RTM SUFFOLK®

Overview

The **RTM Suffolk® Sweeper Collector** - for paddocks, sports fields, parks and estates. Rejuvenates grass by removing dead and loose materials. Successfully cleans your turf surface, collecting droppings, leaves and materials in the hopper. Very low running and maintenance costs make it a very cost effective way of keeping surfaces well maintained. Let the **RTM Suffolk® Sweeper Collector** do the work, saving you time, energy and labour costs.

As simple as a good old brush and shovel! 1.8m working width with large easy-discharge hopper that operates from a single tractor tipping pipe. Mounted by 3-point linkage but runs independently on four wheels in order to follow the contours of the ground. PTO-driven with low HP requirement. Accurate height control by two adjustable front wheels placed in line with the heavy duty brush. Height adjustable front rake for spreading in front of brush.

All our RTM Suffolk® range of machines carry a 12-month manufacturer's warranty!
