NEW BATTERIES, CHARGERS AND CABINETS

**Expanding our battery
eco-system to new dimensions**

A complete battery system – a world of possibilities

At Husqvarna, we've been in the forefront of the battery revolution since the introduction of our first battery products in 1995. Since then, we've been driving the shift with flexible, cutting-edge products and solutions. Today, our offering goes beyond just products, and instead consists of a complete and scalable system. An extensive system that accommodates the needs of discerning professionals on their way to a hassle-free, battery-powered future.

A world of benefits

Buying in to the Husqvarna battery system comes with a wide range of benefits for your operators, your operation – and society at large. Benefits such as low noise and vibration levels and zero CO₂ emissions during use* are easy to spot, while the low running costs and the system's scalability will be a long-term benefit to your business.

A complete eco-system

From our professional state-of-the-art Husqvarna BLi-X 36V battery products, chargers, and batteries, to charging cabinets, smart accessories, fleet management and beneficial services – Husqvarna's complete battery solution covers all the bases. Mobile charging possibilities will add productivity to your operation, whereas the system's overall flexibility provides scalability. This allows you to make the switch in a way that best suits your business. And we won't change the layout of neither batteries nor machines, the perfect fit is here to stay.

Purpose-designed products

Our battery system – our range of machines, our E-TORQ™ motors, and our batteries – are all developed for dedicated applications and long hours of professional use. This means durable and reliable, perfectly balanced products with encapsulated motors, IPX classified for all-weather performance. Additionally, countless hours have gone into achieving user-centric, ergonomic design, enabling long days at work without fatigue or unnecessary strain.

Never run out of power

For stationary set-ups or for the mobile professional on the go – Husqvarna provides the charging solution for different needs. Fast chargers, large-scale charging rails or in-field and mobile charging solutions, will make sure you never run out of power. The ActiveCool feature enables active battery cooling to keep charging times short.

Keep track of your equipment

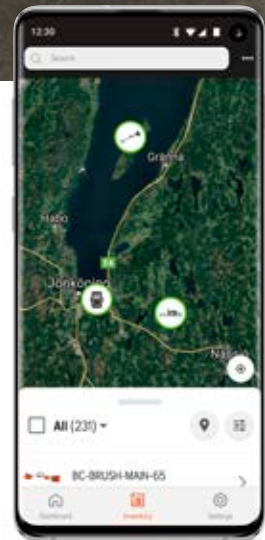

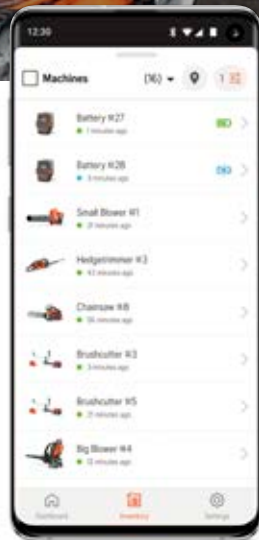

Husqvarna Fleet Services™ is our professional cloud services platform for connected machines and equipment. You'll get an overview of your entire fleet – including location and usage status.

Get a head start without upfront investment

Make a faster shift towards a battery-powered workday with Husqvarna Lease Plus. With this beneficial leasing option, you get the products, chargers, batteries, and accessories you need without any upfront investments. You can enjoy peace of mind, knowing that you have access to insurance, repairs and yearly maintenance – all covered by a single contract.

The easy way to keep track of and optimise your fleet

Managing a large, mixed and widespread fleet of machines and other equipment is a challenging task for any landscaping business or municipality. With Husqvarna Fleet Services™ you can easily monitor, collect and analyse the data from each machine and battery on geographic position, running hours, and service history. This helps you ensure that your fleet is optimally composed, in perfect technical condition and efficiently utilised.

CONNECTED BATTERIES

Keep control of your batteries' status

Our connected batteries with built-in Bluetooth® wireless technology keep you in control of their charging level, usage stats and health condition. A quick check in Husqvarna Fleet Services™ lets you know if your batteries are charged, available and ready for your workday. And you know well in advance if a battery will last another season or need to be replaced.

INVENTORY CONTROL

All your equipment in one place

Don't rely on paperwork. With Husqvarna Fleet Services™, you just check the inventory list, and you know exactly how many machines and batteries you have of each type. Give them unique names, and you can easily tell which is which.

MACHINE STATISTICS

See when and how much you've used it

Since the system tracks the engine hours and usage of every machine, you can easily get an overview with Husqvarna Fleet Services™. You can produce a workday log with detailed information on how many hours each machine has been used every day.

LOCATION

Track them all on the map

Always keep track of where you last had your equipment. As soon as a connected product is within Bluetooth® distance from the app, its location is registered. So whenever you're looking for a machine or battery, you just check the map to find out if it's in storage, away for service or out working.

BLUETOOTH® WIRELESS TECHNOLOGY

Quick and easy data collection

With the Husqvarna HCM 500 Connectivity gateway installed in your Husqvarna Fleet Services™ system, you secure a reliable fleet data collection and transfer to the cloud. Easy plug-and-play installation in your workshop, storage room, vehicle or trailer.

Connect easily with built-in connectivity

Many of Husqvarna's products have integrated connectivity thanks to built-in Bluetooth® wireless technology. This makes connecting them to Husqvarna Fleet Services™ even easier. You get all the benefits from the fleet management system – operational insights and operation log – directly from the product and you can also update firmware directly from your app. Built-in Bluetooth® wireless technology also means that your product is future-proof and ready for any product updates.

Or attach a sensor to any piece of equipment

Another way to connect a piece of equipment, is installing a small sensor. You can add sensors to all sorts of equipment, even those from other manufacturers.

CONNECT YOUR FLEET
– EXPERIENCE THE
IMPROVEMENT TODAY

It's easy to get started!

Just create an account, connect your equipment and users to Husqvarna Fleet Services™ and discover how it can improve your business.

Flexibility and power you will appreciate

Tough but fair demands from our customers make that our battery products are carefully designed from the inside and out – down to the smallest detail – to give you smooth, continuous performance. Here are the most significant features that will help you bring about a better workday.

HUSQVARNA ELECTRICAL E-TORQ™ MOTORS

Tough, strong and completely maintenance-free

The Husqvarna E-TORQ™ motors are developed and produced by Husqvarna. The brushless motors deliver high, constant torque from low rpms, enough for the most demanding tasks. The design minimises the number of moving parts and the encapsulated motors are built to withstand tough, prolonged professional use. Thanks to their smart construction, they are maintenance-free and designed to last the entire product lifetime.

DEVELOPED IN-HOUSE

Perfect fit, perfect performance

Husqvarna's lithium ion batteries are all developed and tested by Husqvarna. We've paid great attention to ensure power and durability, year after year. Constant high performance, long lifetime and short charging time are guaranteed. And thanks to Husqvarna's thought-out design where all vital parts are encapsulated, wet and dusty environments are no longer an issue.

ACTIVECOOL

Battery cooling for better performance

The ActiveCool feature enables active battery cooling during charging and discharging. This helps keep charging times short and productivity high, even under demanding conditions.

OUR BATTERIES AND BATTERY PRODUCTS FULFILL THE IPX4 CLASSIFICATION

USER-CENTRIC DESIGN

Perfectly balanced for effective work

Our user-centric design concept aims to minimise fatigue and strain on your body, helping you work more efficiently and ergonomically. All handheld Husqvarna machines are designed to be lightweight and well-balanced for a comfortable and effective workday.

WEATHERPROOF DESIGN

Keep on working in any weather

Come rain, wind or sunshine... Thanks to a well-thought and rigorously tested design, our battery machines and batteries fulfill the IPX4 classification for water resistance, making them long-term reliable working tools, especially in wet conditions.

SMART CHARGING

Be up and running in no time

All our batteries can be charged quickly thanks to the smart charging algorithm. Charging to 80% takes just around 30 minutes for most batteries with our fast chargers. So even if you run out of battery, you don't have to wait long to be up and running again.

USER INTERFACE

Intuitive and convenient operation

You start, stop and control it with the push of easily accessible, robust buttons on the intuitive keypad. A LED light indicates when the machine is on, and a timer automatically switches it off after a period of inactivity. All batteries also have LED status indicators, while the backpack batteries have their own on/off switches and come with adjustable harnesses for increased comfort.

BLOWER RANGE

Stay ahead, leave nothing behind

Top features and benefits

1

Boost effect

When extra power is needed, maximised blowing speed is available through the easily accessible boost mode.

2

Excellent ergonomics

Thanks to exceptional body balance, comfortably shaped handle and easy access to intuitive keypad, comfort and easy handling is guaranteed.

3

Low noise levels

The low noise levels make longer working hours possible. It also enables you to work in noise sensitive and restricted areas.

AN EASIER
WAY TO KEEP
TRACK OF YOUR
EQUIPMENT

 **HUSQVARNA**
FLEET SERVICES™

NEW

BATTERY BLOWER

530iB

 **18 N**
 **16.3 m³/min**
 **2.7 kg**

High-performance handheld battery blower. With high blowing force, low noise levels and zero CO₂ emissions during use**. Extend your working day also in public, noise sensitive areas. Thanks to the cordless, well-balanced design and low weight, you can move around freely.

- Brushless motor
- Intuitive keypad
- Fully variable speed mode
- Continuous boost mode
- Cruise control
- Weatherproof (IPX4)
- Integrated connectivity

BATTERY BLOWER

550iBTX

 **21 N**
 **15.6 m³/min**
 **6.3 kg**

Powerful and ergonomic backpack blower with impressive blow force (21 N). Its low vibration and noise levels allow you to work in public settings and since the blower is weatherproof, you can increase both flexibility and productivity.

- Brushless motor
- Intuitive keypad
- Boost mode
- Cruise control
- Weatherproof (IPX4)
- Ergonomic harness
- Integrated connectivity

BATTERY BLOWER ACCESSORIES

SILENCER NOZZLE

Nozzle with built-in sound absorber, making work even more pleasant for user and surroundings. Fits all battery blowers.

589 81 17-01

FLAT NOZZLE

Extended reach. Fits all battery blowers.

579 79 75-01

HANDLE BAR

Enables you to use both hands for manoeuvring the blowers for a more convenient and less tiring working position. Can be used with or without the hip-pad for both left- and right-hand use.

544 40 00-04, 550iBTX

You're now welcome inside

One huge benefit of battery-powered blowers is the possibility to use them indoors. Since they're fumeless and quiet, you can take on jobs cleaning up sports stadiums, malls, concert venues or any other place where you can't use a petrol-powered blower.

No need to compromise

Our battery-powered blowers deliver an unbeatable level of comfort with their low vibration and noise levels. Moreover, they also pack an impressive performance thanks to the responsive electric motor and our advanced fan design. The Boost mode provides extra airflow when you need it.

Impressively lightweight. Surprisingly powerful.

Top features and benefits

1 Outstanding capacity

The unique high-torque motor – developed by Husqvarna – combined with the impressive cutting diameter, provides a power output and capacity equivalent to petrol powered brushcutters.

2 Low vibrations

The 535iRXT, 535iRX and 525iRXT brushcutters have effective anti-vibration dampeners that absorb vibration, which spare your arms and hands.

3 Weatherproof

The machines fulfil IPX4 classification for water resistance. This makes them reliable, long-lasting tools that you can use year-round in all weather conditions.

BATTERY BRUSHCUTTER

535iRXT

45 cm
4.9 kg

Robust, high-performance brushcutter with a power output equivalent to a 35cc petrol brushcutter. Lightweight and well-balanced for full-time use. Features ErgoFeed® trimmer head and provides excellent comfort thanks to the Balance XB™ harness. Includes trimmer head and grass blade.

- Brushless E-TORQ™ motor
- 3-speed mode
- Intuitive keypad with battery status
- ErgoFeed® trimmer head
- LowVib®
- Integrated connectivity
- Weatherproof (IPX4)

BATTERY BRUSHCUTTER

535iRX

45 cm
4.9 kg

Robust, high-performance brushcutter with a power output equivalent to a 35cc petrol brushcutter. Lightweight and well-balanced for full-time use. Includes trimmer head and grass blade.

- Brushless E-TORQ™ motor
- 3-speed mode
- Intuitive keypad with battery status
- LowVib®
- Weatherproof (IPX4)

BATTERY BRUSHCUTTER

535iFR

45 cm
4.5 kg

Robust and versatile, high-performance brushcutter with a power output equivalent to a 35cc petrol brushcutter. Lightweight and well-balanced for frequent use on grass, brush and light forestry clearing. Includes trimmer head, grass blade and saw blade.

- Brushless E-TORQ™ motor
- 3-speed mode
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity

BATTERY BRUSHCUTTER

525iRXT

46 cm
4.2 kg

Efficient brushcutter with a power output equivalent to a 25cc brushcutter. Lightweight and well balanced for full-time use, with robust and durable design. Excellent comfort thanks to the high handle tower with anti-vibration and ErgoFeed® trimmer head. Trimmer head and grass blade included.

- Brushless E-TORQ™ motor
- 3-speed mode
- Intuitive keypad with battery status
- ErgoFeed® trimmer head
- LowVib®
- Integrated connectivity
- Weatherproof (IPX4)

BATTERY BRUSHCUTTER

520iRX

40 cm
3.8 kg

A lightweight brushcutter with high performance. Perfect for gardeners, landscapers and contractors. Features excellent ergonomics and balance, 2-way rotation trimmer head and long-lasting brushless motor.

- Brushless E-TORQ™ motor
- Intuitive keypad
- Weatherproof (IPX4)
- savE™ economy mode
- Two-way rotation

Experience a quiet and comfortable workday

Thanks to their quiet electric E-TORQ™-motors, lightweight designs and fumeless operation together with our Balance XB™ harness, our battery brushcutters contribute to a much more comfortable and less stressful day.

HARNES BALANCE XB™

Delivers great relief to your upper body and arms thanks to outstanding weight distribution in three ways: between the shoulders, between the chest and the back, and from the shoulders to the hips. Equipped with a holder for a battery carrier so that you can easily bring an extra battery.

597 46 93-01

HARNES BALANCE 35B

Distributes load optimally between shoulders, chest and back. Equipped with plain hip pad with travelling connection allowing the machine to be manoeuvred with minimal effort.

537 27 57-05

BATTERY COMBI MACHINE

525iLK

- Bluetooth
- 42 cm
- 3.3 kg

Loop-handle combi machine, power-equivalent to a 25cc petrol machine. Lightweight and well balanced for full-time use, yet with robust and durable design.

- Brushless E-TORQ™ motor
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 3-speed mode
- Click-on attachments – see our entire range of attachments at husqvarna.com/GrassTrimmers

BATTERY TRIMMER

525iLXT

- Bluetooth
- 46 cm
- 3.1 kg

Loop-handle grass trimmer, power-equivalent to a 25cc petrol trimmer. Lightweight and well balanced for full-time use, yet with robust and durable design. Excellent comfort thanks to the ErgoFeed® trimmer head.

- Brushless E-TORQ™ motor
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 3-speed mode
- ErgoFeed® trimmer head

BATTERY TRIMMER

520iLX

- 40 cm
- 3.0 kg

A lightweight loop-handle trimmer with high performance. Perfect for gardeners, landscapers and contractors. Features excellent ergonomics and balance, 2-way rotation trimmer head and long-lasting brushless motor.

- Brushless E-TORQ™ motor
- Intuitive keypad
- Weatherproof (IPX4)
- savE™ economy mode
- Two-way rotation

Top features and benefits

- 1 ErgoFeed® function**

Feeds the trimmer line with a simple push of a button located on the right handle and reduces the risk of unintentional feed. So, you'll spend less time and money on buying and loading new trimmer line.
- 2 Dual direction**

The two-way rotation trimmer head allows you to switch direction of the rotation so you can avoid spraying grass onto walkways and flower beds as well as avoid other objects you want to protect from gravel and dirt
- 3 Efficient brushless motor**

Since our brushless motor is 25 % more efficient than a standard motor, you'll get a high, consistent torque – even when you cut high, thick or wet grass.
- 4 Intuitive keypad**

You start and stop the machine by pushing a button. A LED light shows that it's on. The machine automatically switches off after a period of inactivity.

CLEARING SAW

Flexible comfort

BATTERY FORESTRY CLEARING SAW

530iPX

-  3/8"
-  25–30 cm
-  3.1 kg

Clearing saw that also can be used as a pole saw (the cutting head can be angled 90 degrees) with a power output equivalent of a 30cc petrol machine. Its low weight, excellent ergonomics and quiet operation make it comfortable to use in any location at any time of day.

- Brushless E-TORQ™ motor
- Intuitive keypad
- Weatherproof (IPX4)
- savE™ economy mode
- Adjustable cutting head

Forestry clearing high and low

Husqvarna 530iPX is an advanced, battery-powered forestry clearing saw that you also can use as a pole saw. This design has proved to be highly efficient and useful when clearing in dense vegetation. Despite its low weight, it delivers impressive performance, so whether you're clearing, thinning or pruning trees, this is a superb tool.

Turn demanding trimming into easy work

Top features and benefits

- 1 Impressive performance**
The reliable and well-balanced motor is optimised for hedge trimmer use and provides impressive performance with full torque from zero to full speed.
- 2 High cutting speed**
The hedge trimmers deliver up to 4400 cuts per minute, which gives you a great cutting result every time.
- 3 Ergonomic design**
Slimmed, lightweight design and easily accessible controls combined with a flexible battery system, allow for comfortable work in all situations. Our anti-vibration systems provide efficient dampening to minimise vibration in the handles.

BATTERY HEDGE TRIMMER 522iHDR60

- Bluetooth
- 60 cm
- 3200 cuts/min
- 4.0 kg

Lightweight and well-balanced hedge trimmer with high cutting capacity. Power equivalent to a petrol machine. Optimised for trimming dense overgrown hedges, featuring a high-torque gear and double-sided cutter bar with durable coarse-cut knives. Can be used with both integrated and external batteries.

- Brushless motor
- 3-speed mode
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- Coarse-cut configuration
- Multi-position rear handle

BATTERY HEDGE TRIMMER 522iHD75

- Bluetooth
- 75 cm
- 4400 cuts/min
- 3.9 kg

Well-balanced, lightweight hedge trimmer with high cutting capacity. Power equivalent to a petrol machine. Optimised for frequent trimming, featuring high-speed gear and double-sided cutter bar with sharp, trim-cut knives grinded on three sides. Can be used with both integrated and external batteries.

- Brushless motor
- 3-speed mode
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- Trim-cut configuration
- Multi-position rear handle

BATTERY HEDGE TRIMMER 522iHD60

- Bluetooth
- 60 cm
- 4400 cuts/min
- 3.6 kg

Well-balanced, lightweight hedge trimmer with high cutting capacity. Power equivalent to a petrol machine. Optimised for frequent trimming, featuring high-speed gear and double-sided cutter bar with sharp, trim-cut knives grinded on three sides. Can be used with both integrated and external batteries.

- Brushless motor
- 3-speed mode
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- Trim-cut configuration
- Multi-position rear handle

BATTERY POLE HEDGE TRIMMER

520iHT4

55 cm
4000 cuts/min
5.5 kg

Pole hedge trimmer with a unique design and up to 4.5 m reach. Cut wide, high and low hedges efficiently thanks to the adjustable cutter bar angle. It combines top performance with low weight, low vibration levels and quiet operation, so you can use it in noise-sensitive environments.

- Brushless motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- Adjustable cutter bar
- Trim-cut configuration
- Rear impact guard
- Telescopic shaft

BATTERY POLE HEDGE TRIMMER

520iHE3

55 cm
4000 cuts/min
4.15 kg

Pole hedge trimmer with a unique design and up to 3.5 m reach. Cut wide, high and low hedges comfortably thanks to the adjustable cutter bar angle. It combines top performance with low weight, low vibration levels and extremely quiet operation, so you can use it in noise-sensitive environments.

- Brushless motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- Adjustable cutter bar
- Trim-cut configuration
- Rear impact guard

BATTERY POLE HEDGE TRIMMER

525iHF3

65 cm
4200 cuts/min
4.6 kg

Pole hedge trimmer, equivalent to a 25cc petrol machine. With up to 3 m reach and fixed cutter bar you can cut wide and long hedges comfortably and accurately, also when working in noise sensitive environments.

- Brushless E-TORQ™ motor
- 3-speed mode
- Intuitive keypad
- Weatherproof (IPX4)
- Integrated connectivity
- Trim-cut configuration

A power ascender designed for tree climbers

Husqvarna X Skylotec power ascender is a compact, high-capacity ascender powered by the Husqvarna BLi-X 36V battery system. The power ascender allows tree care professionals to effortlessly ascend into the canopy with a speed of up to 24 m/min, reaching the work area quickly and with ease in all weather conditions.

BATTERY POLE SAWS

530iP4

- 1/4"
- 25-30 cm
- 250 cm
- 3.4 kg

Pole saw with a performance power output equivalent of a 30cc petrol machine. Its low weight, excellent ergonomics and quiet operation make it comfortable to use in any location at any time of day.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- Slimmed designed cutting head

BATTERY POLE SAWS

530iP5

- 1/4"
- 25-30 cm
- 400 cm
- 5.0 kg

Pole saw with a telescopic shaft that results in our longest reach, with a power output equivalent of a 30cc petrol machine. Its low weight, excellent ergonomics and quiet operation make it comfortable to use in any location at any time of day.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- Telescopic shaft
- Slimmed designed cutting head

BATTERY TREE-CARE CHAINSAW

T542i XP®

.325" mini
 30–35 cm
 2.9 kg

The world's first top-handle battery chainsaw equipped with a centrifugal clutch, delivering outstanding cutting capacity with a kick-start energy experience. This powerful battery chainsaw is comparable to a 40cc petrol saw. A highly efficient tool for tree climbers who want all the benefits of cordless electric power for any challenges up in the tree. For full performance we recommend the 40-B220X or 40-B330X battery.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 40cc class cutting performance
- Oil sensor
- Heated handles (optional)

BATTERY TREE-CARE CHAINSAW

T540i XP®

.325" mini, 1/4" mini
 30–40 cm
 2.5 kg

A very powerful top-handle chainsaw with impressive power output – on par with a professional 40cc petrol chainsaw. Ideal for tree care and climbing work thanks to excellent ergonomics and low weight. Features advanced user interface with battery status and start/stop, excellent ergonomics and provides user-friendly balance and manoeuvrability. For full performance we recommend the 40-B220X or 40-B330X battery.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 40cc class cutting performance
- Oil sensor
- Heated handles (optional)

BATTERY TREE-CARE CHAINSAW

T535i XP®

.325" mini, 1/4" mini
 25–35 cm
 2.4 kg

A very lightweight and powerful, top-handle chainsaw. Ideal for crown reduction and lighter tree removals. Features excellent ergonomics, high chain speed and all the comfort of battery power, with a power output equivalent of a 35cc petrol chainsaw.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- 35cc class cutting performance

BATTERY CHAINSAW

542i XP®

.325" mini, .325"
 30–40 cm
 3.1 kg

The world's first battery chainsaw equipped with a centrifugal clutch, delivering outstanding cutting capacity with a kick-start energy experience. This powerful battery chainsaw is comparable to a 40cc petrol saw. A highly efficient tool for tree care jobs and arborist ground crews. Provides the control and response of petrol power combined with all battery benefits. For full performance we recommend the 40-B220X or 40-B330X battery.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 40cc class cutting performance
- Oil sensor
- Heated handles (optional)

BATTERY CHAINSAW

540i XP®

.325" mini, 3/8" mini, 1/4"
 30–40 cm
 2.9 kg

A rear-handle chainsaw with impressive power output – on par with a professional 40cc petrol chainsaw. Ideal for tree removal and thinning as well as for arborist groundcrew work. Features advanced user interface with battery status and start/stop, excellent ergonomics and provides user-friendly balance and manoeuvrability. For full performance we recommend the 40-B220X or 40-B330X battery.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad with battery status
- Weatherproof (IPX4)
- Integrated connectivity
- 40cc class cutting performance
- Oil sensor
- Heated handles (optional)

BATTERY CHAINSAW

535i XP®

.325" mini, 1/4" mini
 25–35 cm
 2.6 kg

A lightweight and powerful chainsaw. Ideal for crown reduction and lighter tree removals where you need the extra reach a rear-handle chainsaw provides. Features excellent ergonomics, high chain speed and all the comfort of battery power without compromising on performance.

- Brushless E-TORQ™ motor
- savE™
- Intuitive keypad
- Weatherproof (IPX4)
- 35cc class cutting performance

Makes lawns and businesses flourish

Top features and benefits

1

Lush, healthy lawns

Choose between collection, rear discharge – or why not BioClip® (mulching) and you'll achieve healthier lawns without having to use fertilizer.

2

Less maintenance

The lawn mowers are virtually maintenance-free. The battery and all components are protected to withstand tough use, which will save you a lot of time and money on service.

3

Extra-long runtime

Double battery slots for Husqvarna BLi-X 36V batteries and backpack battery attachment option enable extended runtime and uninterrupted, efficient work.

4

Extra cutting force where you need it

The PowerBoost™ function increases the rpm of the cutting blades automatically when working in tough conditions, such as when mowing tall grass. This gives an experience of "extra horsepower" when it's most needed.

High-capacity batteries and chargers, allowing for high output and fast charging

By introducing our most powerful and advanced 36V batteries and chargers ever, we're pushing the boundaries for professional battery power in demanding professional tasks. The ActiveCool system with double cooling fans enables quick start of the charging process and prolongs the life of your batteries.

BACKPACK BATTERY KIT WITH HARNESS BLi950X

⚡ 31.1 Ah/1120 Wh
⚖ 9.4 kg with harness
967 09 32-01

High-capacity 31.1 Ah backpack battery with long-lasting capacity and top-class performance, allowing you to work longer with higher efficiency. Ergonomically designed harness and battery adapter included.

- ActiveCool
- Weatherproof
- Detachable support foot

BACKPACK BATTERY WITHOUT HARNESS BLi950X

⚡ 31.1 Ah/1120 Wh
⚖ 7 kg
579 82 22-01

This high-capacity 31.1 Ah battery can be fitted as power source on top of our 500 series battery lawn mowers. You can mow longer without having to carry the battery on your back. The mounting bracket is sold separately.

- ActiveCool
- Weatherproof

NEW

BATTERY 40-B540X

⚡ 15Ah/540 Wh
⚖ 2.9 kg
970 72 13-01

Integrated long-life Husqvarna BLi-X 36V battery with outstanding performance and maximum runtime for the most power-demanding applications. Designed for good grip and high visibility. Spare part kit available.

- ActiveCool
- Integrated connectivity
- Weatherproof (IPX4)
- Temperature warning LED

NEW

BATTERY 40-B330X

⚡ 9 Ah/324 Wh
⚖ 1.9 kg
970 60 77-01

Integrated long-life battery with maximum power and very high capacity for very power-demanding applications. Designed for good grip and high visibility. Spare part kit available.

- ActiveCool
- Integrated connectivity
- Weatherproof (IPX4)
- Temperature warning LED

NEW

BATTERY 40-B220X

⚡ 6 Ah/216 Wh
⚖ 1.4 kg
970 60 78-01

Integrated long-life battery with low weight and high capacity for power-demanding applications. Designed for good grip and high visibility. Spare part kit available.

- ActiveCool
- Integrated connectivity
- Weatherproof (IPX4)
- Temperature warning LED

NEW

BATTERY 40-B140X

⚡ 4 Ah/144 Wh
⚖ 1.2 kg
970 60 79-01

Integrated long-life battery with low weight and optimised capacity for trimmers, hedge trimmers, and smaller chainsaws. Designed for good grip and high visibility. Spare part kit available.

- ActiveCool
- Integrated connectivity
- Weatherproof (IPX4)
- Temperature warning LED

NEW

BATTERY CHARGER

40-C750X

970 71 72-01

750W high-power charger for fast charging of high-capacity batteries. Built-in duo-fan with separate air streams provide effective cooling of the battery and the charger's electronics. This ensures short cooling downtime and maximum charging efficiency.

- ActiveCool
- Intuitive LED indicator

NEW

BATTERY CHARGER

40-C500X

970 71 71-01

500W high-power charger with built-in duo-fan. The separate air streams provide effective cooling of the battery and the charger's electronics to ensure short cooling downtime and maximum charging efficiency.

- ActiveCool
- Intuitive LED indicator

NEW

BATTERY CHARGER WALL MOUNT

40-C

546 48 76-01

Robust wall mounting bracket for convenient and secure mounting of your 40-C750X/40-C500X charger to the wall.

BATTERY CHARGER

40-C80 Charging Rail Kit

A convenient way to charge up to 8 BLi-X 36V batteries simultaneously. The rail can be wall-mounted horizontally or vertically to save space and keep your chargers and cables in good order. The 8-to-1 cable connection needs only one wall socket for power. This low-powered charging system is ideal for overnight charging. It has no cooling fans and doesn't create any disturbing noise. Kit includes one 40-C80 Charging Rail, accessories for assembly, and eight 40-C80 battery chargers.

970 62 19-01, rail, incl. cable and 8 units 40-C80 chargers
536 14 43 -01, rail unit only

BATTERY CHARGER

40-C1000X4

970 70 48-01

High-powered, portable multi-rack battery charger and transport box for in-and outdoor use. Smart charging of up to 4 batteries in parallel with high charging power – max. 1000W total charging power and max. 600W per battery slot. Supports ActiveCool to shorten the charging time and prolong battery life. Robust and stackable design.

- ActiveCool
- Tool compartment
- Charge status LED on outside
- Weatherproof (IPX4)
- Detachable cable
- Dedicated compartment for tracking device
- Lockable with pad lock
- Ergonomic side handles

BATTERY CHARGER

40-C80

970 48 78-01

72W single bay charger with low power demand, perfect for over-night charging. Charging LED indicator. Desktop use or easy wall mounting.

BATTERY CHARGER

QC80F

967 62 83-01

80W car charger for charging from a 12V car/truck outlet during transport.

BATTERY USB ADAPTER

40-USB150X**NEW**

970 72 25-01

Versatile and compact bi-directional USB adapter. Use it to either charge personal USB devices from your Husqvarna BLi-X 36V battery or charge your 36V battery up to 100W via the bi-directional USB-C PD slot.

The truly mobile battery charging solution

Husqvarna's mobile battery management solution for your vehicle provides organised storage, secure transport, and efficient charging of your Husqvarna BLi-X 36V batteries. You save time and effort by reducing the daily loading and unloading of your batteries. You also ensure efficient and reliable charging in optimal conditions, regardless of the ambient temperature for the best battery performance in the field every day.

Charging Hub L Van

970 75 07-xx

Large, robust mobile charging hub ready to install inside your vehicle. Brings all the batteries for your team in one place, with full charge ensured in the morning.

- Charge up to 16 Husqvarna BLi-X 36V batteries overnight
- Optimal battery temperature control with active heating and cooling
- Additional fast chargers can be added
- Can be connected to any standard wall socket
- Additional drawer for spare parts and accessories
- Space for Husqvarna battery boxes on top
- Dedicated space for mounting Husqvarna HCM 500 Connectivity gateway
- Four additional sockets on outside of the hub
- Top-mounted tool board

Charging Hub S Van

970 75 08-xx

Robust mobile charging hub ready to install inside your vehicle. Brings all the batteries for your team in one place, with full charge ensured in the morning.

- Charge up to 8 Husqvarna BLi-X 36V batteries overnight
- Optimal battery temperature control with active heating and cooling
- Additional fast chargers can be added
- Can be connected to any standard wall socket
- Additional drawer for spare parts and accessories
- Space for Husqvarna battery boxes on top
- Dedicated space for mounting Husqvarna HCM 500 Connectivity gateway
- Two additional sockets on outside of the hub

Charging Hub L Flatbed

970 74 86-xx

Large, robust and weatherproof mobile charging hub ready to install on your vehicles flatbed. Brings all the batteries for your team in one place, with full charge ensured in the morning.

- Charge up to 16 Husqvarna BLi-X batteries overnight
- Optimal battery temperature control with active heating and cooling
- For all weather use
- Lockable
- Additional fast chargers can be added
- Can be connected to any standard wall socket
- Additional space for spare parts and accessories
- Four additional sockets on outside of the hub
- Load securing rails on side

BATTERY BELT FLEXI

ADAPTER KIT

590 77 67-02

For connecting to Husqvarna products with a Husqvarna BLi-X 36V battery slot. Also, for carrying spare batteries and accessories.

BATTERY BELT FLEXI

CONNECTOR KIT

590 77 67-03

For connecting 522i hedge trimmers with dedicated adapter. Also, for carrying spare batteries and accessories. Adapter available for connecting to Husqvarna products with a Husqvarna BLi-X 36V battery slot (sold separately).

1. HARNESS FOR BATTERY BELT FLEXI

Thanks to the padded shoulder straps, the harness evens the load distribution over the shoulders when using machines in different angles.

593 83 76-01

2. ADAPTER FOR 522i HEDGE TRIMMERS

Adapter dedicated for 522i hedge trimmer, for hassle-free operation when connecting to a backpack battery or battery belt.

598 82 88-01

3. ADAPTER

Connects your handheld equipment to a backpack battery or to a battery belt FLEXI with connector kit, for a more comfortable workday.

582 78 05-01

4. ACCESSORY BAG

Convenient bag that fits your battery belt FLEXI. For storing all sorts of small tools, water bottle and other accessories.

596 25 29-01

5. BATTERY CARRIER

Attach up to three battery carriers to your battery belt FLEXI or one carrier to your Balance XB™ harness.

590 77 72-01

6. COMBI HOLSTER WITH WEDGE POCKET

Combi holster for lifting tong, or lifting hook plus a pocket for wedges.

593 83 83-02

7. FILE AND COMBI-TOOL HOLDER

Holder for one round and one flat file, plus combi-tool. The holder effectively prevents broken or lost tools.

593 83 94-01

8. SPRAY CAN HOLDER

Holster for spray can, makes sure the can is securely kept in its place.

593 83 95-01

9. CARRIER HOOK

A multi-purpose hook for carrying various tools, water cans or other equipment.

593 83 96-01

ACCESSORIES BATTERY BELT FLEXI

HIP PAD

Completes the backpack battery harness in combination with battery brushcutters and battery blowers. For a more convenient and relaxed working position.

587 83 40-01

BACKPACK BATTERY HARNESS

Ergonomically designed harness for carrying a backpack battery. It allows you to easily detach and switch batteries between team members while keeping your harness optimally adjusted for individual fit. It's also a perfect harness for the 530iPX clearing saw.

582 90 90-01

BATTERY BOX M, L, M&L

Robust and practical case for transporting and storing Husqvarna BLi-X 36V batteries. The modified material with high impact resistance and the high-quality latches provide additional protection for the batteries. Stacking and connection is done using a locking system to allow one-hand use. Three different types of inserts are also available separately.

538 68 73-01, Box M, incl. insert, fit for up to 6pcs of 40-B140X/40-B220X

546 11 39-01 Box L, incl. insert, fit for up to 6pcs of 40-B330X

546 11 40-01 Box Box M&L, incl. insert, fit for up to 3pcs of 40-B140X/40-B220X, and 3pcs of 40-B330X

BATTERY TRANSPORTATION BOX

Battery transportation box with integrated insert, provides great shock absorption and thermal insulation for both hot and cold applications. UN3480 certified for transportation of lithium-ion batteries.

538 68 74-01, incl. insert, fit for up to 4 pcs of Husqvarna BLi-X 36V batteries (excl. BLi950X and 40-B540X)

ACCESSORIES FOR BATTERY BOXES

1. MULTI-ADAPTER PLATE

Enables attaching the Husqvarna battery boxes and battery transportation box to several common case systems on the market. Compatible with battery box M, L, M&L.

970 70 03-01

2. WALL BRACKET

NEW

Specially designed bracket for securely and reliably mounting your battery boxes on the wall to free up space. Fits Husqvarna Battery Box M, L, M&L and Battery transportation box.

547 58 40-01

3. SHELF ADAPTER PLATE

NEW

Specially designed adapter plate for keeping your battery boxes securely in place on your work vehicle shelf during transport. Fits Husqvarna Battery Box M, L, M&L and Battery transportation box.

547 58 39-01

NEW

BATTERY CASE

A convenient case for carrying your batteries and other gear to work. Holds up to four Husqvarna BLi-X batteries, well-organised and protected from damage. Can also be used for tools, spare parts and consumables etc.

547 29 11-01

NEW

BATTERY CASE FOR CHAINSAW

A special version of the battery case adapted with accessories for chainsaw work. Equipped with shoulder strap, chain oil can and tool box with lid.

547 29 11-02

BATTERY BOX PLYWOOD

A sturdy, durable wooden box for convenient protection and transportation of two Husqvarna BLi-X 36V batteries and one charger. Designed for professional use. UN3480 certified for transportation of lithium-ion batteries.

529 47 51-01

1. OIL CAN

Robust 1.2 litre oil can. Equipped with an easy-to-fill oil spout that helps avoid spills. Tailor made for battery compartment.

547 29 39-01

2. TOOL BOX

Equipped with a lid and offers space for different tools or smaller spare parts needed at your workplace. Easy to insert into the battery compartment.

547 29 40-01

3. SHOULDER STRAP

The strap is padded for extra comfort and can be quickly adjusted to your height.

547 29 38-01

Cabinets approved for storage and charging of lithium-ion batteries

With 90 minutes of fire resistance from inside-out and outside-in (in accordance with EN 1363-1 and EN 14470-1) and built-in smoke detector and alarm forwarding system, Husqvarna battery charging cabinets ensure optimal conditions for storage and charging of Husqvarna BLi-X 36 V batteries. The commissioning is easy, without any additional electrical installation.

Charging Cabinet L

NEW

400 V, 970 79 02-01
230 V, 970 79 01-01

- 90-minute fire resistance (EN 1363-1 and EN 14470-1)
- Fire suppression system
- Temperature sensor
- Smoke detector
- Alarm forwarding
- Alarm differentiation
- Active ventilation
- Integrated transport base
- Ready-to-operate protective sockets built-in

Charging Cabinet M

NEW

400 V, 970 79 04-01
230 V, 970 79 03-01

- 90-minute fire resistance (EN 1363-1 and EN 14470-1)
- Smoke detector
- Alarm forwarding
- Integrated transport base
- Ready-to-operate protective sockets built-in

Charging Cabinet S

NEW

230 V, 970 79 05-01

- 90-minute fire resistance (EN 1363-1 and EN 14470-1)
- Smoke detector
- Alarm forwarding
- Active ventilation
- Fits under a workbench
- Equip with castor set for plinth
- Ready-to-operate protective sockets built-in

NEW

HUSQVARNA X SKYLOTEC POWER ASCENDER

Battery-powered ascender for tree climbers using the Husqvarna BLi-X 36V battery system. A compact, intuitive, and lightweight solution that saves energy for the work in the tree canopy. With a capacity of 185 kg, it can lift both you and your gear. The remote control allows the ground crew to send additional tools your way, making your job even smoother. Transportation box, remote control and carabiner included. Kit excl. battery, 970 73 58-01.

How long will the battery last?

The operating time with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with, and the type of application. The chart shows an estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations.

The charging time for a fully discharged battery depends on the capacity of the battery and which of the chargers you use. In many cases the charging time will be shorter than the working time. This means that with two batteries available, you can work continuously – one battery operating and the other one charging. The chart contains values for both current (Husqvarna BLi-X) and discontinued (Husqvarna BLi) battery range.
