complexity. Powerful and extremely versatile in a compact yet durable package with highly efficient cutting decks and a wide range of all year use attachments. The P 500 machines will help increase your daily turnover all year round, whether you prefer diesel, petrol or hybrid power.

Ideal for applications including:

- Professional grounds maintenance
- Large areas with complexity
- Parks and sports facilities
- Large residential
- Holiday parks
- All year round use

P 525DX WITH CABIN

**NEW
SPRING**

Highly productive large capacity diesel machine fitted with cabin for long shifts and all year use in very large areas.

- Powerful 1123 cm³ Kubota 3-cylinder diesel engine.
- Unique articulated steering concept creates a dynamic weight transfer on the front wheels, which maximises traction in all conditions.
- The steering concept in combination with AWD and a low centre of gravity provides excellent handling on slopes.
- Commercial-grade components means uncompromised durability and maximum uptime.
- Ergonomic driver interface with modern graphic display and easy-access to all controls.
- Built-in connectivity module allows connection to Husqvarna Fleet Services™
- Heavy-duty square tube ladder frame (4 – 10 mm) with an open design for easy service access.
- PTO shaft for maximum efficiency and versatility.
- The Combi deck makes it easy to switch between mulching and rear discharge.
- Extra wide tyres and high transport speed (18.5 km/h)
- Spacious cabin with large glass front window with wiper, glass doors and Grammer seat.
- Vibration-isolated from the chassis, resulting in significantly lower noise and vibrations.
- Supplied factory fitted and equipped with hydraulic kit, LED light kits and counter weight. Cabin can be removed for summer use.

P 535HX WITH HYBRID TECHNOLOGY. A NEW SMARTER WAY.

SMART GREEN SPACE MANAGEMENT

The most powerful front mower in the Husqvarna commercial range. Two electric motors power the wheel drive axles, while the PTO and electric generator are powered by a 1123 cm³ Kubota diesel engine. The 20" wheels, all-wheel drive and articulated steering make it easy to manoeuvre even in rough terrain and complex areas. Prepared for high capacity cutting decks up to 180 cm, providing an excellent result in any terrain. Commercial-grade components and ease of service make for uncompromised durability and maximum uptime.

LOWER EMISSIONS AND INCREASED OUTPUT

The incorporation of dual-energy sources combined with high efficiency in the Hybrid system enables high power output yet maintained in a compact and agile format. The power train reduces the vehicle's overall fuel consumption, CO2 footprint and operational cost. Through an energy efficient electric drive vs normal hydrostatic drive, the energy efficiency in the machines propulsion system is improved by up to 50%. Hence depending on drive cycle, the fuel consumption is lowered by up to 30% when compared to a 19kW conventional diesel front mower working under the same conditions.

OPTIMISED PERFORMANCE WITH HYBRID POWER TRAIN

The P 535HX can be operated in two different drive modes. Electric mode is used during transportation vastly reducing emissions. Hybrid mode combines the diesel engine and battery buffer for maximum performance. Modes continuously adjust depending on cutting conditions. In normal conditions the power from the diesel engine is used to both operate the front attachment through the PTO, the propulsion and recharging of the batteries if needed. In demanding conditions, the power from the diesel engine is used to just operate the front attachment through the PTO. Power for propulsion is taken from the battery.

P 535HX

**NEW
SUMMER**

HYBRID

Powerful Hybrid commercial front mower. Two electric motors power the wheel drive axles, while the PTO and electric generator are powered by a 1123 cm³ Kubota diesel engine.

- Hybrid technology using a combination of powerful 1123cc Kubota 3- cylinder diesel engine, electric generator and electric drive motors.
- Hybrid energy storage system using 4.2 kWh Li-Ion 52 V batteries. Batteries are recharged when the PTO is engaged.
- Unique articulated steering concept creates a dynamic weight transfer on the front wheels, which maximises traction in all conditions.
- Electric All-Wheel Drive (AWD) with battery only quiet transport mode.
- The electric AWD propulsion system is electronically controlled via integrated sensors which ensures optimised traction. The drive wheels individually and automatically set the correct speed in all situations.
- The steering concept in combination with AWD and a low centre of gravity provides excellent handling on slopes.
- Commercial-grade components means uncompromised durability and maximum uptime.
- Ergonomic driver interface with intuitive hi-resolution touch colour screen and easy access to all controls.
- Built-in connectivity module allows connection to Husqvarna Fleet Services™.
- Heavy-duty square tube ladder frame (4 – 10 mm) with an open design for easy service access.
- Engine powered PTO shaft.
- Choice of cutting decks from 132 - 180cm. X variant Combi decks feature hydraulic height adjustment.
- Extra wide tyres and high transport speed (19.5 km/h)
- HVO100 ready. Hydrogenated Vegetable Oils (HVO) is a 100% synthetic diesel made from renewable materials.
- Supplied equipped with hydraulic kit.

● = Available – = Not available * = Noise emissions in the environment measured and calculated as guaranteed sound power level according to EC-Directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–2 dB(A). Noise emissions and sound pressure level can be influenced by the cutting deck used. Declared figures are for the machine equipped with the most used cutting unit for the specific mower model. For further information, see the Operator's manual. ** = Sound pressure level according to EN ISO 5395-1. Reported data for sound pressure level has a typical statistical dispersion (standard deviation) of 1.2 dB(A). *** = Vibration level according to EN ISO 5395-1. Reported data for vibration has a typical statistical dispersion of 0.2 m/s² (steering wheel) and 0.8 m/s² (seat).

MASTER THE MOWING AND MORE

A wide range of attachments and choice of several cutting methods give our garden tractors excellent versatility. Ideal for efficient lawn care and various tasks around your land. Choose between three different cutting systems for lawn care then fit a trailer, spreader, snow thrower and more for greater versatility.

WHAT YOU GET AND HOW WE DO IT

FEWER UNCUT AREAS

You can expect excellent results from our top-segment tractors, featuring top-class steering technology. Less vibration, minimised uncut areas and improved manoeuvrability.

EASY PEDAL OPERATION

The pedal-operated hydrostatic transmission ensures easy speed and direction control. Separate pedals for forward and reverse.

FIRST CLASS CUTTING

The reinforced and powder-coated cutting decks give improved durability and corrosion resistance.

COMFORTABLE OPERATION

Change from collecting to mulching mode with a lever on the dashboard, without leaving the seat. The blade rotation is engaged and disengaged by an electric switch.

ALL YEAR ROUND USE

A wide range of attachments and a built-in choice of several cutting methods make our tractors truly versatile and useful all-year-round.

GARDEN TRACTORS

Cruise control allows the tractor to maintain consistent speed, even in rough terrain

Electric blade engagement – simply pull the switch on the control panel

Powerful and durable high-specification engines

Premium seat with armrests for maximum comfort

LED headlights for good visibility in dark conditions

The seat platform automatically changes height as seat is moved to optimize operators position

The large and low vibration, 108 cm collection deck offers improved cut quality

Pivoting, heavy-duty cast front axle ensures excellent balance and driving comfort

Not all features shown are available on all models.

RANGE OF ATTACHMENTS

A wide range of attachments adds more value to your tractor investment, making it truly versatile and useful all year round. Attach a trailer, spreader or a snow blade and complete any tasks with minimum effort.

CARE

Find out more on page 257

MULCHING OPTIONS

Frequently mowed lawns can be fertilised the natural way with the BioClip® function, which is available as standard on the larger TC models. It's also available as an accessory for the 100 series TC models and all TS models. In addition, collectors are available as an accessory for the TS models, while the TC models can be converted to rear ejection by an accessory kit. So you really can't go wrong as long as you choose Husqvarna!

SIZE AND SPECIFICATION

If you're buying your first tractor and have a smaller or mid-sized garden, our user-friendly 100 series is a good choice. Equipped with chokeless start for easy starting and pedal-operated automatic transmission, these compact tractors offer easy and safe operation, making them ideal for beginners.

For a mid-sized or larger garden, you'll need more capacity and comfort. Our 200 series are well-equipped tractors with tight turning radius.

EJECTION OR COLLECTOR

If you mostly cut large areas with long-grown grass, a tractor with side ejection (TS models) is the most suitable choice. If you prefer a tidy cutting result and want to collect grass clippings, leaves and other debris, we recommend a tractor with integrated collector (TC models).

reinforced cutting decks and electric blade engagement to enable excellent manoeuvrability, easier and more efficient mowing with less uncut areas.

If you use your tractor more frequently – even all-year-round – or will be mowing larger areas, you'll appreciate our TS 146TXD. A powerful and well equipped tractor with convenient features to guarantee a superb result. A wide range of attachments and a built-in choice of several cutting methods, give this large capacity excellent usability all-year-round.

*Noise emissions in the environment measured and calculated as guaranteed sound power level according to EC-Directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-2 dB(A). **Sound pressure level according to ISO 5395 an EN 836. Reported data for sound pressure level has a typical statistical dispersion (standard deviation) of 1.2 dB(A). Noise emissions and sound pressure level can be influenced by the cutting unit used. Declared figures are for the machine equipped with the most used cutting unit for the specific mower model. ***Vibration level according to ISO 5395 and EN 836. Reported data for vibration has a typical statistical dispersion of 0.2 m/s² (steering wheel) and 0.8 m/s² (seat). ****Measured on trim side turn.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

MOWING TO A FASTER FINISH

Whether you're using them at work or at home, Husqvarna zero turn mowers get your work done quickly and efficiently. A zero turning radius means no grass is left uncut when you reach the end of a mowing row and make a 180° turn to start the next row. Designed specifically to endure tough working conditions, we've included top ergonomic features and comfortable operator functions to focus on meticulous cutting results.

WHAT YOU GET AND HOW WE DO IT

PRECISE MANOEUVRING

Zero-turn steering with the individual, hydraulic wheel-drive systems provide precise manoeuvring.

COMFORTABLE OPERATION

Large wheels, comfortable seat, excellent overview and conveniently located controls provide a smooth, efficient ride.

SUPERB CUTTING RESULT

The ClearCut™ cutting deck provides a unique combination of durability, performance and cutting results. This design enables superb results for discharge and collection as well as for mulching.

DURABLE DESIGN

The rugged frame and casters are designed to ensure high durability and reduce chassis flex. The maintenance-free zero turn transmission provides trouble-free performance.

INTEGRATED PARKING BRAKE

The automatic parking brake system automatically activates or deactivates as the steering levers are moved outward or inward, which means the user doesn't have to do it.

ZERO TURN MOWERS

Ergonomic control panel conveniently located at your fingertips with electric blade engagement – simply pull the switch

Convenient, spring-assisted cutting deck lift

Anti-slip foot pad

Automatic parking brake integrated in the control levers

ClearCut™ fabricated deck made from welded 3.6 mm steel

Not all features shown are available on all models.

CARE

Find out more on page 257

HUSQVARNA CLEARCUT™

SOLID DURABILITY WITH PERFECT CUTTING RESULTS

The ClearCut™ cutting deck boasts a unique combination of durability, performance and cutting results. This design enables superb results for discharge and collection as well as for mulching. The powerful airflow discharges the clippings at high speed to prevent clogging.

- Welded 3.6 mm steel structure with side wear protection
- 125 mm deck height for high air volume
- Optimally located internal baffles
- High-lift blades for powerful airflow
- Cast-iron spindles for high stability
- Oversized discharge chute

DEMANDING OCCASIONAL USE

High-specification zero turn mower designed to deliver great cutting results without compromising quality or performance. The zero turn mower is ideally suited to demanding domestic and landowner use. Conveniently compact, giving you excellent manoeuvrability, mowing efficiency and mowing comfort. Featuring a highly durable ClearCut™ fabricated steel cutting deck offering excellent clipping dispersal as well as a producing class leading airflow, ideal when used with the optional grass collector.

Ideal for applications including:

- **Demanding domestic use**
- **Landowner use**
- **Medium to large areas**

Z242F

High-specification domestic use zero turn mower with ClearCut™ fabricated deck, ergonomic controls and powerful twin-cylinder engine.

- Side Eject (BioClip® optional)
- Ergonomic control panel
- Optional collector
- Console mounted deck lift
- ClearCut™ fabricated deck
- Integrated parking brake

FULL-TIME USE

High-specification commercial-grade zero turn mower built with the toughest materials to ensure high durability, productivity and long service life. Designed for high-class cutting performance, operator comfort and serviceability. The zero turn mower is designed for demanding full-time professional use. Featuring a highly durable fabricated steel side eject cutting deck producing excellent airflow and even clipping dispersal.

Ideal for applications including:

- Professional grounds maintenance
- Larger areas
- Parks and sports facilities
- Large residential
- Holiday parks

Z560X

Commercial-grade, zero-turn mower with high cutting capacity and great manoeuvrability, for efficient mowing of large areas. The 152 cm fabricated steel deck produces an excellent cut quality, while the durable design and easy maintenance make for a long and trouble-free product life.

- Commercial-grade large capacity 2-cylinder Briggs and Stratton Vanguard engine.
- HydroGear ZT5400 commercial transmission with high ground speed (19.3 km/h).
- Easily accessible service points with an open design for fast and easy access improving serviceability. Tool-less access on all belt covers.
- Heavy duty 11 gauge steel tubular 2" x 3" frame with frame ramp for maximised strength and durability, increasing lifespan.
- Heavy duty and high performance 152 cm side eject deck fabricated from 7 gauge steel for maximum performance and durability. Features rear mount support struts which increase durability by reducing stress on the mower frame.
- 10" cast blade spindles for increased strength and operating lifetime.
- Mulch kit including blades available as an accessory.
- Ergonomically designed operator interface with all controls within easy reach. Interface features LED lit fuel gauges.
- High specification suspension seat with bolstered cushions.
- Foot operated deck adjustment with easily visible scale.
- Foldable roll-over protection system.
- Dual fuel tanks - 45 litre total capacity.
- Heavy duty 13" run flat free front tyres.
- Integrated parking brake.

A PERFECT MATCH FOR YOUR LAWN

All our lawn mowers are designed to give the highest performance and efficiency with thoughtful ergonomic solutions. They have high-specification and easy-starting engines as well as durable cutting decks, delivering first class cutting results every time. So no matter what Husqvarna model you choose, you can expect a mower that's robust, reliable and one that delivers the results for a healthy, well kept lawn.

WHAT YOU GET AND HOW WE DO IT

CONVENIENT HANDLING

The intuitive controls, easy to reach bail arms and ergonomically designed collectors are details that make our lawn mowers easy and convenient to use.

HEALTHY LAWNS

BioClip® – mulching can help to release nutrients like nitrogen into the soil that are beneficial for growth and overall lawn health, preventing weed growth.

QUIET AND CORDLESS

Our battery-powered mowers enables quiet, efficient collector mowing without the need for petrol or power cords. Ideal for a smaller or mid-sized lawn.

EASY STARTING

Husqvarna petrol lawn mowers are easy to start. Some have features like auto-choke. The battery mowers are even easier – just unlock and push down the bail arm!

VARIABLE SPEED

The variable speed function allows you to adjust the drive speed of the machine to suit your own walking speed.

LAWN MOWERS

Variable speed control

Our battery-powered mowers enable quiet, efficient mowing without the need for petrol. With a wide range designed for small to large lawns and domestic to professional use.

Top class collection performance and easy to handle collector for convenient removal, emptying and replacement

Handle height adjustment for improved user comfort

High-specification engines from world-leading manufacturers

Central cutting height adjustment for easy and convenient setting

GET THE HUSQVARNA CONNECT APP!

Stay connected with your products direct from your smartphone. Access user guides for a smoother start and maintenance, troubleshooting tips & how-to guides, product specific lists for spare parts and relevant accessories. Use the to dealer locator to add your favoured dealer with directions, contact information and opening hours.

Additional functions for connected lawn mowers:

- Runtime statistics and usage data
- Notifications for maintenance and troubleshooting
- Predictions for remaining battery runtime

For more details visit www.husqvarna.com/uk

SIZE AND COMPLEXITY OF YOUR LAWN

The larger lawn you have, the more you will benefit from a self-propelled mower with a wider cutting deck. A mower with smaller cutting deck and variable speed provides better manoeuvrability if your lawn has many narrow passages and obstacles to mow around.

HOW TO START

Want effortless starting, a battery mower is the natural choice – just push the button.

STORAGE AND TRANSPORT

Do you plan to transport your mower? Then you should consider a compact, lightweight mower with foldable handles.

WHY CHOOSE A HUSQVARNA BATTERY MOWER?

Husqvarna battery-powered lawn mowers are quiet, efficient collecting mowers that are extremely easy to use. Ideal for mid-sized lawns or for trimming areas that a robotic mower or ride-on mower can't reach. Powered by the same BLi batteries as all Husqvarna Battery Series products.

COLLECTING OR MULCHING

If you prefer a tidy cutting result and want to collect grass clippings, we recommend a mower equipped with collector. However, a mower with BioClip® (mulching) function provides a more healthy lawn without need for fertilising or emptying the collector, provided that you mow frequently enough.

DURABLE COMPOSITE DECK

The cutting deck on the 200 and 300 series is made from a composite material developed specifically for Husqvarna. It is extremely durable, lightweight, corrosion resistant, doesn't crack and withstands dents and sun bleaching. In short, virtually indestructible.

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR LAWN MOWER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. We also supply the most frequent service parts for our products. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

IMPORTANT! Check the oil/lubricant levels before each work shift and top up.

Recommended frequently used parts for lawn mowers:

- Mulch blades
- Standard blades
- Collect blades.
- Engine oil 10 W/30
- Spark plugs
- Air filters and oil filters

Always read your owner's manual or contact your dealer for recommended parts for your machine.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

BREAK NEW GROUND IN NO TIME

Designed to take tough treatment, Husqvarna tillers are built to withstand intensive operation over many years. Their comfortable handle system and well-grouped controls make them easy to work with and the anti-clockwise rotation system breaks up soil with ease and efficiency.

WHAT YOU GET AND HOW WE DO IT

EASY MAINTENANCE

The durable and detachable transmission housing with lubrication nipple means reliable operating over many years as well as easy maintenance.

CONVENIENT WORKING POSITION

The ergonomically designed handlebar with soft grip and easy-access controls provides convenient working position.

DEEP-DIGGING OR SURFACE PREPARATION

The helicoiled tines rotate anti-clockwise and break up the soil smoothly even in tough conditions. This solution makes the tillers capable of deep-digging heavy soil as well as preparing the surface for a seedbed.

BUILT TO LAST

All components in our tillers are of the highest quality and thoroughly tested to ensure optimal durability.

ADDED VERSATILITY

The ridger accessory when used with the TF 325 creates ridges when planting potatoes, helping to protect against weeds and daylight.

**T300RH COMPACT PRO**

Versatile front tine tiller for smaller domestic gardens, flower beds and vegetable plots. Easy to operate and transport thanks to its low weight. Propelled forwards by the front tines.

- Front-tine

MORE CLEANING WITH LESS WATER

For any cleaning around the home and garden, nature's own cleaning fluid has unexpected powers. With the range of Husqvarna high pressure washers, you will discover that water's washing performance is hard to beat when combined with world-leading technology and engineering. Fresh water should always be used sparingly, and the Husqvarna pressure washer range actually uses about 80% less water to get the job done when compared to a regular hose.

WHAT YOU GET AND HOW WE DO IT

POWERFUL CLEANING

With their high working pressure, adjustable nozzles and smart detergent control, Husqvarna pressure washers deliver maximum cleaning performance with minimal use of water.

EFFICIENT WORK

The spray lance is ergonomically designed and the swivel couplings prevent tangling of the extra-long, flexible high pressure hose. The trigger starts and stops the motor automatically.

GREAT VERSATILITY

Use your Husqvarna pressure washer with surface cleaners, brush kit, extension hose, foam sprayer or any of the many accessories available to make your work easier.

ROBUST DESIGN

All Husqvarna pressure washers are built with high-quality components for a long service life. The larger models have features like induction motor, brass pump head and steel reinforced hose.

FLEXIBLE HIGH-PRESSURE HOSES

Each series is equipped with a high quality, flexible, high pressure hose to prevent tangling. The PW 480 features a steel reinforced high pressure hose with a rubber overlay to ensure durability while retaining its flexibility.

PRESSURE WASHERS

Aluminium telescopic handle

Hose reel for convenient and efficient storage of hose with easy roll-up

Induction motor combines great performance with high durability

Metal pump for increased reliability and lifetime

Aluminium carrying handle

The trigger's activation is perfectly adjusted to your fingers. This means less effort and more comfort for your hand, especially during prolonged use.

The spray lance features double swivel functions and quick connections for hose, nozzles and accessories to maximize your efficiency and comfort

Long spray lance allows for ergonomic working positions

Automatic switch-off shuts down the motor when you release the trigger

Extra-long hose for extended reach and work efficiency

Two nozzles and a foam sprayer are included

On-board cable storage enables fast set-up and prevents the cord from tangling

Find out more on page 257

Not all features shown are available on all models.

OCCASIONAL USE

Compact series of pressure washers with robust and purposeful design, ideal for most cleaning tasks around the home and garden. Two swivel functions for nozzle adjustment and quick connection prevent hassle when setting up and using the pressure washer. Both models feature on-board accessory storage, hose reel and power cord storage making operation and storage easy and efficient. Products are supplied with two nozzles and foam sprayer for applying detergent. The PW 235R features remote pressure adjustment operated from the spray lance allowing the water pressure to be easily set whilst working.

Ideal for applications including:

- Occasional domestic use
- Household and garden cleaning
- Smaller paved areas, decking and pathways
- Smaller vehicles and bicycles

PW 125

Compact and lightweight pressure washer, ideal for easy and convenient cleaning of garden furniture, pathways and vehicles .

- 7m reinforced hose
- Aluminium pump
- Quick Connect couplings
- On board storage

PART-TIME USE

High specification pressure washers offering the highest levels of performance and product lifetime. Built for the toughest cleaning applications including larger vehicles, driveways and large paved areas. The longer hose lengths allow increased cleaning area coverage without the need to re-position the pressure washer. Both models feature large wheels and aluminium telescopic handle which makes the products easy to transport and store. High performance induction motors ensure maximum cleaning performance whilst remaining quiet. Products are supplied with two nozzles and PW 350 a foam sprayer for applying detergent. The PW 480 features pressure control for optimal adjustment and minimum water consumption, as well as an on board detergent tank.

Ideal for applications including:

- Demanding domestic and landowner use
- Larger paved areas, decking and driveways
- Vehicles and machinery

PW 350

Powerful pressure washer designed for demanding jobs. Features low force grip, low noise induction motor and long spray lance.

- 9m reinforced hose
- Aluminium pump
- Aluminium telescopic handle
- Quick Connect couplings
- On board storage
- Low noise induction motor

AN EASIER WAY TO KEEP TRACK OF YOUR EQUIPMENT

Just put a sensor on any piece of equipment and you'll always know where your machines are, how much they've been used, when they need to be serviced or replaced – and much more. If you use our professional robotic mowers, you don't even need to install a sensor. All this updated information – easily accessible from your phone, tablet or laptop – allows you to save a lot of time and money, to develop your business even further.

HOW IT WORKS

The system keeps track of your equipment either through the use of machine sensors or – in the case of our professional robotic mowers – built-in connectivity. The equipment data is transmitted via Bluetooth (for Automower® it's via 2G/3G) and can either be collected in the field via the intuitive Husqvarna Fleet Services™ app, or back in storage via the Husqvarna Fleet Services™ Gateway app. The combination of these apps gives you updated data that's automatically uploaded to the cloud-based account where you can access it from any device if you decide not to continue with the service.

Read more at www.husqvarna.com/uk/fleetservices

REDUCE YOUR CO2 EMISSIONS

Whether you work for a council or a commercial contractor, reducing CO2 emissions is an important target. The Carbon Footprint Calculator provides you with the data and insights you need to take action – and of course, to report your progress to your stakeholders.

COMPLETE FLEET MANAGEMENT, HOW IT MAKES YOUR WORKDAY EASIER

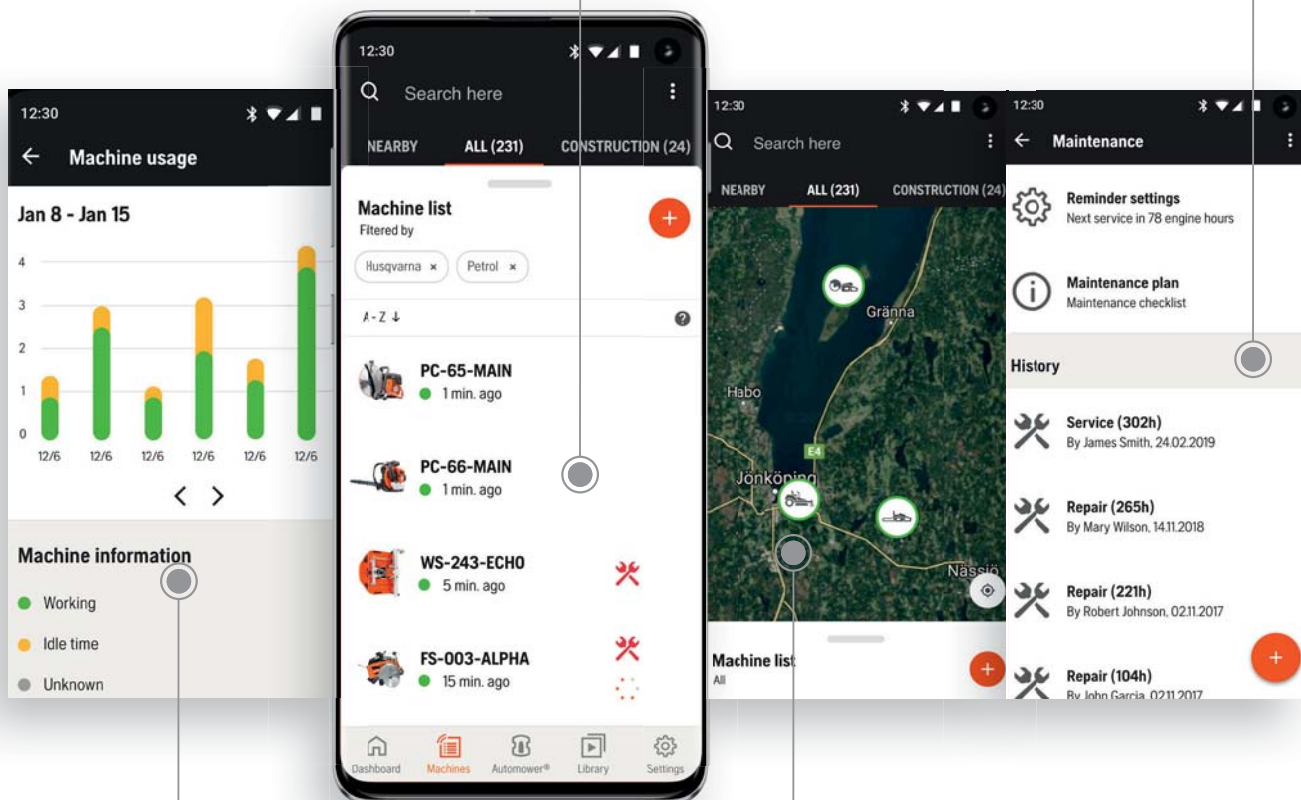

The system keeps track of your equipment through the use of machine sensors. The equipment data is transmitted via Bluetooth and can either be collected in the field via the intuitive Husqvarna Fleet Services™ app, or back in storage via the Husqvarna Fleet Services™ Gateway app. The combination of these apps gives you updated data that's automatically uploaded to the cloud-based account where you can access it from any device

ALL YOUR EQUIPMENT IN ONE PLACE

Don't rely on paperwork. With Husqvarna Fleet Services™, you just check the inventory list, and you know exactly how many machines you have of each type. Give them unique names, and you can easily tell which is which. You can add sensors to all sorts of equipment, even machines from other manufacturers. By using tags, different machines can be categorised for different purposes. This could include "tagging" machines for different locations or to different teams.

SERVICE HISTORY AND NOTIFICATIONS

By using Husqvarna Fleet Services™, you always have access to the service history for each piece of equipment, making it much easier to keep track of its status and troubleshoot in case of a breakdown. You can also get service reminders based on actual engine hours or calendar time, to make sure your equipment is always in great shape.

SEE WHEN AND HOW MUCH YOU'VE USED IT

Since the sensors track the engine hours of every machine, you can easily get an overview with Husqvarna Fleet Services™. You can produce a workday log with detailed information on how many hours they have been used every day.

TRACK THEM ALL ON THE MAP

Always keep track of where you last had your equipment. As soon as a machine with a sensor is within Bluetooth® distance from the app, its location is registered. So whenever you're looking for a machine, you just check the map to find out if it's in the storage, away for service or out working. The tag feature makes it possible to have grouped machines performing specific tasks within specific pre-set geographic locations.

+ INTEGRATED CONNECTIVITY

Selected 500 series battery and ride on machines feature a built-in connectivity module allowing easy connection to Husqvarna Fleet Services™. This allows you to see each machine's last known location, its usage statistics and service history – and much more without the need of a machine sensor. This also facilitates updates of the machine's firmware, so that it's always compatible with the latest functions in Husqvarna Fleet Services™.

All 500 Series robotic mowers are supplied as standard with Husqvarna Fleet Services™. With a free 10 year data plan included it gives you the possibility to monitor and control multiple numbers of mowers from your smart phone, tablet or laptop. You can overview your mower's status or exact location and adjust various settings. The digital tool also sends notifications and allows you to track the mower's position in case of theft – from anywhere.

SUBSCRIPTION PLANS

Try Husqvarna Fleet Services™ and find out how it can improve your business. It's easy to get started. Select the plan that best suits the requirements of your business. The system is scalable allowing full integration no matter how small or large your fleet size.

MACHINE SENSOR

The machine sensor allows you to connect all sorts of hand held and wheeled machines. This also includes products from other manufacturers.

THE PROFESSIONAL WAY TO MANAGE YOUR ROBOTIC MOWERS

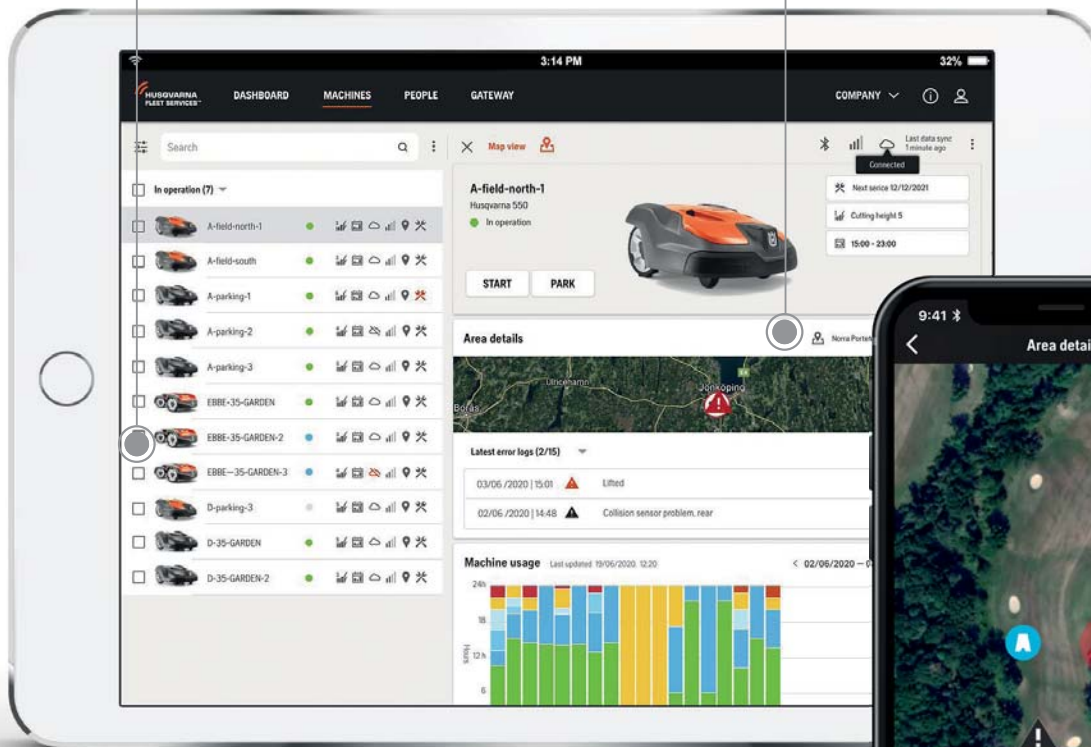

When you invest in our 500 Series robotic mowers, you get free access to Husqvarna Fleet Services™ – a digital tool allowing you to easily monitor and control them from your smart phone, tablet or laptop. Just as easy as it should be.

FILTERS THAT MAKE YOUR MOWERS MORE EFFICIENT

Different mowers can be “tagged” to different teams, or to different locations, and then grouped for easier handling. The different user roles can also be tagged with different levels of control.

ALWAYS KEEP TRACK OF THEIR EXACT LOCATIONS

Want an overview of all your robotic mowers? Just check the map view. Thanks to the built-in GPS, you always know the exact location and status of every robotic mower. Use tags to issue commands to all mowers in specific areas for even easier fleet handling.

**FREE
10 YEAR
DATA PLAN
INCLUDED**

FULL CONTROL AND SCHEDULING FROM ANYWHERE

Forget manual controls. With Husqvarna Fleet Services™, you – and only you – conveniently control your robotic mowers from anywhere. Perfect when you want to adjust the mowing schedule or cutting height, or park them before the storm arrives. And thanks to tagging, you can exert exact control over all your mowers, grouping them and issuing batch commands, directly from your smartphone app.

OPERATIONAL INSIGHTS

Should anything happen, such as an unexpected standstill for one mower, you'll immediately receive a notification to your phone. Information about where problems occur and how often give you valuable insights to continuously adjust and improve the installation, which ensure a smooth and efficient operation. Through the Automower® Machine usage tab, you can review daily user data for more insights. The information is summarised in an easy and accessible way, helping you make your fleet usage more efficient and productive.

+ ALL YOUR EQUIPMENT IN ONE PLACE

If you want to, you can also connect the rest of your equipment to the system by using Husqvarna Fleet Services™ sensors. [Learn more at www.husqvarna.com/uk/fleetservices](http://www.husqvarna.com/uk/fleetservices)

DO THE DAILY CHECKS YOURSELF, LEAVE THE REST TO OUR EXPERTS

With over 300 Authorised Husqvarna dealers in the UK, you're never far from professional service and support using only Genuine Husqvarna spare parts, fuels and lubricants. Our dealers are the experts in keeping your machines running safe, smooth and strong.

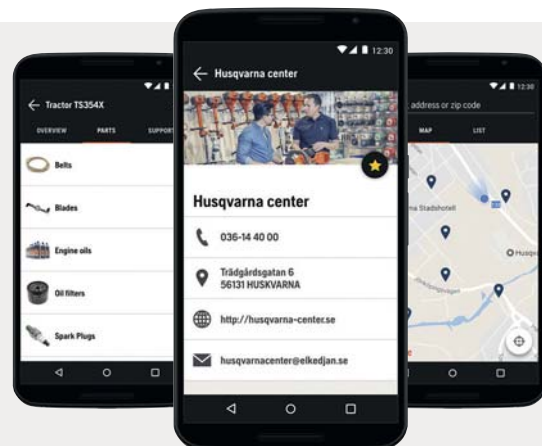

For more information visit www.husqvarna.com/uk/support

GET SERVICE NOTIFICATIONS FROM YOUR CONNECTED HUSQVARNA PRODUCTS

With the Husqvarna Connect app, you can get notifications to your smartphone when your connected products need a service. You can find the nearest Authorised Husqvarna dealer, make the call and even bookmark your favourite dealer directly in the app.

For more details see page 5 or visit www.husqvarna.com/uk

PROFESSIONAL SUPPORT FOR PROFESSIONAL DEMANDS

Your Authorised Husqvarna dealer can advise you on machinery and services to suit your needs. They can also supply you with Genuine Husqvarna spare parts, lubricants and accessories as well as adequate service and repair to keep your Husqvarna equipment ready for your next job. Our dedicated dealers provide professional services for your machines, to safeguard optimal performance and reliability. The Authorised Husqvarna dealer network consists of 25,000 locations worldwide, so we're never far away. See our interactive dealer locator on www.husqvarna.com/uk/dealer-locator.

KEEP YOUR MACHINES IN ORIGINAL SHAPE WITH GENUINE HUSQVARNA SPARE PARTS

Our product development always starts with you, the user, in focus, to make your work less strenuous and more efficient. This is also why every single part in a Husqvarna machine is rigorously tested to ensure it interacts optimally with all the other parts. This interaction produces the reliability and characteristics you have the right to expect from a Husqvarna, while proper servicing and using the right parts mean your equipment performs safely, reliably and economically in the long run. Genuine Husqvarna spare parts allow you to get the most out of your Husqvarna.

ENJOY OUR OFF-SEASON SERVICE OFFERS

It's wise to let your Authorised Husqvarna dealer do the service in the off-season period when your garden rests from growing and you can spare your equipment for a while. Look out for the off-season service offers and local pick-up/delivery services offered by your Authorised Husqvarna dealer. Don't forget to ask your dealer to register your product at your dealership to ensure special offers and information.

MINIMISE YOUR DOWNTIME WITH PREVENTIVE MAINTENANCE AND REPAIR

At our dealers, all servicing is done by authorised technicians. They are all specialists trained in the machines you are using. Many workshops have fixed prices for all forms of service - look out for our Service Menus at your local dealer. For each machine there is a detailed service plan, which is divided into a number of time intervals and presented to you in our Service Checklists. By maintaining your machines regularly and servicing them at the recommended times, you ensure the machines are performing optimally. You also minimise the risk of unexpected downtime. And, just as importantly, the machine will last longer.

+ ADD PERFORMANCE WITH HUSQVARNA ACCESSORIES

Why let poor equipment get in your way? Husqvarna accessories allow you to keep working – and delivering great results. By choosing Husqvarna accessories and lubricants from our extensive product range, you are guaranteed the same high quality throughout the lifespan of the product.

+ HUSQVARNA WARRANTY

Consumer Use - Products and Accessories. Husqvarna provides a 24 month warranty for consumer use provided that the following conditions are met: Sale of Husqvarna products must be registered through intended applications in the Husqvarna Reseller Portal, or to its connected services. The Husqvarna Product must have a proven service history in accordance with the product operator handbook/manual (where service instructions are provided).

Professional Use - Products and Accessories. Husqvarna provides a 12 month warranty for professional use provided that the following conditions are met: Sale of Husqvarna products must be registered through intended applications in the Husqvarna Reseller Portal, or to its connected services. The Husqvarna Product must have a proven service history in accordance with the product operator handbook/manual (where service instructions are provided).

Note! Battery warranty is handled separately, see your Husqvarna dealer for details.

EXPECT MAXIMUM PROTECTION – NO MATTER THE PERFORMANCE LEVEL

TECHNICAL EXTREME

TECHNICAL

LAYERED PROTECTION

Our advanced protective material comprises fewer layers. This makes it lighter, without compromising protection levels. The material and layering design consists of long fibres that can become tangled in the chain.

CONFIDENT SAFETY WITH REGULAR TESTING

Protective clothing for forestry work must carry CE marking. The additional EuroTest mark shows that randomly selected samples are regularly re-inspected by an accredited institute.

Good protective equipment must withstand demanding conditions and provide the required protection. That's why we use nothing but high-quality materials. Each job comes with different requirements. Our range of protective clothing takes into consideration every type of work.

In fact, our extensive range of safety clothing, offering the latest innovations in design and materials, will provide you with the level of protection and comfort you need to get the job done.

FUNCTIONAL

CLASSIC

GRADED PROTECTION CLASS

All personal protection is ranked based on its ability to stop the chain at different speeds: Class 0 (16 m/s), Class 1 (20 m/s), Class 2 (24 m/s) and Class 3 (28 m/s). Tested and approved in accordance with European (CE) and International (ISO) standards.

TROUSER CUT PROTECTION AREAS

The shaded areas show the location of protective material.

MATERIALS CHOSEN FOR YOUR NEEDS

OCCASIONAL USE

WORKWEAR TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. Available in our Classic range. 270 G/M². 65% POLYESTER / 35% COTTON.

WORKWEAR SHINE TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. The shiny yarn in the fabric creates an appealing appearance. Available in our Classic range. 240 G/M². 70% POLYESTER / 30% COTTON.

PART-TIME USE

MICRO POLYESTER

Our Micro Polyester is a plain woven fabric with a soft touch. It is resistant to tearing, stretching and stains. Available in our Functional range. 190 G/M². 100% POLYESTER.

CORDURA® HEAVY

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort. Our Cordura® Heavy is used on the most exposed areas of the garments — around ankles and wrists for example. The fabric has a Teflon® finish which helps repel water, oil and stains. Available in our Functional and Technical ranges. 220 G/M². 100% CORDURA®.

CORDURA® LIGHT

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort in a lightweight fabric. Available in our Functional range. 175 G/M². 100% CORDURA® POLYAMIDE.

FULL-TIME USE

COMFORTABLE STRETCH

A 4-way stretch fabric that stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides comfortable movement. Available in our Technical range. 235 G/M². 92% POLYESTER / 8% LYCRA®.

ARAMIDE MÉLANGE

A fibre composition combining abrasion resistant Kevlar® fibres and hardwearing Cordura® fibres, making our Aramide mélange a tough fabric used for reinforcements on exposed areas. Available in our Technical range. 240 G/M². 45% CORDURA® / 30% POLYAMID / 25% KEVLAR® ARAMIDE.

FULL-TIME USE

CORDURA® REFLEX

Cordura® means durability without compromise. The fabric delivers the wear and tear resistance needed on the most exposed areas. The reflective yarn in the fabric gives high visibility in dark and dim conditions. Available in our Technical Extreme range. 335G/M². 100% POLYAMIDE.

CORDURA® CHECKERED

The fabric delivers the wear and tear resistance needed on the most exposed areas. Coated on the back for improved water resistance. Available in our Technical Extreme range. 225 G/M². 100% POLYAMIDE.

LIGHT WEIGHT STRETCH

Our light 4-way stretch fabric stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides maximum comfort. Available in our Technical Extreme range. 190 G/M². 88% POLYESTER (14% POLYESTER COOLMAX®) / 12% ELASTANE (LYCRA®).

FEATHER STRETCH

Our lightest fabric with 2-way stretch is used for areas in need of a great movability. The fabric gives freedom of movement and high comfort. Available in our Technical Extreme range. 185 G/M². 66% POLYESTER / 34% ELASTANE.

Note: All measurements are body measurements, except the inner leg, which is a garment measurement. If a base layer is to be worn under the garment, it should also be worn when measuring. Chest: measured around the widest part of the chest. Height: from top to toe. Waist: measured around the waist. Inside leg: measured from crotch to desired length.

KEEP YOUR SAFETY CLOTHING SAFE

WASHING GUIDE

Your protective clothes are regularly exposed to sweat and oil. These substances can reach the protective layer, reducing its functionality. This is why you need to wash your clothes regularly and in accordance with their labelling. If your clothes get heavily soiled, you should wash them as soon as possible after use.

Wash the garment regularly in accordance with the instructions on the inside labelling.

Machine wash. For temperature, see inside labelling.

After washing, the garment should be stretched prior to drying. Air dry slowly.

Do not wash your protective clothes inside out. Also, do not bleach, dry clean, or tumble dry. Iron with low heat.

Clean the garment immediately if it has been subjected to petrol, oil, grease or other flammable materials. Fire hazard!

Keep the garment away from sharp objects, acids, oils, solvents, fuels and animal droppings.

REPAIR GUIDE

In addition to washing and cleaning your protective wear, you also need to check for heavily worn areas, damages and tears in the fabric. The protective functions may be seriously reduced if repairs are not carried out properly. Use the guide below for reference, and always consult your dealer if in doubt.

If a repair to the outer material is being made, do not sew into the protective material as this can reduce its protective qualities.

Damaged outer material must be repaired immediately in order to prevent the protective material becoming damaged.

The garment should be scrapped and not used again if the protective material has been: damaged, incorrectly washed, or altered from its original shape.

Adhesive must not be used when carrying out repairs as it may affect the protective material and reduce its protective qualities.

This product is no substitute for the operation of a chainsaw and does not provide total protection.

Cut-retardant apparel and materials are subject to a certain degree of aging. In professional logging, the maximum period of usage is considered to be about 12 months. In non-professional or occasional use, up to 5 years is considered acceptable.

CLASSIC – OCCASIONAL USE

REGULAR FIT

PROTECTING THE PROTECTION

The saw protection pad is completely covered, so saw dust doesn't compromise the performance of the fibre layers.

REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensures high durability.

KEEP COOL

The jacket has a full-length front zip and an open yoke at the back. The ventilation zips at the back of the legs let you adjust the airflow.

ZIPPED POCKETS

For easy access to your belongings, the jacket comes with two zipped front pockets as well as a chest pocket.

PROTECTIVE PERFORMANCE CLOTHING BY HUSQVARNA

The Husqvarna Classic range is intended for occasional use and is designed with the domestic user in mind at an affordable cost. It offers the highest quality and reliability you expect from Husqvarna.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

WHAT PROTECTIVE EQUIPMENT DO I NEED TO OPERATE A CHAINSAW?

Never use a chainsaw without chainsaw protective trousers, a helmet with visor and hearing protection, boots with chainsaw protection and gloves with chainsaw protection. Husqvarna also recommends wearing a forestry jacket with high visibility.

Always let someone know where you are working and when you expect to be finished. Finally, have a first aid kit close to hand as well as some form of communication equipment such as a whistle or mobile phone in case you need to call for help.

ACTIVE CLEANING DETERGENT

Phosphate free and biodegradable. For clothing and is also effective for cleaning chains, garden machines, air filters and more.

TECHNICAL – FULL-TIME USE

TIGHT FIT

PRE-BENT KNEES

The knees are pre-bent and have been tailored to offer maximum mobility without compromising safety.

ADJUST FOR PERFECT FIT

The clothes come with elastic drawstrings at the waist and at the lower bottom of the jacket, allowing you to adjust your gear for a perfect fit.

STRETCH FOR COMFORT

Where needed, the clothes are made of stretch fabric, allowing you to move freely, safely and comfortably.

WELL VENTILATED

Openings at the yoke and the lower back make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

REINFORCED WHERE YOU NEED IT

The knees, elbows, ankles and wrists have been reinforced to withstand tough use and make your clothes last longer.

EASY-ACCESS POCKETS

The jacket has two pockets on the chest and a dedicated first-aid pocket. The trousers feature two front pockets, two back pockets, a leg pocket and a double ruler pocket.

PROTECTIVE CLOTHING MADE FOR PROFESSIONAL PERFORMANCE

The Husqvarna Technical range is designed and built to perform all day every day for professional users. Task-optimised design meets modern styling, while tough, light stretch fabrics, reinforced panels and pre-bent knees and elbows offer high resistance, durability and performance.

Ideal for applications including:

- Forestry
- Logging
- Horticulture
- Arboriculture

FEATHER STRETCH

LIGHT WEIGHT STRETCH

CORDURA® REFLEX

CORDURA® CHECKERED

PROTECTIVE CLOTHING MADE FOR MAXIMUM PERFORMANCE

Husqvarna Technical Extreme is our ultimate range of protective clothing. Designed for full-time intensive use in the most demanding conditions. The Technical Extreme range has been developed solely to maximise your performance offering lightweight comfort, breathability and protection. With pre-bent knees, sleeves and a slim fit in durable stretch fabrics, the garments' smart, trade specific design enables maximum performance all day, every day.

Ideal for applications including:

- Professional forestry
- Logging
- Arboriculture

ADJUST FOR PERFECT FIT

The clothing comes with hook and loop wrist and ankle strap as well as elastic drawstrings at the waist and at the lower bottom of the jacket, allowing you to adjust your gear for a perfect fit.

KEEP YOUR TROUSERS IN PLACE

Attach the boot hook on the inside of the cuff to your laces, to keep them tightly secured.

BRACES INCLUDED

The trousers come with quality braces, so they stay safely and comfortably in place all day.

WELL VENTILATED

Openings at the yoke and the lower back make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

EASY-ACCESS POCKETS

The jacket has two pockets on the chest, one on the sleeve, and a dedicated first-aid pocket. The trousers feature two front pockets, two back pockets, a leg pocket and a double ruler pocket.

POCKETS FOR YOUR MOBILE PHONE

The chest pockets have a padded lining for your mobile phone, keeping it well protected and within easy reach at all times.

! TECH-KNEE TECHNOLOGY. EXCEPTIONAL PROTECTION AND MOBILITY

ADDED PROTECTIVE LAYERS

The Tech-Knee provides excellent saw protection, thanks to the additional fibre layers. This improves safety, especially in situations where the trousers fit tight to the knee.

WATER REPELLENT

The knee has a water-resistant inner lining and an outer layer made of water-repellent fabric, keeping water and moisture from penetrating the saw protection layers. This means you can work comfortably in wet conditions for a longer time.

PRE-BENT FABRIC

The complete knee, including the waterproof layers and saw protection fabric, has been pre-bent to ensure a perfect fit in all working positions.

TECHNICAL FOR BRUSHCUTTING

SPECIALLY DESIGNED FOR CLEARING AND GARDEN WORK

Wearing a harness while working long hours with a brushcutter puts specific demands on the clothes to be comfortable and functional. Our brushcutter and trimmer clothing offers practical details in the right places, like padded shoulders and hips and ventilation zips for durable protection whilst you work.

Ideal for applications including:

- **Trimming / brushcutting / hedge trimming**
- **Grounds maintenance**
- **Non chainsaw applications**

OPTIMISE YOUR MACHINES PERFORMANCE

RIGOROUS TESTING

At Husqvarna, we test oils in hot temperatures to see if the machine stays lubricated, and in the cold, to check it starts easily.

VERIFIED ENGINE FORMULA

We also test for thousands of hours in real life field tests. Only the oils that fulfill our strict requirements get the VEF label.

PROVEN PERFORMANCE

Compared to other oils, Husqvarna oils have been proven to leave less deposits on the pistons. Reducing damage at high temperatures.

THE RIGHT TEMPERATURE

Oils are developed and continually tested to keep the right temperature and to ensure that your engine gets the optimum lubrication it needs.

BETTER FOR YOU, BETTER FOR YOUR HUSQVARNA

There is no better fuel for your Husqvarna product than our alkylate petrol manufactured to unique Husqvarna specifications. Our new XP® Power 2 is conveniently pre-mixed with exactly 2% of Husqvarna XP® synthetic 2-stroke oil, providing efficient combustion leaving a cleaner, cooler, healthier engine with minimal harmful substances in the emissions. It also prevents inner corrosion, makes starting easier, reduces the need for service and minimises downtime. VEF approved.

GIVE YOUR HUSQVARNA ENGINE THE BEST CONDITIONS TO DELIVER ITS FULL POTENTIAL.

- ✓ Prevents downtime
- ✓ Extends product lifetime
- ✓ Reduces need for service
- ✓ Easy start of the engine
- ✓ Long storage shelf life
- ✓ No more mixing (XP® Power 2)
- ✓ VEF – Verified Engine Formula (XP® Power 2)
- ✓ Healthier working environment
- ✓ Increases productivity and safety due to a clear mind the full working day.
- ✓ Reduces carbon footprint

DID YOU KNOW?

Our XP® Power 2 has almost no aromatics, benzene or olefins and extremely low fluorine content meaning that it is less corrosive than other fuels and one of the cleanest alkylate fuels, giving your product optimal performance; improving power, torque and startability.

HUSQVARNA XP® POWER 2

Alkylate petrol developed specifically for Husqvarna two-stroke engines. Pre-mixed with 2% of premium Husqvarna XP® synthetic 2-stroke oil (50:1). Provides efficient combustion for a clean, healthy engine with a minimum of harmful substances in the emissions. Simplifies starting and increases productivity by allowing a healthier working environment. VEF approved. Recommended shelf life is 2 years*.

OILS & LUBRICANTS

ENGINEERED TO OPTIMISE YOUR HUSQVARNA

2-stroke chainsaw engines can run at 14,000 rpm, often under heavy load. At Husqvarna we design our engines to be durable and powerful, whilst also lightweight. This places special requirements on the oil – so it's vital to choose the right one. Husqvarna 2-stroke oils that meet our strict requirements are labelled VEF – Verified Engine Formula.

HP 2-STROKE ENGINE OIL

Formulated to work well with low-quality fuels and to meet all the tough challenges a 2-stroke engine oil can encounter. Carefully selected components in this part synthetic oil gives a cleaner engine and less coating on the piston/cylinder walls, exhaust port and crankcase. VEF approved.

LS+ 2-STROKE ENGINE OIL

LS+ oil is a mix of mineral and synthetic oils. Low smoke and has extremely good lubrication qualities on high load engine components, such as the connecting rod and bearings. It is best used for chainsaws and clearing saws with a cylinder volume up to 55 cm³. It also lowers the engine temperature which extends engine life and gives a very good seizure protection against lean mix as well as carbon related piston seizures. VEF approved.

XP® 2-STROKE ENGINE OIL

An excellent, fully synthetic and biodegradable 2-stroke oil, developed for tough use with high loads and engine speed. Developed with a completely new ash-free wear additive which gives extremely good lubrication, low smoke, a cleaner engine and less coating on the piston and in the crankcase compared to competing oils. Appropriate for all Husqvarna products, especially for engines with a cylinder volume over 55 cm³. VEF approved.

HUSQVARNA ACCESSORIES

Husqvarna accessories offer something for any Husqvarna fan from bags to keyrings and even tumblers. Any item from this page makes a great gift or stocking filler.

CHAINSAW KEYRING

Chainsaw keyring with bottle opener makes this the perfect companion.

Order PNC	
590 96 00-01	
RRP ex VAT	RRP inc VAT
£3.33	£3.99

CHAINSAW KEYCOVER

Rubber key cover with keyring, featuring push activated LED light.

Order PNC	
590 76 84-01	
RRP ex VAT	RRP inc VAT
£1.66	£1.99

Dealer information: PNC is for 1 x pack of 10. Please note, price is for single item

KEYRING

Metal keyring with leather strap. Featuring embossed logo and 'Ready When You Are' text.

Order PNC	
582 39 95-01	
RRP ex VAT	RRP inc VAT
£1.66	£1.99

BACKPACK

Navy backpack with embroidered logo detail and zipped front pocket.

Order PNC	
582 39 18-01	
RRP ex VAT	RRP inc VAT
£16.66	£19.99

SPORTS BAG

Navy spacious sports bag with embroidered logo and orange straps. 'Ready When You Are' logo also features.

Order PNC	
582 40 36-01	
RRP ex VAT	RRP inc VAT
£20.83	£24.99

GRANITY TUMBLER

Clear glass tumbler with Husqvarna logo - 31cl.

Order PNC	
590 21 06-01	
RRP ex VAT	RRP inc VAT
£4.99	£5.99

Dealer information: PNC is for 1 x pack of 12. Please note, price is for single item

CHRONO WATCH

High quality chronograph watch with Citizen movement. Comes with 5 years warranty, leather strap with stitching detail and giftbox.

Order PNC	
582 40 64-01	
RRP ex VAT	RRP inc VAT
£49.99	£59.99

SPORTS WATCH

With silicon rubber strap with Seiko movement. Comes with 3 years warranty.

Order PNC	
582 40 37-01	
RRP ex VAT	RRP inc VAT
£14.99	£17.99

THERMOS FLASK

Keep your drinks warmer for longer. Perfect for those who are outside all day.

Item	Order PNC
0.5 Litre	582 40 61-01
0.75 Litre	582 40 61-02
RRP ex VAT	RRP inc VAT
£8.33	£9.99
£11.66	£13.99

TRAVEL FLASK

The perfect travel companion. Available in 0.35 Litre.

Order PNC	
582 40 62-01	
RRP ex VAT	RRP inc VAT
£9.99	£11.99

BALL POINT PEN

Basic ball point pen in blue ink.

Order PNC	
582 39 19-01	
RRP ex VAT	RRP inc VAT
£0.33	£0.39

Dealer information: Shipped in packs of 10

KNIGHT PEN

High quality metal pen in blue ink.

Order PNC	
522 02 62-01	
RRP ex VAT	RRP inc VAT
£4.16	£4.99

IPHONE CASES

Husqvarna branded phone case. Available for iPhone 6/6s and 7.

Item	Order PNC
iPhone 6/6s	588 13 79-01
iPhone 7	588 13 79-02
RRP ex VAT	RRP inc VAT
£3.33	£3.99

AUTOMOWER® USB

8GB Husqvarna Automower® USB.

Order PNC	
580 71 44-01	
RRP ex VAT	RRP inc VAT
£9.16	£10.99

GOLF UMBRELLA

Stormproof golf umbrella with Husqvarna logo and 'Ready When You Are' text. 30" diameter and EVA handle for good grip.

Order PNC	
101 69 20-20	
RRP ex VAT	RRP inc VAT
£12.49	£14.99

HUSQVARNA TOYS

There's always lots to do and fix in the garden. So lets get started with your children's very own selection of Husqvarna toys!

With plenty to choose from, our range of children's toy machines is brilliant for inspiring the imagination whether they prefer trimming the hedges, mowing the lawn or even trimming it's edges.

Any of the Husqvarna toys will help your little one discover the world of the outdoors through pretend play, including our ever popular toy chainsaw – now let's get to work!

TOY LAWN MOWER

Battery operated toy lawn mower with active starter, realistic sounds and flashing lights. Batteries included. Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
582 40 63-01	£37.49	£44.99

TOY AUTOMOWER®

Battery powered toy Husqvarna Automower®. Remote controlled allowing the toy to be driven and steered, with flashing lights upon start up.

Designed for indoor use, age 3+ years

Order PNC	RRP ex VAT	RRP inc VAT
597 80 96-01	£41.66	£49.99

TOY CHAINSAW KIT

Kit includes battery operated toy chain with chainsaw sound and rotating chain (batteries included), plastic helmet and gloves.
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
586 49 82-01	£24.99	£29.99

550XP TOY CHAINSAW NEW

Battery operated 550XP toy chainsaw with chainsaw sound and rotating chain. Batteries included
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
586 49 82-01	£24.99	£29.99

TOY CHAINSAW

Battery operated toy chainsaw with chainsaw sound and rotating chain. Batteries included.
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
522 77 11-01	£23.99	£27.99

TOY HEDGE TRIMMER

Battery operated toy hedge trimmer with moving blades and realistic sound. Batteries included.
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
586 49 79-01	£16.66	£19.99

TOY LEAF BLOWER

Battery operated toy leaf blower with blowing air and realistic sounds. Batteries included.
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
586 49 80-01	£24.99	£29.99

TOY GRASS TRIMMER

Battery operated toy grass trimmer with light up and moving trimmer line and realistic sounds. Batteries included.
Age 3+ years.

Order PNC	RRP ex VAT	RRP inc VAT
586 49 81-01	£20.83	£24.99

HUSQVARNA WORD BY WORD

A

ACTIVE AIR FILTRATION™ One of the most efficient air filtration systems on the market. Longer service intervals and less engine wear – even in tough conditions.

ADJUSTABLE DEPTH BAR For easy adjustment of the cultivating depth.

ADJUSTABLE HANDLEBAR Wing nut operation adjusts handlebars both horizontally and vertically for optimum working position.

ADJUSTABLE OIL PUMP An adjustable oil pump provides the bar and chain the right amount of lubrication for every task.

ADJUSTABLE REAR HANDLE The rear handle is adjustable to facilitate cutting the sides and top of hedges.

ADJUSTABLE SLIDING SEAT Adjustable while seated; seat moves forward and down, or backwards and up.

ADVANCED FLOW TECHNOLOGY (AFTECH™) AFTech™ is a unique design where the cutting deck, blade and chute produce optimum airflow. This means first class results in all cutting modes and helps to fill the collector to the optimum level, for less frequent emptying.

AGGRESSIVE WHEEL TREAD For improved wheel-to-ground traction without leaving any unnecessary tracks on the lawn.

ALL-WHEEL-DRIVE (AWD) Ensures traction on uneven, wet and slippery areas and slopes. AWD automatically adjusts the traction on all wheels depending on situation and ground condition.

ANTI-SCALP WHEELS AND FRONT ROLLER Most cutting decks are equipped with anti-scalp wheels and sometimes also a front roller. These reduce the risk of scalping when cutting uneven lawns.

AIR INDUCTION™ A powerful air stream lifts the grass before it is cut, for excellent cutting and collection of both grass and leaves.

AIR INJECTION™ Centrifugal air cleaning system for reduced wear and longer operating time between filter cleanings.

AIR PURGE Air Purge and a decompression valve make the machine extra easy to start.

ARTICULATED STEERING The unique articulated steering system allows the rear pair of wheels to swing in underneath the machine. The result is superior manoeuvrability with a minimum turning radius at full lock.

ATTACHMENT FRAME Easy to shift between cutting decks and front-mounted attachments, such as broom, flail mower, snow blade and snow thrower. No tools or belt changes needed.

AUTOMATIC BLADE ENGAGEMENT The blades are engaged automatically, when the cutting deck is lowered.

AUTOMATIC PASSAGE HANDLING The robotic mower automatically senses narrow passages and will vary its route through the passage to avoid unpleasant tracks.

AUTO RETURN STOP SWITCH Stop switch automatically resets to the ON position for trouble-free starting.

AUTOTUNE™ Provides maximum power through automatic engine setting. No time spent on manual carburettor adjustment. Autotune™ compensates for different fuels, altitude, humidity and ambient temperature.

B

BALANCE HARNESS An ergonomic harness that distributes the load optimally between shoulders, chest and back. Wide padded straps and wide back plate reduce the load. Hip pad with travelling connection reduces body movement.

BALANCE X™ HARNESS A unique ergonomic harness that effectively spreads the machine's weight and maximises its excellent balance. The machine feels much lighter, and much easier and less strenuous to move around. Ergonomic harness with broad back support that distributes the load over a larger area. The hip belt has a shock-absorbing hip pad.

BALANCE XT™ HARNESS A harness providing excellent ergonomics. The load is spread on both shoulders, over the chest and the back and on the hips. This makes the machine feel much lighter, and less strenuous to move around. A wide adjustable back plate, which is ventilated and shaped to fit the curve of the back, allows the harness to fit different body sizes. Wide, padded hip belt. The shock-absorbing hip pad has a travelling connection which reduces body movement.

BALL-BEARING FRONT WHEELS Heavy duty ball-bearings provide long lasting and trouble free service on professional models.

BAR CUTTING LENGTH The cutting length is different from its overall length. It's the distance from the front of the saw to the tip of the farthest cutter rounded to the nearest inch / cm's.

BATTERY INDICATOR LAMP Indicates when the battery is running low and it is time to get ready to charge it.

BATTERY INDICATOR WITH CHARGER CONNECTION The indicator gives clear indication on battery status, which makes it easy to see when charging is needed. The charger connection is placed next to the indicator, for extra convenient recharging of the battery. Fits Husqvarna battery charger XS 800 (new connection) and BC 0.8.

BIOCLIP® (MULCHING) The grass is cut into small pieces that quickly decompose and return to the lawn as fertiliser, also making the lawn more drought resistant. BioClip® is suitable for frequently cut areas.

BIOCLIP® FROM SEAT Easy switch between collecting and BioClip® (mulching) mode by means of a dashboard-operated central actuation device. You don't have to leave the driver's seat.

BIOCLIP® KIT / COVER Makes it possible to convert your side ejection tractor to BioClip®, which means that the grass is cut into small pieces that quickly decompose and return to the lawn as fertiliser, also making the lawn more drought resistant.

BIOCLIP® PLUG Convert your tractor from integrated collection to BioClip®. The plug is available for all TC tractors.

BLUETOOTH A standard for the short-range wireless interconnection of mobile phones, computers, and other electronic devices.

BUMPER Protects the front of the tractor effectively.

C

CARRYING HANDLE / S Facilitates lifting and transport.

CARGO HOLDER The practical carrier and compartment on the engine hood can be used for extra equipment.

CAST FRONT AXLE Heavy cast front axle provides superior balance and stability, even with a collector.

CENTRAL CUTTING HEIGHT ADJUSTMENT Quick and easy adjustment of grass cutting height with one lever.

CHEVRON TYRES Large wheels with heavy treads for optimised grip.

CHOKELESS START Easy to get operating with automatic choke. Just turn the key and go.

COLLECT BLADE Top class collection performance with minimum clippings left on the lawn, giving the lawn a tidy and nice look.

COLLECTION When collecting the grass you get a tidy cutting result. The risk of spreading weeds is less and the collected grass is easily emptied into a compost bin. You can also collect leaves and small twigs.

COLLECTORS Our large and effective tractor collectors are perfect for collecting leaves as well as grass. The integrated collectors are easily emptied from the driver's seat (TC models). The easy-to-handle collector on our lawnmowers is solid, compact and in a high position on the mower, making it easy to remove and replace. Ergonomically designed with wide opening and a support handle.

COMBI CUTTING DECK The Combi cutting deck offers the versatility of two different cutting systems. Choose between BioClip® for lawn fertilization and rear ejection for efficient mowing on areas with higher and rougher grass.

COMBI-GUARD The same cutting equipment guard can be used when using trimmer head and grass blade.

COMBINED CHOKE / STOP CONTROL Combined choke / stop control allows for easier starting and reduces the risk of engine flooding.

COMPOSITE CHASSIS Durable and light chassis, designed for best collection performance.

COUNTER-ROTATING TINES Tines rotate anti-clockwise, so the soil is broken up very well. Capable of deep-digging heavy soil.

COUNTERWEIGHT Increases weight on the wheels and improves balance.

CRUISE CONTROL A convenient, efficient function that ensures the tractor keeps an even speed, even if the lawn is undulating or sloping.

CUP HOLDER Convenient cup holder for refreshments during operation.

CUTTING DECK TRANSPORT MODE The cutting deck can be folded back along the tube into a transport mode for easy transport and storage.

CUTTING HEIGHT INDICATOR A well-placed indicator window makes it easy to control the cutting height settings.

D

DEFLECTOR TS tractors have side ejection deflectors as standard. Tractors with integrated collection (TC) can be converted to rear ejection with the deflector accessory (not TC 130)

DETACHABLE SHAFT Detachable shaft for easy transport and storage.

DETACHABLE TRANSMISSION Detachable transmission housing with lubrication nipple.

DOUBLE TRANSPORT WHEELS You can transport the cultivator by tilting it backwards onto the transport wheels.

DOUBLE BALL-BEARING WHEELS Ensure the mower rolls easily and without the wheels becoming loose, even after many years of use.

DOWN-DRAFTED VENTS The collector's down-drafted vents direct noise and dust downwards, away from the user, creating a more comfortable working environment.

DRAG BAR Easy-adjust drag bar, for different working conditions.

DRIVEN WHEELS Powered wheels for easy and comfortable operation.

DUAL DRAGLINKS Give tighter turning radius and improved manoeuvrability.

DUAL-ROTATING TINES The tines rotate either forward or reverse. Use forward-rotating mode for top soil cultivation and counter-rotating mode for deep soil tilling.

DUST BLOCKER COLLECTOR BAG Designed to keep dust into the bag, preventing it from blowing in the operators face.

E

EASY ADJUSTABLE HANDLE BAR Quick and easy adjustment of the handle in two different heights.

EASY ADJUSTABLE CUTTING HEIGHT A well balanced one hand grip on our lawnmowers makes adjustment of cutting height easy and convenient.

EASY-ADJUST BLADE GUARD The blade guard is adapted quickly and easily during operation.

ELECTRONICS Push button start, indicator lamps for parking brake, battery, headlights, ROS and blade engagement.

ELECTRIC ENGAGEMENT OF CUTTING BLADE/S Easy engagement of cutting blade /s; simply pull the switch on the control panel.

ENGINE BEHIND DRIVER Thanks to the rear-mounted engine, you get better overview of the mowing and less noise and emissions in the driver's area.

ERGONOMIC HANDLES Angled handlebar provide excellent grip to reduce unnecessary strain giving optimum comfort and ergonomic operating control.

ERGONOMIC STEERING WHEEL Ergonomic and comfortable steering wheel.

EXTRA HARDENED REEL BLADE AND BEDKNIFE For excellent cutting performance and maximum durability.

F

FAST TRANSMISSION For extra efficient mowing and fast transport speed.

FENDER-MOUNTED CUTTING HEIGHT ADJUSTMENT Easy accessible cutting height adjustment for improved ergonomics. The spring-assisted cutting deck makes adjustment easier.

FOLDABLE HANDLES Meets the need for easy storage and transporting.

FOUR EQUALLY-SIZED WHEELS Large wheels both front and back provide optimal riding comfort, great accessibility and less risk of damaging delicate surfaces.

FRONT-MOUNTED CUTTING DECK Front-mounted cutting deck for excellent accessibility into corners and under bushes, park benches etc.

FUEL PUMP Fuel pump designed for easy starting by reducing the number of pulls in the starter cord.

FULL COLLECTOR INDICATOR A signal indicates when it is time to empty the collector.

G

GPS COMMUNICATION UNIT GPS theft tracker. SMS alert. Settings changes can be handled from a distance as well as submitting current operating status.

GPS-ASSISTED NAVIGATION An onboard GPS system creates a map of the garden, including where the boundary and guide wires are installed.

H

HANDLEBAR-MOUNTED GEAR SELECTION Ergonomic handle with easy-access controls.

HANDLE HEIGHT ADJUSTMENT Adjustable handle height for improved ergonomics.

HEADLIGHTS Makes the products more visible and allows you to work when it's dark.

HEATED CARBURETTOR A heated carburettor lets the engine start easier and run smoother in cold working environments.

HEATED HANDLES Efficient heating coils in the front and rear handles make operating in cold and damp conditions more manageable.

HIDDEN CABLES The cables are hidden inside the handle tubes, which eliminates the risk of them becoming tangled in hedges or damaged when the handle is folded.

HIGH-CAPACITY BATTERY The high-capacity battery provides performance levels comparable to a petrol driven machine.

HIGH OFFSET POST High offset post increases freedom of movement when working in slopes.

HOURLY METER Helps you having control over service and maintenance intervals.

HYDRAULIC EQUIPMENT LIFT Controls front-mounted equipment quick and with high precision. Managed by a easy reachable joy-stick placed on the control panel beside the operators seat.

HYDROSTATIC TRANSMISSION Optimises speed and provides excellent driving comfort. Speed and direction are controlled by separate pedals for forward and reverse.

HYDROSTATIC TRANSMISSION, FAST Hi-speed transmission for superior transport speeds and smooth, variable forward and reverse speeds with the aid of pedals.

I

INTEGRATED LOOP FOR ROPE A sturdy point for fastening a rope, making it easy to hoist the chainsaw up into a tree.

INERTIA-ACTIVATED CHAIN BRAKE If a kickback occurs and the tip of the bar is forced upwards, the inertia of the front guard should activate the chain brake instantly.

INTUITIVE KEY PAD Our battery products is very easy to operate, all information you need in one place.

L

LED HEADLIGHTS Gives over 50% larger lit area compared to traditional incandescent lights.

LOW NOISE ENGINE Quiet operation provides a comfortable work situation and low disturbance for others.

LOW VIB® Effective anti-vibration dampeners absorb vibration, sparing the user's arms and hands.

M

MY AUTOMOWER® An iPhone application that makes it possible for you to control the robotic lawnmower with your mobile phone.

N

NON-FRICTION SILENT MOWER The lack of friction between the reel blade and bedknife minimises resistance and noise, making the mower very easy to push.

O

OIL COOLER A heat exchanger for cooling the hydraulic system. The cooling system is adequate to keep oil temperatures within safe limits.

OPTIONAL CUTTING DECK To ensure a perfect result, most of our Riders have different cutting decks as options.

ONE-PIECE CUTTING DECK The cutting deck comes in one piece straight out of the stamping line which means it has no welded parts. This gives very high torsional rigidity, tolerance and durability as well as sturdiness in operation.

P

PEDAL-OPERATED CVT TRANSMISSION Speed and direction are managed by pedals, which lets you keep both hands on the steering wheel, for optimum driving control.

PEDAL-OPERATED HYDROSTATIC TRANSMISSION Easy speed and direction control with pedal-operated hydrostatic transmission. Separate pedals for forward and reverse.

PIVOTING FRONT AXLE Ensures good balance and excellent driving comfort.

PIVOTING REAR AXLE The rear axle is pivoting to get maximum traction on the drive wheels and a smooth ride also on uneven surfaces.

PLANT GUARDS Protect plants outside the working area.

POLY-V BELT For better power transmission, less frequent retensioning and increased product life.

POWDER-COATED CUTTING DECK Powder-coated deck for improved durability and corrosion resistance.

POWER STEERING Steering effort is reduced by providing hydraulic pressure to assist when turning the wheels, making manoeuvring easier, more controlled and easier to operate.

PREMIUM SEAT Comfortable Premium seat with high back and armrests. The seat is self-draining and can be tipped to protect it from rain.

GLOSSARY OF TERMS

PRESSURE-LUBRICATED ENGINE An oil pump ensures that all vital parts in the engine get adequate lubrication.

Q

QUICK RELEASE ON AIR FILTER Makes it easy to remove the air filter for cleaning or replacement. No tools required.

QUICK RELEASE ON AIR FILTER COVER Makes it easy to access the air filter and spark plug quickly for cleaning or replacement. A valuable advantage, especially if the saw is used for long periods on a daily basis.

R

RAPIDREPLACE™ BLADE SYSTEM The cutting blades are easily removed and replaced without using any tools. This means safe and quick blade service – and with sharper blades you'll get a healthier lawn.

READYSTART The ReadyStart system eliminates the need to manually prime or choke the engine. It also reduces resistance in the starter cord by 30 %, making the mower very easy to start.

REAR IMPACT GUARD The rear-impact guard protects the pole saw engine from wear and damage.

REAR / SIDE EJECTION These cutting systems have high capacity and are therefore suitable for taller grass, coarser grass types and seldom-cut lawns.

REINFORCED CUTTING DECK The steel tube on the edge of the cutting deck gives improved durability.

REMOTE CONTROLLED CUTTING DECK The remote control makes it easy to adjust the cutting deck angle during operation.

REMOTE TEXT MESSAGING If something unforeseen disturbs operation, this function allows the robotic mower to send a text message to a pre-programmed mobile phone

REMOVABLE BATTERY PACK The battery pack is equipped with a carry handle and is very easy to remove and charge. The battery can also be charged while fitted on the machine.

RETAINED BAR NUTS The bar nuts are attached to the clutch cover. The retaining function prevents losing the bar nuts.

REVBOST™ Gives rapid acceleration and higher chain speed, for best limbing performance.

REVERSE GEARBOX Improves manoeuvrability and control.

REVERSE SPEED Reverse tine direction for easier operation and better manoeuvrability.

S

SAVE™ Maximises runtime of our battery driven products.

SAFETY SWITCH The tractors are equipped with a safety switch under the seat. If the driver leaves the seat the engine and cutting deck are automatically switched off.

SEPARATE OIL FILTER A separate oil filter is easy to change to ensure that clean oil is circulated inside the engine.

SERVICE POINTS The tilting hood and easy-access servicing points make maintenance and servicing easy.

SERVICE POSITION Without tools you can quickly lift the cutting deck into the maintenance position, for convenient cleaning and service.

SIDE-MOUNTED CHAIN TENSIONER Side-mounted chain tensioner makes chain adjustment quick and easy.

SIDE PROTECTION BUMPER Additional protection when mowing next to wall edges or other obstacles.

SMART START® The engine and starter have been designed so the machine starts quickly with minimum effort and reduced resistance in the starter cord.

SMART START® DECOMPRESSION VALVE The engine and starter have been designed so the machine starts quickly with minimum effort.

SMART START® SPRING ASSISTED START When pulling the starter cord a special spring reduces the resistance in the starter cord.

SMARTSWITCH Offers convenience and security of key-less operation, real time feedback through indicator lamps for parking brake, battery status, headlights, ROS and blade engagement as well as simplified one touch starting and stopping.

SNR Signal To Noise Ratio is a measure that compares the level of a desired signal to the level of background noise.

SNAP-LOCK CYLINDER COVER Saves time when changing spark plugs and cleaning.

SOFT-GRIP HANDLE Reduces vibrations to reduce strain and add comfort for the user.

SOFTSTART™ Electronic SoftStart™ provides starting with normal, slow acting fuses.

STAND ALONE STARTER The stand alone starter makes it easier to change starter cord if needed. Easy to service and maintain.

STARTING REMINDER A decal placed on the top cover reminds you of the correct starting sequence for easy starts.

STEP-THROUGH Ensures comfortable and easy mounting and dismounting.

T

TAP-N-GO® Tap-n-Go® function for quick cord feed. Bump the trimmer head on the ground to feed new cord.

TINE SHIELD Minimises debris spray from the rotating tines.

TOOL-LESS CHAIN TENSIONER Quick and easy chain tensioning and assembling of the bar and the chain without using any tools.

TOUCH-CONTROLS Comfortable operation with easy access touch controls for start, stop and reverse.

TRANSMISSION WITH TRIPLE BALL BEARINGS Fitted with a powerful worm gear transmission with triple ball bearings, for increased durability.

TRANSPARENT FUEL TANK Large, transparent fuel tank makes it easy to check the fuel level.

TRANSPORT WHEEL / S Simplifies transport. Easy to raise during operation.

TRIOBRAKE™ A unique feature that allows the chain brake to be activated either automatically by the inertia release mechanism or mechanically by your left or right hand. This will help you work safer, easier, more efficiently and in a more ergonomic fashion, with less strain on the body.

TURN KEY START Start the engine without adjusting a choke, regardless of the weather conditions – just turn the key.

TWO-WAY ROTATION The trimmer head can rotate to the left or to the right. This means you avoid grass on walkways.

U

U-CUT™ A new steering technology that makes it possible to do tighter turns around obstacles.

ULTRASONIC SENSOR Built-in sensors using ultrasonic technology help the mower to adjust the speed depending on the surroundings, and avoids hard collisions.

V

VARIABLE DRIVE SPEED Enables ground speed to be adjusted according to the needs and the conditions of the grass area where the work is taking place

VISIBLE FUEL LEVEL Makes it easy for the user to see when refill of fuel is needed.

VIBRATION-DAMPENED CARBURETTOR When vibration dampening the carburettor the engine runs smoother and with less need for adjustments.

W

WATER HOSE CONNECTION Simple hose attachment facilitates cleaning of the cutting deck.

WEATHER TIMER Adjusts the working time to the lawn's growth rate, meaning that the robotic mower will maximise or minimise its mowing time due to the weather.

X

XP® Premium professional chainsaws – packed with innovative design and technique for superb productivity.

X-CUT™ Researched and developed in-house. Our new family name of chains especially developed for our chainsaws, offering stay sharp technology, pre-stretched in the factory and increased efficiency.

X-FORCE® Researched and developed in-house. Our new family name of pro-laminated bars, offering more durability and lighter weight.

X-TORQ® Our patented, world-leading, 2-stroke X-Torq® technology gives you more power when you need it. But with less fuel consumption and less emissions, when compared to a standard 2-stroke engine. It's technology that works for you and the environment.

X-TRA EFFICIENCY The Rider X model features a car style engine hood with sound absorbing material for improved sound quality. This low sound technology makes it possible to increase the engine power and thereby also the blade and ground speed, which makes the X model extra efficient.

X-TRAC, HEAVY-TREAD TYRES For extra good traction.

OTHER

12 V OUTLET Makes it possible to plug in extra electric equipment, charge your cellular phone etc.

SUSTAINABLE GREEN SPACES THROUGH INNOVATION

Helping to shape green spaces and urban environments is at the core of our vision. By shifting to technologies that make our products as smart, efficient and optimised as possible – and by investing in sustainable innovations – we can make a real difference and contribute to positive change. Below you'll find some of our efforts within our various product categories.

ROBOTICS WITH A VISION: ZERO IMPACT

Husqvarna Automower® supports the transition from petrol-driven lawn mowers to silent and efficient lawn management in private gardens, commercial properties and public green spaces. Husqvarna Automower® robotic mowers have an extremely low noise level (down to only 58dB) and can replace ride-on and walk-behind mowers in residential areas, parks and green spaces as well as sports facilities, thereby reducing the carbon footprint and noise levels.

CHAINSAW INNOVATIONS TO REDUCE EMISSIONS

Since 1990, we have reduced our chainsaws' fuel consumption by more than 30%. Our 70cc pro chainsaws have approximately 10% less CO2 emissions compared to its predecessors thanks to innovations like the X-Torq® engine technology. And over the last 20 years, NOx + HC emissions have decreased by more than 50% for combustion engines.

BATTERY RANGE TO CUT NOISE AND CARBON

Our wide range of low noise, battery-powered equipment delivers opportunities to use low-carbon energy sources and improves safety. Furthermore they spare the environment from fumes and the products have lower vibration and noise levels. Carbon emissions can be reduced to almost zero during use if the battery is charged with renewable energy.

SOFTWARE THAT CUTS PETROL AND PRODUCT COSTS

We are finding new ways to influence how customers can optimise their product fleet. By gathering data from devices and providing the analytics to crunch that data, digitisation helps customers optimise utilisation, uptime and efficiency. It also gives insights into how to create even better customer solutions and fine-tune our products to each task.

SUSTAINABLE INNOVATIONS FOR TOMORROW

While our target relies primarily on sustainable products in our current product mix, we're already working on future innovations such as the Husqvarna Battery Box – the world's first connected garden community toolshed that combines environmental awareness with a sharing economy. Please note that this product is still in a pilot stage and its future depends on market maturity.

SUSTAINABLE PRINTING

This publication is printed on materials from well-managed forests and other controlled sources. It has been printed using an alcohol-free process, with a water-based varnish and vegetable-based printing inks, which are non-hazardous and are from renewable sources. The printing plates used to produce this brochure were made in a chemical-free process.
