

EXPECT MAXIMUM PROTECTION – NO MATTER THE PERFORMANCE LEVEL

TECHNICAL EXTREME

TECHNICAL

LAYERED PROTECTION

Our advanced protective material comprises fewer layers. This makes it lighter, without compromising protection levels. The material and layering design consists of long fibres that can become tangled in the chain.

CONFIDENT SAFETY WITH REGULAR TESTING

Protective clothing for forestry work must carry CE marking. The additional EuroTest mark shows that randomly selected samples are regularly re-inspected by an accredited institute.

Good protective equipment must withstand demanding conditions and provide the required protection. That's why we use nothing but high-quality materials. Each job comes with different requirements. Our range of protective clothing takes into consideration every type of work.

In fact, our extensive range of safety clothing, offering the latest innovations in design and materials, will provide you with the level of protection and comfort you need to get the job done.

FUNCTIONAL

CLASSIC

GRADED PROTECTION CLASS

All personal protection is ranked based on its ability to stop the chain at different speeds: Class 0 (16 m/s), Class 1 (20 m/s), Class 2 (24 m/s) and Class 3 (28 m/s). Tested and approved in accordance with European (CE) and International (ISO) standards.

TROUSER CUT PROTECTION AREAS

The shaded areas show the location of protective material.

MATERIALS CHOSEN FOR YOUR NEEDS

OCCASIONAL USE

WORKWEAR TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. Available in our Classic range. 270 G/M². 65% POLYESTER / 35% COTTON.

WORKWEAR SHINE TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. The shiny yarn in the fabric creates an appealing appearance. Available in our Classic range. 240 G/M². 70% POLYESTER / 30% COTTON.

PART-TIME USE

MICRO POLYESTER

Our Micro Polyester is a plain woven fabric with a soft touch. It is resistant to tearing, stretching and stains. Available in our Functional range. 190 G/M². 100% POLYESTER.

CORDURA® HEAVY

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort. Our Cordura® Heavy is used on the most exposed areas of the garments — around ankles and wrists for example. The fabric has a Teflon® finish which helps repel water, oil and stains. Available in our Functional and Technical ranges. 220 G/M². 100% CORDURA®.

CORDURA® LIGHT

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort in a lightweight fabric. Available in our Functional range. 175 G/M². 100% CORDURA® POLYAMIDE.

FULL-TIME USE

COMFORTABLE STRETCH

A 4-way stretch fabric that stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides comfortable movement. Available in our Technical range. 235 G/M². 92% POLYESTER / 8% LYCRA®.

ARAMIDE MÉLANGE

A fibre composition combining abrasion resistant Kevlar® fibres and hardwearing Cordura® fibres, making our Aramide mélange a tough fabric used for reinforcements on exposed areas. Available in our Technical range. 240 G/M². 45% CORDURA® / 30% POLYAMID / 25% KEVLAR® ARAMIDE.

FULL-TIME USE

CORDURA® REFLEX

Cordura® means durability without compromise. The fabric delivers the wear and tear resistance needed on the most exposed areas. The reflective yarn in the fabric gives high visibility in dark and dim conditions. Available in our Technical Extreme range. 335G/M². 100% POLYAMIDE.

CORDURA® CHECKERED

The fabric delivers the wear and tear resistance needed on the most exposed areas. Coated on the back for improved water resistance. Available in our Technical Extreme range. 225 G/M². 100% POLYAMIDE.

LIGHT WEIGHT STRETCH

Our light 4-way stretch fabric stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides maximum comfort. Available in our Technical Extreme range. 190 G/M². 88% POLYESTER (14% POLYESTER COOLMAX®) / 12% ELASTANE (LYCRA®).

FEATHER STRETCH

Our lightest fabric with 2-way stretch is used for areas in need of a great movability. The fabric gives freedom of movement and high comfort. Available in our Technical Extreme range. 185 G/M². 66% POLYESTER / 34% ELASTANE.

Note: All measurements are body measurements, except the inner leg, which is a garment measurement. If a base layer is to be worn under the garment, it should also be worn when measuring. Chest: measured around the widest part of the chest. Height: from top to toe. Waist: measured around the waist. Inside leg: measured from crotch to desired length.

KEEP YOUR SAFETY CLOTHING SAFE

WASHING GUIDE

Your protective clothes are regularly exposed to sweat and oil. These substances can reach the protective layer, reducing its functionality. This is why you need to wash your clothes regularly and in accordance with their labelling. If your clothes get heavily soiled, you should wash them as soon as possible after use.

Wash the garment regularly in accordance with the instructions on the inside labelling.

Machine wash. For temperature, see inside labelling.

After washing, the garment should be stretched prior to drying. Air dry slowly.

Do not wash your protective clothes inside out. Also, do not bleach, dry clean, or tumble dry. Iron with low heat.

Clean the garment immediately if it has been subjected to petrol, oil, grease or other flammable materials. Fire hazard!

Keep the garment away from sharp objects, acids, oils, solvents, fuels and animal droppings.

REPAIR GUIDE

In addition to washing and cleaning your protective wear, you also need to check for heavily worn areas, damages and tears in the fabric. The protective functions may be seriously reduced if repairs are not carried out properly. Use the guide below for reference, and always consult your dealer if in doubt.

If a repair to the outer material is being made, do not sew into the protective material as this can reduce its protective qualities.

Damaged outer material must be repaired immediately in order to prevent the protective material becoming damaged.

The garment should be scrapped and not used again if the protective material has been: damaged, incorrectly washed, or altered from its original shape.

Adhesive must not be used when carrying out repairs as it may affect the protective material and reduce its protective qualities.

This product is no substitute for the operation of a chainsaw and does not provide total protection.

Cut-retardant apparel and materials are subject to a certain degree of aging. In professional logging, the maximum period of usage is considered to be about 12 months. In non-professional or occasional use, up to 5 years is considered acceptable.

CLASSIC – OCCASIONAL USE

REGULAR FIT

PROTECTING THE PROTECTION

The saw protection pad is completely covered, so saw dust doesn't compromise the performance of the fibre layers.

REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensures high durability.

KEEP COOL

The jacket has a full-length front zip and an open yoke at the back. The ventilation zips at the back of the legs let you adjust the airflow.

ZIPPED POCKETS

For easy access to your belongings, the jacket comes with two zipped front pockets as well as a chest pocket.

PROTECTIVE PERFORMANCE CLOTHING BY HUSQVARNA

The Husqvarna Classic range is intended for occasional use and is designed with the domestic user in mind at an affordable cost. It offers the highest quality and reliability you expect from Husqvarna.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

HUSQVARNA RECOMMEND

Active Cleaning Detergent. Page 265

Keep your gear in good condition. Check for damage and clean your clothing regularly to help maintain its protective values. This goes for all clothing, including gloves and helmets. Replace any damaged items. Read more on how to look after your protective clothing on page 261.

FUNCTIONAL – PART-TIME USE

REGULAR FIT

REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensure high durability.

ADJUST FOR PERFECT FIT

The elastic drawstring with a cord lock at the waist allows you to easily tighten or loosen the jacket for improved fit.

WELL VENTILATED

Openings at the yoke make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

PROTECTIVE CLOTHING MADE FOR FUNCTIONAL PERFORMANCE

The Husqvarna Functional range is intended for frequent use in more demanding conditions. Tough, resistant fabrics, effective ventilations and smart design features help you handle any task at hand.

Ideal for applications including:

- Farm and estate maintenance
- Heavy duty firewood cutting
- Agriculture

REINFORCED FOR TOUGH USE

The elbows, wrists and the front of the trousers are made of Cordura®, and the lower part of the trousers has been reinforced to withstand tough use.

WHAT PROTECTIVE EQUIPMENT DO I NEED TO OPERATE A CHAINSAW?

Never use a chainsaw without chainsaw protective trousers, a helmet with visor and hearing protection, boots with chainsaw protection and gloves with chainsaw protection. Husqvarna also recommends wearing a forestry jacket with high visibility.

Always let someone know where you are working and when you expect to be finished. Finally, have a first aid kit close to hand as well as some form of communication equipment such as a whistle or mobile phone in case you need to call for help.

ACTIVE CLEANING DETERGENT

TECH-KNEE TECHNOLOGY. EXCEPTIONAL PROTECTION AND MOBILITY

ADDED PROTECTIVE LAYERS

The Tech-Knee provides excellent saw protection, thanks to the additional fibre layers. This improves safety, especially in situations where the trousers fit tight to the knee.

WATER REPELLENT

The knee has a water-resistant inner lining and an outer layer made of water-repellent fabric, keeping water and moisture from penetrating the saw protection layers. This means you can work comfortably in wet conditions for a longer time.

PRE-BENT FABRIC

The complete knee, including the waterproof layers and saw protection fabric, has been pre-bent to ensure a perfect fit in all working positions.

TECHNICAL FOR BRUSHCUTTING

SPECIALLY DESIGNED FOR CLEARING AND GARDEN WORK

Wearing a harness while working long hours with a brushcutter puts specific demands on the clothes to be comfortable and functional. Our brushcutter and trimmer clothing offers practical details in the right places, like padded shoulders and hips and ventilation zips for durable protection whilst you work.

Ideal for applications including:

- **Trimming / brushcutting / hedge trimming**
- **Grounds maintenance**
- **Non chainsaw applications**
