Forest and Garden Products

Equipment and services for people enjoying outdoor work

A Husqvarna robotic lawn mower is shown on a well-maintained green lawn. The mower is dark grey and black with a prominent Husqvarna logo on its side. In the background, there is a garden with various plants, including a large tree, several bushes, and a paved walkway. A dark building is visible in the distance.

Enhance your garden
experience with cutting edge
performance and perfection

Get it right with Husqvarna

It can certainly be tricky to find the right garden products – those you can rely on, season after season. But since you picked up this catalogue, you're already one step closer. No matter which Husqvarna product you choose, it will be built to last and have a performance matching its purpose. Adding to that, there are helpful services, spare parts and accessories – and a great network of knowledgeable dealers. You can be sure that when getting a Husqvarna, you're getting it right.

INNOVATIVE SINCE 1689

User-centric design and technology

At Husqvarna we've worked with constant innovation since 1689, it's in our DNA. Innovation, for us, is about the future. We're constantly accelerating our transformation from mechanical to digital, petrol to battery and manual to autonomous, working with early stage innovations, extensive external partnering and new, user centric approaches. By continuously challenging ourselves, we aim to create even greater experiences for our customers, helping them towards the very best results.

A COMPREHENSIVE PRODUCT RANGE

Which level suits your requirements?

COMPACT

Essential, battery-powered tools within the Husqvarna Aspire™ range for tasks in the smallest gardens. Compact-sized, easy to use and effortless to store, with an ideal combination of performance and low maintenance. The intuitive, smart and sleek design enables easy interaction and smooth personal adjustments.

CONVENIENT

Machines optimised for occasional or casual use, ideal for smaller and easier garden tasks. These products are designed for improved convenience, easy use and low maintenance, without compromising on performance.

ADVANCED

Machines developed for frequent, more demanding use in the garden. These products are purposefully designed with advanced features and optimised performance to make your garden work more efficient and enjoyable.

SUPERIOR

Machines developed for tougher and larger tasks. These powerful, high capacity products are equipped with design solutions and technical features aimed at simplifying your outdoor work everywhere and every time, for a superior user experience.

PART-TIME PROFESSIONAL

High-performance machines built for part-time professional use. Superb for those who need professional power, high capacity and comfortable features. A wide range of attachments for year-round use is also available.

PROFESSIONAL

Machines developed for demanding full-time professional use. These products are carefully adapted to facilitate the workdays for commercial users, both in terms of user-friendliness and ergonomics as well as robustness and product durability.

HUSQVARNA AUTOMOWER®

30 years of experience in robotic mowing

Leaning on three decades of experience, we know the difference between leaving your lawn to chance and a robotic mower you can trust. Thanks to the extensive Automower® range, there's a model made to effortlessly mow every lawn to perfection.

Customise your mowing schedule via the Automower® Connect app and define your working area with a physical or virtual boundary — then sit back, relax and watch Automower® easily manage the rest. When the job is done or the battery needs recharging, your robotic lawn mower automatically returns to its charging station. Rain or shine, day or night, you can rely on Automower® to do the hard work for you.

AUTOMOWER® ROBOTIC MOWERS

Impressive results on complex lawns

With 3.5 million units installed worldwide, we have perfected our Automower® robotic mowers to provide you with a carpet-like lawn quality. Complex lawns with narrow passages? Hilly areas? No problem for Automower®. Every garden is unique, with its unique challenges — all handled with outstanding results by our robotic mowers that work tirelessly, quietly and with no CO₂ emissions during use — whenever you want.

NEW MODELS

A NEW ERA OF MOWING

Virtual boundaries

Enjoy an easy, wire-free installation, where no boundary wires are needed. The optional Husqvarna EPOS™ plug-in accessory enables a robust and precise virtual installation. You can easily make updates to your installation during the season — according to your garden's maintenance needs — via the Automower® Connect app. Precise and flexible area management enables you to define different areas of your lawn, apply different settings and schedules, or create temporary stay-out zones.

TRUE EDGE CUTTING

Husqvarna EdgeCut for minimised trimming

Husqvarna EdgeCut minimises the need to trim the edges of your lawn, saving time and effort. The dedicated rear disc leaves only a minimum of grass uncut.

HUSQVARNA AUTOMOWER® CONNECT

Lawn care in the palm of your hand

Enjoy the convenience of complete command from both your smartphone and your smart home with the Husqvarna Automower® Connect app. From edge to edge and zone by zone*, you can manage and monitor your Husqvarna robotic mower from anywhere in the world* — freeing you from the task of mowing your lawn with the reliability to always achieve a premium cut. Make your lawn care as carefree as possible with Automower® Connect.

*Available on selected mowers.

STATE-OF-THE-ART LAWN CARE

Explore the intelligent robotics

Automower® Intelligent Mapping (AIM) Technology gives you complete control of your lawn directly from your smartphone via the Automower® Connect app. Build a tailored virtual map of your garden with customisable and flexible zone control. This enhanced virtual map enables you to tailor the cut of your lawn, see the guide wires and boundaries as well as view the real-time location of your mower.

Husqvarna Automower® advantages:

1 Covers all areas

The patented guide wire makes sure that your robotic mower reaches remote work areas. It also helps it find the shortest way back to the charging station, saving energy and avoiding visible tracks.

2 Manages narrow spaces

The Automower® robotic mower senses narrow passages and finds its way through narrow gaps.

3 Works in the rain

Automower® robotic mowers deliver great cutting results in any type of weather. Its vital parts are safely protected from rain, as well as dust and grass clippings.

4 Recharges automatically

The robotic mower finds its own way back to the charging station. It recharges for about 60 minutes, then resumes mowing – all without any effort on your part.

5 Operates quietly

You'll be surprised how quickly you forget about your robotic mower. You'll hardly notice it as it rolls around your garden doing its job quickly, quietly and efficiently.

6 Handles hills and slopes

Thanks to optimised design and intelligent behaviour, Automower® 435X AWD robotic mowers can cope with slopes up to 70% or 35°, whereas our other models easily handle inclinations of up to 50%.

HUSQVARNA LEASE PLUS

Lease your perfect lawn

Would you like having an Automower® robotic mower in your garden for 3 or 5 years, at a fixed monthly cost? With installation, off-season storage, insurance, seasonal genuine Husqvarna blades and yearly maintenance included? That's our Husqvarna Lease Plus offer – a perfect lawn with minimum effort. Contact your local Husqvarna Dealer and find more information on [Husqvarna.com](https://www.husqvarna.com).

INSTALLATION AND BLADES

Efficiency right from the start

Naturally, we've got everything you need to begin your robotic mowing experience immediately. Our practical installation kit comes in three different sizes and contains boundary wire, stakes, couplers and connectors in different sizes and lengths, to fit just about any type or size of lawn. And with pivoting, multi-edge genuine Automower® blades, you can be sure of a razor-sharp cut, every time. Should you need help, our dealers are always ready to assist you with your installation. Find out more at husqvarna.com/AutomowerParts

NEW HUSQVARNA ASPIRE™

Enjoy smarter garden work with compact, efficient tools

Husqvarna Aspire™ is a new range of efficient garden tools with compact, flexible design and smart details to make your garden work enjoyable. The 18V **POWER FOR ALL** ALLIANCE battery system provides truly cordless convenience and great performance. Ideal for you who want to keep your own little garden the greatest place to be – with the least possible work effort.

Aspire™ storage rail

Each Aspire™ product has a bespoke metal hook, ready to mount directly on the wall for easy and stable storage. The storage rail provides an even neater and more flexible solution.

Hedge trimmer Aspire™

Lightweight, with double-action cutting blades, powerful motor and 50 cm long cutting deck. Comes with a smart leaf catcher.

Blower Aspire™

High blow force adjustable in 3 steps for optimal performance.

Pruner Aspire™

2-in-1 tool, efficient hand pruner with extendable telescopic shaft for a ladder-free pruning experience.

Shrub Shear Aspire™

Multi-purpose tool for precision grass trimming and shaping of bushes.

Trimmer Aspire™

Easily adjustable for super-precise trimming.

Robotic mower Aspire™

Compact Automower® packed with smart features, for lawns up to 400 m².

Lawn mower Aspire™

Easy to lift and foldable, taking up minimum storage space. Telescopic stepless adjustable handles. Easy to manoeuvre in all corners of your lawn.

SMART DESIGN FOR SMOOTH HANDLING

Spend more time enjoying your garden

The Husqvarna Aspire™ products are all high quality and carefully designed, with a sleek appearance and intuitive use in mind, to make your garden work nothing but effortless and enjoyable. The tools are easy to get started with and need little or no maintenance. Their low weight and high-performance motors help you get the work done efficiently and in no time.

POWER FOR ALL BATTERY SYSTEM

Experience flexible power

The **POWER FOR ALL** ALLIANCE is one of the largest cross-brand 18 Volt battery systems worldwide, stretching across a multitude of home and garden applications. The **POWER FOR ALL** ALLIANCE gathers a multiple of leading brands such as Husqvarna, Bosch, Gardena, Wagner and Rapid. You'll only need one charger and one battery for all your garden products if it suits you.

HUSQVARNA BLI-X

A flexible battery system

The high performing Husqvarna BLI-X 36 Volt battery system offers a great variety of options, from lightweight integrated to backpack batteries. They are quick to recharge and even quicker to swap for continuous operation. The wide range of Husqvarna battery machines allows you to find a tailored battery solution that perfectly suits your task at hand.

Husqvarna battery power advantages:

1 High performance

Strong, durable motors, less vibrations and lower weight than comparable petrol machines, and smart, well-balanced design give you all the performance and comfort you need.

2 Convenient work

No petrol fills, no starter cords, no cables. Easy to start, stop and use. Just take the battery from the charger, fit into the machine and you're ready to take on the job. The low noise motors also reduce the risk that anyone will be disturbed by your work..

3 Zero CO₂ emission during use

Our battery powered motors offer the performance of petrol-powered engines, but without the CO₂ emissions during use.

4 One system, many options

All products within the Husqvarna BLI-X 36 Volt system are built on a common platform. Whatever job you're up to, you can choose a battery optimised for your specific application.

5 Water-resistant products

Many products in our battery range meet a high water resistance class. From Husqvarna 300 battery series and up most products are IPX4 water resistance classified.

6 Wide range

Whatever battery machine you're looking for – a chainsaw, hedge trimmer, grass trimmer, brushcutter, leaf blower, lawn mower or dethatcher – we have the ideal Husqvarna machine for you.

Extend your product's life with Husqvarna Connect

The Husqvarna Connect app gives you access to everything you need to make your product last longer. The app is a digital tool shed that provides easy access to information such as the Operator's Manual, Usage & Maintenance Guides, How-To Videos and the Husqvarna Dealer Locator. You can also buy the parts and accessories that fit your product via the app. Bluetooth® connectivity is available for a select range of models. We are continuously adding support for more products in the Husqvarna Connect app.

CONNECT WITH US

Tough enough!

Do you have a garden of above average size — and perhaps a piece of forest to take care of as well? That's great, because for decades, we have been creating powerful products for people like you. Today, when the world-renowned Husqvarna performance becomes battery powered, we are as ready as ever to meet your toughest challenges. And we think you are ready, too — ready to make the switch from petrol to battery.

NEVER RUN OUT OF POWER

Choose the optimal capacity for your work

How long can you work on a full charge? It depends, both on the capacity of the battery you choose and what kind of work you do. You'll find the perfect fit in our range of fast-charging Husqvarna batteries and matching chargers. Add a little extra capacity and your work will be even more enjoyable. For guidance, see the chart on pages 38–39.

Six common questions regarding our battery products

- 1 Is it really powerful enough for my needs?**
 Husqvarna's battery range has inherited the tailored and reliable performance from our petrol-driven products. Choose a battery product that fits your needs and you can get the job done as efficiently as with petrol – but without the noise and fumes.
- 2 Will it run out of charge before I'm finished?**
 With the more powerful battery models, one charge is often enough to get most everyday tasks done. A suggestion is to have a double set of batteries, so you can use one while charging the other. And with no fuel refilling, fewer parts and an electronically controlled drive system, there is less downtime.
- 3 Is the user experience as good as with petrol?**
 If you haven't tried one of our battery products yet, you are in for a pleasant surprise. Vibrations and noise levels are kept at a minimum, with push-button starting you are instantly ready for action, and there is less need for maintenance and cleaning.
- 4 Won't the technology soon be outdated?**
 The current battery platform has been developed to be future-proof – and backward compatibility will be ensured for new releases. The products and battery system are built to endure years of tough use and charging cycles.
- 5 Is it worth the investment?**
 When switching to battery, the initial extra cost is unavoidable. The pay off will come over time when you use the same battery for different machines, need less servicing and repairs – and your way of working puts less strain on your body and the environment.
- 6 Will my work become more sustainable?**
 The switch from fossil fuels to less climate-impacting alternatives is crucial for helping to contribute to a sustainable future. With our battery-powered products, no petrol is needed and there are zero CO₂ emissions during use.

Meet your new coworkers

Gathered to the right are some of our best battery products for larger gardens and smaller forest areas. If you're a consumer in search of powerful, reliable performance these are likely a perfect match for you – all prepared to get your piece of land in perfect shape. Learn more about their individual skills on the product pages at the back of this catalogue.

When lawn mowing becomes enjoyable

Imagine the sensation of walking barefoot onto your fresh, green, dewy grass while sipping your first cup of coffee in the morning sunlight. How could your day get off to a better start? At Husqvarna we love a great lawn as much as you do. And whichever way you prefer to care for it, we've got you covered. Take a walk behind your lawn mower and enjoy the action at your own pace. Or experience the thrill in the driver's seat of your ride-on mower. Whatever makes your lawn better, we'll support you.

WALK-BEHIND MOWERS

Match your lawn perfectly

Whichever size of mower that suits your lawn, our petrol- and battery-powered mowers alike have high-spec and easy-starting engines as well as durable cutting decks, delivering first class cutting results every time. So, no matter which Husqvarna model you choose, you can look forward to getting a healthy, well-kept lawn.

RIDERS

Enjoy working everywhere

On a Husqvarna Rider you'll reach places you never thought possible. Mow the lawn in narrow spaces, on slopes and across all types of terrain. With many different mowing options and a wide range of attachments for everything from mowing to snow throwing, your Rider will take you to a new level of performance.

ZERO-TURN MOWERS

A faster cut in every spot

On a Husqvarna zero-turn mower you get done quickly and efficiently. A zero turning radius means no grass is left uncut when you reach the end of a mowing row and make a 180° turn to start the next row. The comfortable operator functions allow you to focus fully on enjoying your work while achieving great cutting results.

GARDEN TRACTORS

First-class mowing on every lawn

With one of our garden tractors you'll achieve first-class results using the cutting method best suited to your lawn. For quick and effective cutting, choose a side-ejecting tractor. To collect clippings and achieve tidy results, a collector model is a good choice.

Efficient machines with flexible attachments

Husqvarna's ride-on mowers are efficient machines that are versatile to the core. Choose from a wide range of attachments for all-round, all-year-round use: rollers, trailers, moss rakes, aerators, snow blades, and more. One machine – endless possibilities.

Make the cutting experience better

At Husqvarna we've been making chainsaws for more than 60 years. And we've never stopped improving our concept. Always seeking the ideal combination of maneuverability, durability and cutting capacity for just about any requirements. Here you'll find your ideal size and type of chainsaw — battery- or petrol-powered. Making your cutting experience better, no matter where you're going.

What you always get in a Husqvarna chainsaw:

1 Reliable design

Efficient chainsaw work is not just synonymous with power. A durable construction is equally important when we design our saws, as it has always been a foundation for the trust our users have in our brand.

2 Optimal performance

For certain fuel-powered chainsaws, AutoTune™ automatically adjusts the engine for optimal operation based on temperature, fuel type, altitude, etc. The battery chainsaws all feature efficient motors with an impressive power-to-weight ratio.

3 Easy starting

For both our petrol- and battery-powered chainsaws, quick, easy starts are imperative. So, we've made sure to develop technology to meet these demands. You get started with a push of a button or an easy pull of a cord — as easy as it should be.

4 Effortless efficiency

Whatever type and size of Husqvarna chainsaw you choose, you'll always get a saw that's designed to make your cutting experience as effortless as possible. That's the essence of our professional heritage.

FARM AND COUNTRY

Larger saws to fit your bigger jobs

Our range of larger chainsaws includes several models developed for all-round use. This type of saw is appreciated among farmers and landowners who use the saw for various jobs and sometimes need to fell a tree.

HOME AND GARDEN

Smaller saws are great for pruning

A smaller chainsaw is easier to handle and the best choice if you mostly use it to prune smaller trees and coarser shrubs in the garden around your house. This size of saw is also very suitable for cutting firewood for domestic use.

CHAINSAW ACADEMY

Learn about safe and efficient chainsaw work

Welcome to Husqvarna Chainsaw Academy – our online source about how to work correctly, conveniently and efficiently at all times. You'll find everything from guides about choosing the right chainsaw, planning the felling and making the directional notch to limbing and crosscutting. Includes tips on what to wear, and useful tools and accessories. Go to chainsawacademy.husqvarna.com

Stay protected

Our range of protective clothes, boots and gloves – made from high-quality materials – are lightweight, comfortable and packed with smart innovations. Each job comes with different requirements, so our range of protective clothing has been developed for a wide range of tasks and situations.

ALL PROTECTIVE EQUIPMENT

Explore the entire range and find what suits your job at husqvarna.com/PPE

Designed by Husqvarna for your Husqvarna

For even more rewarding chainsaw work, treat your saw and yourself with the very best accessories. We've used our long experience in forestry to develop a range of accessories adapted to make your saw even better. Everything from our sharp, pre-stretched X-CUT™ chains and durable X-FORCE™ guide bars, as well as filing kits, felling aids and wedges, to our own fuel and oil options, are designed for your Husqvarna.

X-CUT

LONGER AND BETTER CUTTING PERFORMANCE WITH X-CUT™

The X-CUT™ chain is pre-stretched at the factory so you can work longer before re-tensioning is needed. The risk of damaging the cutting system with a slack chain is also decreased.

WE'VE GOT YOU COVERED

See the entire range of accessories, oils and lubricants at husqvarna.com/ChainsawParts

HUSQVARNA X-PRECISION™ SP21G

SP21G is a semi-chisel .325" mini 1.1 mm chain with low kickback, especially developed to increase the cutting speed and efficiency for battery chainsaws. The chain is energy efficient, and the optimised geometry delivers a consistently smooth cut. Fits the X-PRECISION™ bars.

HUSQVARNA X-FORCE™ BARS

X-FORCE™ is Husqvarna's answer for finding the perfect guide bar that is light yet robust enough to withstand harsh working conditions over a long period of time. Developed together with Husqvarna X-CUT™ chains, specially optimised for Husqvarna chainsaws.

HUSQVARNA X-PRECISION™ BARS

The X-PRECISION™ bars are designed specifically for use with the X-PRECISION™ chains. The optimised overall geometry and small nose radius provide efficient cutting with precise control, excellent bore cutting properties and reduced risk of kickback.

The X-CUT™ chain delivers outstanding sharpness and – even more importantly – sharpness that lasts considerably longer before filing is needed

X-CUT™ is made for making faster cuts, and it's ready to be used straight out of the box. The smooth cutting reduces the feed force needed, making the work easier on your body.

Thanks to the intuitive golden tie strap function, you easily locate the starting point, making filing the chain easier

HUSQVARNA X-CUT™ S93G

This semi-chisel 3/8" mini 1.3 mm S93G chain is developed to fit smaller rear- and top-handle saws. Optimised geometry and grinding provides high cutting speed as well as low kick back. High efficiency balanced against the available power from the chainsaw will enable a smooth and precise cut.

HUSQVARNA X-CUT™ SP33G

Semi-chisel Pixel .325" 1.3 mm chain with low kick back and low stretch. The narrow kerf equals impressive cutting efficiency. Developed for professional use on mid-size chainsaws, up to 55 cc. Original equipment on most Husqvarna 550 XP® chainsaws.

HUSQVARNA X-CUT™ S35G

Semi-chisel .325" 1.5 mm chainsaw chain developed for everyday professional use on 50–60 cc saws. A tough and reliable chain with a robust, pre-stretched standard chassis. Offers long-lasting sharpness, outstanding durability with low stretch and high cutting efficiency.

Blower

- Efficient clearing of leaves and debris
- Lightweight and easy to manoeuvre

Pole saw

- Optimal performance for garden pruning
- Precise cutting

Hedge trimmer

- Efficient dual action blades
- Customisable cutting position

Extension shaft

- 80 cm increased reach

DB110 FLXi, 970 70 39-01, blower	Price incl. VAT	£89.99
DP110 FLXi, 970 70 38-01, pole saw	Price incl. VAT	£139.99
DH110 FLXi, 970 70 42-01, hedge trimmer	Price incl. VAT	£139.99
DE110 FLXi, 970 70 40-01, extension shaft	Price incl. VAT	£39.99

TRIMMER HEAD

- For light grass cutting
- Trimmer guard
- T35 Tap'n Go trimmer head
- Shaft diameter 24 mm

TA 850/24, 537 35 35-03, fits 525iLK, 535LK, 525LK, 325iLK and 129LK	Price incl. VAT	£138.99
--	-----------------	----------------

BRUSHCUTTER

- For tougher clearing of thick, high grass
- Combination guard
- Harness included
- Multi 255-4 grassknife
- Shaft diameter 24 mm

BCA 850/24, 967 18 59-02, fits 525iLK, 535LK, 525LK, 325iLK and 129LK	Price incl. VAT	£138.99
---	-----------------	----------------

HEDGE TRIMMERS

- Hedge trimmer attachments
- HA 860 with extended reach to trim high or very low down
- Cutting deck 55 cm
- Tube length 11 or 85 cm
- Shaft diameter 24 mm

HA 860, 596 31 66-03, fits 535FBX, 525iLK, 535LK, 525LK, 325iLK, 129LK and 122LK	Price incl. VAT	£449.00
HA 200, 596 31 65-03, fits 535LK, 525LK, 129LK and 122LK	Price incl. VAT	£439.00

BRISTLE BRUSH

- Sturdy brush that removes dirt from paths, driveways and even in deep grooves
- Width 60 cm
- Shaft diameter 24 mm
- Guard included

BR 600, 967 29 67-01, fits 525iLK, 525LK, 325iLK, 129LK and 122LK	Price incl. VAT	£499.00
---	-----------------	----------------

SWEEPER

- High-capacity rubber broom that cleans sand and gravel from paths, driveways and lawns.
- Width 60 cm
- Shaft diameter 24 mm
- Guard included

PRESSURE WASHERS

More cleaning with less water

Nature gives us everything we need – like water, which comes in handy when working around the house and garden. With our innovative pressure washers, you'll discover that water's washing performance is hard to beat. Fresh water should always be used sparingly, and Husqvarna's pressure washers use about 80 % less water to get the job done when compared to a regular hose.

PRESSURE WASHERS

CONVENIENT

HUSQVARNA PW 125

□ Best option — = Not recommended. N/A = Values were not available at time of printing. ¹ Full capacity only provided by BLi200X, BLi300, 40-B330X or 40-B220X. ² Equipped with trimmer attachment ³ Requires BLi backpack batteries ⁴ Requires backpack battery / battery belt FLEXI. ⁵ Requires adapter plate and battery adapter for use with backpack battery. The runtimes are up-to times and correspond to work time using save™, actual work, basic maintenance and movement/climbing needed for generic operations. Given guidelines are indicative only and may not always be repeatable from one setting to another. Required battery temperature for charging: min. 5 °C max. 50 °C.

Services by Husqvarna

Beyond easy ownership. Our services provide you with truly trouble-free use of our products. Options like extended warranty, service contracts and leasing are included to make using your Husqvarna product more enjoyable.

HUSQVARNA WARRANTY PLUS

Extend your coverage

With Husqvarna Warranty Plus you secure trouble-free performance of your Husqvarna for up to 5 years. The offering is available for a wide range of products and can be added up to 30 days after your purchase.

HUSQVARNA SERVICE PLUS

Enter the world of convenience

Husqvarna Service Plus is a 3 or 5-year all-inclusive service package for your robotic mower, meaning convenience and trouble-free ownership for you. We take care of maintenance, repairs and off-season storage* at a fixed monthly cost.

HUSQVARNA LEASE PLUS

Lease your perfect lawn

With Husqvarna Lease Plus you can have an Automower® robotic mower, rider, Aspire bundle, or a select range of battery handheld products at a fixed monthly cost for a 3 or 5-year period. Afterwards, hand it back in to your dealer and upgrade to a new model and leasing offer. Installation, off-season storage*, insurance and maintenance are included for Automower® robotic mowers.
