

# EXPECT MAXIMUM PROTECTION – NO MATTER THE PERFORMANCE LEVEL

**TECHNICAL EXTREME**

**TECHNICAL**

## LAYERED PROTECTION

Our advanced protective material comprises fewer layers. This makes it lighter, without compromising protection levels. The material and layering design consists of long fibres that can become tangled in the chain.

## CONFIDENT SAFETY WITH REGULAR TESTING

Protective clothing for forestry work must carry CE marking. The additional EuroTest mark shows that randomly selected samples are regularly re-inspected by an accredited institute.

Good protective equipment must withstand demanding conditions and provide the required protection. That's why we use nothing but high-quality materials. Each job comes with different requirements. Our range of protective clothing takes into consideration every type of work.

In fact, our extensive range of safety clothing, offering the latest innovations in design and materials, will provide you with the level of protection and comfort you need to get the job done.

**FUNCTIONAL**

**CLASSIC**

### GRADED PROTECTION CLASS

All personal protection is ranked based on its ability to stop the chain at different speeds: Class 0 (16 m/s), Class 1 (20 m/s), Class 2 (24 m/s) and Class 3 (28 m/s). Tested and approved in accordance with European (CE) and International (ISO) standards.

### TROUSER CUT PROTECTION AREAS

The shaded areas show the location of protective material.

## MATERIALS CHOSEN FOR YOUR NEEDS

### OCCASIONAL USE

#### WORKWEAR TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness.

Available in our Classic range.

270 G/M<sup>2</sup>. 65 % POLYESTER / 35 % COTTON.

#### WORKWEAR SHINE TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. The shiny yarn in the fabric creates an appealing appearance.

Available in our Classic range.

240 G/M<sup>2</sup>. 70 % POLYESTER / 30 % COTTON.

### PART-TIME USE

#### MICRO POLYESTER

Our Micro Polyester is a plain woven fabric with a soft touch. It is resistant to tearing, stretching and stains. Available in our Functional range.

190 G/M<sup>2</sup>. 100 % POLYESTER.

#### CORDURA® HEAVY

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort. Our Cordura® Heavy is used on the most exposed areas of the garments — around ankles and wrists for example. The fabric has a Teflon® finish which helps repel water, oil and stains. Available in our Functional and Technical ranges.

220 G/M<sup>2</sup>. 100 % CORDURA®.

#### CORDURA® LIGHT

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort in a lightweight fabric. Available in our Functional range.

175 G/M<sup>2</sup>. 100 % CORDURA® POLYAMIDE.

### FULL-TIME USE

#### COMFORTABLE STRETCH

A 4-way stretch fabric that stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides comfortable movement. Available in our Technical range.

235 G/M<sup>2</sup>. 92 % POLYESTER / 8 % LYCRA®.

#### ARAMIDE MÉLANGE

A fibre composition combining abrasion resistant Kevlar® fibres and hardwearing Cordura® fibres, making our Aramide mélange a tough fabric used for reinforcements on exposed areas.

Available in our Technical range.

240 G/M<sup>2</sup>. 45 % CORDURA® / 30 % POLYAMID / 25 % KEVLAR® ARAMIDE.

### FULL-TIME USE

#### CORDURA® REFLEX

Cordura® means durability without compromise. The fabric delivers the wear and tear resistance needed on the most exposed areas. The reflective yarn in the fabric gives high visibility in dark and dim conditions. Available in our Technical Extreme range.

335 G/M<sup>2</sup>. 100 % POLYAMIDE.

#### CORDURA® CHECKERED

The fabric delivers the wear and tear resistance needed on the most exposed areas. Coated on the back for improved water resistance.

Available in our Technical Extreme range.

225 G/M<sup>2</sup>. 100 % POLYAMIDE.

#### LIGHT WEIGHT STRETCH

Our light 4-way stretch fabric stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides maximum comfort. Available in our Technical Extreme range.

190 G/M<sup>2</sup>. 88 % POLYESTER (14 % POLYESTER COOLMAX®) / 12 % ELASTANE (LYCRA®).

#### FEATHER STRETCH

Our lightest fabric with 2-way stretch is used for areas in need of a great movability. The fabric gives freedom of movement and high comfort. Available in our Technical Extreme range.

185 G/M<sup>2</sup>. 66 % POLYESTER / 34 % ELASTANE.

Inside leg (inches)	34"	34.5"	35"	35.5"

Note: All measurements are body measurements, except the inner leg, which is a garment measurement. If a base layer is to be worn under the garment, it should also be worn when measuring. Chest: measured around the widest part of the chest. Height: from top to toe. Waist: measured around the waist. Inside leg: measured from crotch to desired length.

# KEEP YOUR SAFETY CLOTHING SAFE

## WASHING GUIDE

Your protective clothes are regularly exposed to sweat and oil. These substances can reach the protective layer, reducing its functionality. This is why you need to wash your clothes regularly and in accordance with their labelling. If your clothes get heavily soiled, you should wash them as soon as possible after use.

Wash the garment regularly in accordance with the instructions on the inside labelling.

Machine wash. For temperature, see inside labelling.

After washing, the garment should be stretched prior to drying. Air dry slowly.

Do not wash your protective clothes inside out. Also, do not bleach, dry clean, or tumble dry. Iron with low heat.

Clean the garment immediately if it has been subjected to petrol, oil, grease or other flammable materials. Fire hazard!

Keep the garment away from sharp objects, acids, oils, solvents, fuels and animal droppings.

## REPAIR GUIDE

In addition to washing and cleaning your protective wear, you also need to check for heavily worn areas, damages and tears in the fabric. The protective functions may be seriously reduced if repairs are not carried out properly. Use the guide below for reference, and always consult your dealer if in doubt.

If a repair to the outer material is being made, do not sew into the protective material as this can reduce its protective qualities.

Damaged outer material must be repaired immediately in order to prevent the protective material becoming damaged.

The garment should be scrapped and not used again if the protective material has been: damaged, incorrectly washed, or altered from its original shape.

Adhesive must not be used when carrying out repairs as it may affect the protective material and reduce its protective qualities.

This product is no substitute for the operation of a chainsaw and does not provide total protection.

Cut-retardant apparel and materials are subject to a certain degree of aging. In professional logging, the maximum period of usage is considered to be about 12 months. In non-professional or occasional use, up to 5 years is considered acceptable.

## CLASSIC – OCCASIONAL USE

REGULAR FIT

### PROTECTING THE PROTECTION

The saw protection pad is completely covered, so saw dust doesn't compromise the performance of the fibre layers.

### REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensures high durability.

### KEEP COOL

The jacket has a full-length front zip and an open yoke at the back. The ventilation zips at the back of the legs let you adjust the airflow.

## PROTECTIVE PERFORMANCE CLOTHING BY HUSQVARNA

The Husqvarna Classic range is intended for occasional use and is designed with the domestic user in mind at an affordable cost. It offers the highest quality and reliability you expect from Husqvarna.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

### ZIPPED POCKETS

For easy access to your belongings, the jacket comes with two zipped front pockets as well as a chest pocket.

### CLASSIC FOREST JACKET

### ! WHAT PROTECTIVE EQUIPMENT DO I NEED TO OPERATE A CHAINSAW?

Never use a chainsaw without chainsaw protective trousers, a helmet with visor and hearing protection, boots with chainsaw protection and gloves with chainsaw protection. Husqvarna also recommends wearing a forestry jacket with high visibility.

Always let someone know where you are working and when you expect to be finished. Finally, have a first aid kit close to hand as well as some form of communication equipment such as a whistle or mobile phone in case you need to call for help.

## FUNCTIONAL – PART-TIME USE

### REGULAR FIT

### REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensure high durability.

### ADJUST FOR PERFECT FIT

The elastic drawstring with a cord lock at the waist allows you to easily tighten or loosen the jacket for improved fit.

### WELL VENTILATED

Openings at the yoke make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

## PROTECTIVE CLOTHING MADE FOR FUNCTIONAL PERFORMANCE

The Husqvarna Functional range is intended for frequent use in more demanding conditions. Tough, resistant fabrics, effective ventilations and smart design features help you handle any task at hand.

### Ideal for applications including:

- Farm and estate maintenance
- Heavy duty firewood cutting
- Agriculture

### REINFORCED FOR TOUGH USE

The elbows, wrists and the front of the trousers are made of Cordura®, and the lower part of the trousers has been reinforced to withstand tough use.

## HUSQVARNA RECOMMEND

Active Cleaning Detergent. Page 243

Keep your gear in good condition. Check for damage and clean your clothing regularly to help maintain its protective values. This goes for all clothing, including gloves and helmets. Replace any damaged items. Read more on how to look after your protective clothing on page 233.

## TECHNICAL – FULL-TIME USE

**TIGHT FIT**

### PRE-BENT KNEES

The knees are pre-bent and have been tailored to offer maximum mobility without compromising safety.

### ADJUST FOR PERFECT FIT

The clothes come with elastic drawstrings at the waist and at the lower bottom of the jacket, allowing you to adjust your gear for a perfect fit.

### STRETCH FOR COMFORT

Where needed, the clothes are made of stretch fabric, allowing you to move freely, safely and comfortably.

### WELL VENTILATED

Openings at the yoke and the lower back make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

### REINFORCED WHERE YOU NEED IT

The knees, elbows, ankles and wrists have been reinforced to withstand tough use and make your clothes last longer.

### EASY-ACCESS POCKETS

The jacket has two pockets on the chest and a dedicated first-aid pocket. The trousers feature two front pockets, two back pockets, a leg pocket and a double ruler pocket.

## PROTECTIVE CLOTHING MADE FOR PROFESSIONAL PERFORMANCE

The Husqvarna Technical range is designed and built to perform all day every day for professional users. Task-optimised design meets modern styling, while tough, light stretch fabrics, reinforced panels and pre-bent knees and elbows offer high resistance, durability and performance.

**Ideal for applications including:**

- Forestry
- Logging
- Horticulture
- Arboriculture

### TECHNICAL FOREST JACKET

### EXTENDED LEG

An extra three centimetres has been added to make sure the trouser stays over the boot when climbing, for protection and comfort.

### EASY ACCESS POCKETS

Side pockets with reversed zips for easy access when wearing harness, and double thigh pockets with loops for storage.

## ! TECH-KNEE TECHNOLOGY. EXCEPTIONAL PROTECTION AND MOBILITY

### ADDED PROTECTIVE LAYERS

The Tech-Knee provides excellent saw protection, thanks to the additional fibre layers. This improves safety, especially in situations where the trousers fit tight to the knee.

### WATER REPELLENT

The knee has a water-resistant inner lining and an outer layer made of water-repellent fabric, keeping water and moisture from penetrating the saw protection layers. This means you can work comfortably in wet conditions for a longer time.

### PRE-BENT FABRIC

The complete knee, including the waterproof layers and saw protection fabric, has been pre-bent to ensure a perfect fit in all working positions.

## TECHNICAL FOR BRUSHCUTTING

### SPECIALLY DESIGNED FOR CLEARING AND GARDEN WORK

Wearing a harness while working long hours with a brushcutter puts specific demands on the clothes to be comfortable and functional. Our brushcutter and trimmer clothing offers practical details in the right places, like padded shoulders and hips and ventilation zips for durable protection whilst you work.

#### Ideal for applications including:

- **Trimming / brushcutting / hedge trimming**
- **Grounds maintenance**
- **Non chainsaw applications**

## TECHNICAL BRUSHCUTTING/TRIMMING JACKET

Shoulder and hip reinforcement for increased durability when using a harness all day.

#### WELL-VENTILATED

Ventilation zips under the arms and on the back of the trouser legs for a comfortable temperature.

#### PRE-BENT

Trouser knees with Cordura® reinforcements for durability. A water repellent material in front and on the sides of the legs with padded protection.

## WORKWEAR

Comfortable designs, made from light, non-absorbing, wind and water repellent materials are the basic qualities of our tried and tested clothing that keeps you warm when working in cold and wet environments.

Our Technical Work T-shirts offer the perfect solution for any type of weather. With long and short sleeves for whatever the temperature, they keep you cool and dry when working hard with a hi-visibility version, when you need it.

Husqvarna high-quality rain wear covers many weather conditions and is light and comfortable to wear, with good ventilation.

### TECHNICAL WORK T-SHIRTS

Light and cool, with zipped front, extended back and easy-access zipped front pocket. It transports moisture away from the body and dries quickly. Available in long and short sleeves.

Technical Hi-Viz T-Shirt features additional reflective tape and is tested and approved to ISO EN 20471 (Class 2).
