

Hansa C13

C13 PTO Chipper

Overview

Smallholding owners, orchardists and alike need look no further. Simply hitch this chipper to your 540 RPM PTO and you have a machine that has the same capabilities as its engine powered equivalent. Maintenance is effortless with simple access to the knives and belts. Suitable for any small tractor from 17 – 45HP.

PTO Performance

Increase the capabilities of your tractor with the C13PTO. Suitable for all tractors with 17 to 45 HP and a 540 RPM PTO drive. A low center of gravity ensures a smooth ride when travelling over rough ground with this 191kg chipper. Supplied with a PTO shaft, hitch the unit to your tractor and reach all those hard to reach locations with ease.

Service with Ease

Easy access for routine servicing and maintenance by removing two bolts on the housing. The two A8 modified steel knives have an impressive lifespan and can be sharpened up to 10 times. Access to the belts is easy by simply removing the belt guard.

If advice is required our specialist service team is here to help you get the best from your Hansa.

Quality that lasts

Engineered and manufactured in New Zealand using the highest quality components to last a lifetime. The belt drive between the engine and cutting disc allows for smooth running and protects your PTO drive against shock loading.

Made of steel and finished with a durable powdercoated finish with zinc shield rust protection delivers longevity.
